"Free from the clothing scruples that fetter our free-born reason."

THE "OBSERVER" IS THE ONLY PAPER PUBLISHED IN THE STATE WEST OF RALEIGH WHICH GIVES THE LATEST TELEGRAPHIC DISPATCHES EVERY MORNING. BUSINESS MEN WILL PLEASE MAKE A NOTE OF THIS.

SUBSCRIBERS

At all post offices out of the city must expect their papers discontinued at the expiration of the time paid for. Our mailing clerk knows nobody, and his instructions apply to all alike.

INFLEXIBLE RULES.

We cannot notice anonymous communications. In all cases we require the writer's name and adress, not for publication, but as a guarantee of good faith.

We cannot, under any circumstances, return rejected communications, nor can we undertake to preserve manuscripts.

Articles written on both sides of a sheet of paper cannot be accepted for publication.

OBSERVATIONS.

Charleston, S. C., claims a German population of 5,000.

During the past year seven hundred divorces were granted in Maine.

Among the odds at Saratoga is a young native of Japan named Mata Muller.

"I'll talk it over with Susan," is the last slang expression coined in New York.

Hoop skirts will be in style again next year. But there are drawbacks even to hoop skirts.

An American girl won the gold medal at the recent examination at the College of Brazil, Rio de Janeiro.

It is announced that in the course of the next ten thousand years the whole globe, will be covered with water to the depth of thirty feet. Select your trees, gentlemen.

The wife of a noted practicing physician advised her husband to keep away from funerals of his patients, as it looked too much like a tailor carrying home his own work.

A lawyer is now defined as a learned gentleman, who rescues your property from the posession of another and keeps it himself.

Samuel Hackenbery, of Alabama, didn't come home at the usual hour the other night, and when his wife found him hanging to a limb the next day she remarked: "I told him to let them hogs alone."

How the ice man of the period can reconcile the size of the average five cents worth of ice with his duty to his church, his fellow man and his future state is a conundrum we give up without a struggle.

One of the September magazines has a poem on "Rainless August," written in July by a man who discounted the probabilities and got badly left.

The Chicago Episcopalians are going to establish a church organ in that city. They think $10,000 is sufficient to place it upon a paying basis, and they are going into it like little lambs.

The fastest time ever made by a railway train was on Sunday last, on New York Central Railroad. The New York Herald's lightning train on the Western end of the road ran seventy miles in sixty minutes.

Some Georgians lost very heavily by the failure of Duncan, Sherman & Co. Andrew Low, of Savannah, had the modest sum of $345,539.12 deposited with the firm.

Colonel Forney finds the German language so "graceful and flexible" that he may possibly make use of it to satisfactorily explain that Pacific Mail matter, concerning which Kelly as yet has not spoken in English.

Kate Field has been writing notes in parliament, and concludes that Disraeli can not be called an orator, "save when he is filled with rage and a more material stimulant."

A minister once said: "Those nice young men who stand outside the church doors waiting for the girls to come out, will some day stand around the inside of hell's door waiting for the girls to come in—but they won't mind."

Theodore Tilton is visiting his parents in Keyport, N. J., and his daughters, Florence and Alice, are with him. He has suspended work on his new book, and has been preparing his new lecture on the "Problem of Life." Every night is engaged from September 20 through the season.

A discreet young lady will not jump at the lightning flash when the parlor is lighted, but when the thunder peals through the murky night, she may curl down in her chap's arms as quiet as a kitten.—*Rome Sentinel.*

In an agricultural convention at Dalton, Ga., a few days ago, a gentleman called upon all present who owned sheep and no dogs to rise, and thirteen rose up. He then called upon all who owned dogs and no sheep to rise, and sixty or seventy responded.

The national grand cliff will be transported across the Atlantic to-morrow. It came over to Long Branch in the boat, and having accomplished its object, now returns to perfidious Albion, where the tail of the British lion will be useful in keeping the flies off of it.—*Argus.*

It is not frequently the case for papers of a low order of intelligence to ridicule the college graduate as a helpless and useless individual. Mr. Avery, of Yale, however, graduated only a month ago, and already he has secured a position of trust at a salary of $3,000 a year. It is a pity for a profession-ti hearted chap.

Mr. Beecher, being introduced to a Quaker gentleman at the White Mountains, said to him: "I understand your belief deprives you of some of the pleasures of this life." The other replied: "It shields us from some of its temptations, also."—Boston Globe.

Four of the editors of the Vicksburg, Miss., Herald, have been killed within as many months; but the Herald says that's nothing compared with the mortality on the Vicksburg Sentinel, which lost five editors and then died itself. Journalism at the South is a rather exhilarating profession.

A Connecticut boy was kicked by a horse the other day and he would have been killed had not the force of the kick been broken by some rotten apples which he had secreted in his hat under his coat.

Some fellow does up the dental fraternity after this fashion:

A dentist, love, makes teeth of bone,
For those whom fate has left without,
And finds provisions for his own
By pulling other people's out.

THE R. R. COMMISSIONERS.

