Workingmen's Troubles - Thirty Mills Closed-Terrible Drought and Trouble Apprehended-Plimsall's

Shipping Bill. LONDON, July 26 .- The Working: men's Association of Yorkshire, Lancashire and Cheshire, have resolved mill operatives. Thirty cotton mills similar views. closed at Oldham to-day, the operatives having refused to accept the

masters' terms in regard to wages. A"Daily News' special from Lisbon, reports that the drought in several Districts of the Province of Mimbo, has destroyed the crops and pastures. A famine is threatened, and riots against the grain exporters, are imminent. The cattle are dying of hunger. The local authorities report it to be impossible to collect taxes in many places, and an attempt to do so, they fear would cause an insurrection. Accounts from Algorreshaw are of a similar state of affairs in that province. The government is sending relief to the afflicted sections.

The "Times" understands that Mr. Plimsall has procured a revisal of his shipping bill which he previously abandoned in favor of the government's measure, and that it will now be placed on the order book for Thursday. Plimsall will then apologize to the House and consent to the passage of the bill as a provisional measure for one year only.
