The Woodlawn Phases. BY PAUL H. HAYNE, MIS I

Yon woodland, like a human mind, Hath many a phase of dark and bright Now dim with shadows, wandering blind Now radiant with fair shapes of light. They softly come, they softly go.

Nature's vague thoughts in gloom or glow

We know that the whole audience will agree that no praise can be too lavish for that which filled almost every conception of what was eloquent, what was graceful, and above all what was just to a race upon whom the world for so many ages has united to heap its contumely, and to whom the Christian world has denied its meagerest charity. Verily, the Christian, quite as much as the Jew, owes some thanks to Z. B. Vance for presenting his noble view of this long suffering and much wronged

The landlord of a hotel said to a boarder: "Look a-here! I want you to pay your bill, and you must. I have asked you often enough for it, and I tell you now that you don't leave the house until you have paid it."
"Good!" said the lodger. "I'll stay

In the office of one of the hotels re cently, a gentleman snapped his finger to a boot-black, and, as he put his foot on the box, he said: "You look like a good, smart boy." "See here, mister!" replied the boy, as he rose up, a brush in either hand, "I have had that game played on me a dozen times, and now want to know whether this is a cash shine or whether you are going to pat me on the head when I get through and tell me I'll be Governor of Michigan

WENT FOR ONE NIGHT AND STAID TEN YEARS. Going over the Lowell railroad the other day was a fussy little man, who was in evident doubt as to which of two New Hampshire cities it would be advisable for him to stop over night. He questioned the conductor as long as that worthy would stop to listen, and then turned to the other occupant of the seat, a thick-necked, short-haired party, and queried :