The last legislature made it the duty of the Governor of the State to appoint three Commissioners to take charge of the Western North Carolina Railroad. It was rumored a few weeks or so ago, that the appointments had been made, and the rumor was announced through the columns of this paper, but it proved unfounded. If the appointments have yet been made, they have not been authoritatively announced.

We do not suppose that Governor Brogden will thank us for any gratuitous advice that we may have to offer, but we respectfully represent that this commission ought to be composed of men of known integrity, and who will discharge the duty assigned them in the interest of the people, their masters, and not in the interest of any political faction or party. Railroad enterprizes in North Carolina since the war at least, have resolved themselves to too great an extent into quarrels and wrangles, over the spoils and emoluments. The great body of the people are tired of seeing such an interest as the completion of the Western North Carolina Railroad Paint Rock, made secondary to the behests of party, or fat places for greedy contractors or hungry speculators.

Let the Governor appoint good men, wise men, men disposed to do right, and who will push the work. One such man, we think, can be found in Col. S. L. Fremont, and we do hope that his claims to the position will not be overlooked when the appointments are made.

EDITORIAL RAMBLINGS.

MORGANTON, Aug. 25th, 1875.

DEAR OBSERVER:—When the OBSERVER fails to put in an appearance in the camp of Charlotte pleasure seekers, a perfect tornado of anathemas is hurled at the head of the mailing clerk, by the males and the fair ones, though not joining in, always thank them for the same. We witnessed a storm of this sort at Hickory a few mornings since. The OBSERVER is rapidly rendering private correspondence between Charlotte people abroad and those at home altogether superfluous, and, before another season, provided some accomplished damsel familiar with the gossip of the *bon ton* will take "pity on the sorrows of a poor young man" and form a copartnership with the "local historian," we doubt not, that this glorious consumation will be reached.

A LIBERAL CONTRIBUTION.

We mentioned in our last that the ladies of Morganton had given a tableaux in aid of the Oxford Orphan Asylum. We have since learned that $65 was realized, which, together with some $30 contributed while Mr. Mills was here makes up the neat little sum of $95, and if every community in the State would contribute proportionately as liberal, there would be no trouble about providing for the little orphans.

GENERALITIES.

The crops in this section have been considerably damaged by wet weather, and if it continues much longer it is thought the corn crop will be almost a failure. Hon. B. S. Gaither who was reported in the *Piedmont Press* last week as very seriously ill, is convalescent, and has gone to attend McDowell Court which is now in session. Col. John W. McElreth, of this place, is very dangerously ill, and very little hopes entertained of his recovery. The Federal troops stationed here are officered by very pleasant gentlemen who keep up admirable discipline, and there has been not one instance of drunkenness or rowdyism among the common soldiers so far. Morganton has in Mr. William Sprague a live Mayor, who superintends in person the improvements on the streets, and as a consequence dog-fennel has disappeared.

THE WILBERFORCE SCHOOL.

Bishop Lyman has been unavoidably allayed in opening the Diocesan i.s. The Wilberforce School for boys. He was unwilling to open with any but a first-class man as principal or "head master." It was during the earlier part of his ministry that the college of St. James, in Hagerstown, Maryland, was built, in which enterprise his was the leading spirit, and the success of that institution for many years, was owing to his energy, general capacity and *administrative* ability. We feel, therefore, that in Bishop Lyman the Diocese has no unskilled helmsman, but one well versed and tried in the course laid out to him by the Senior Bishop. Bishop Atkinson would not jeopardize the success of a work fraught with so much good and such great interests, by placing it under the control of any one in whom he had not entire confidence. The delay is not caused by over carelessness, nor because *fair talent* could not be secured. This is the second enterprise of the kind projected by the Episcopal Church in North Carolina. The first failed under its own weight, and because of the absence of that qualification in its principal, which is essential to success. Well, therefore, may the Trustees of this school, which is chartered with full collegiate powers, be careful to select and appoint, not only a scholarly man and a christian, but one possessed also of executive capacity. It is easier to fill a chair at the University than the position of Head Master of such a school, as we trust, under Providence, the Wilberforce School is destined to be.

The following notice we forward at the request of the Rector of Grace Church:

The clergy of the Sixth Missionary District, will meet for the organization of the Morganton Convocation, D. V. at Grace Church, Morganton, on Wednesday, Sept. 8th, at 10 o'clock, a. m.

ORDER OF SERVICES.

On Tuesday the 7th, at 7.30 o'clock p. m., General Missionary Meeting.

On Wednesday the 8th, at 10 o'clock, a. m., meeting for organization.

Divine service and Holy Communion with sermon by the Bishop. Other services as ordered by the convocation.

NEILSON FALLS,

Captain Webb has succeeded in swimming from Dover to Calais; and this is certainly a great feat and exhibits the wonders of which human endurance and strength are capable. It is, perhaps, not so useful an achievement as Boyton's, for Webb cannot communicate his faculty to others for the price of an india rubber suit; but it is far superior as an evidence of human capability to wrestle with adverse circumstances. Every one must rejoice in one aspect of the case. It seems to hold out the promise that we have at last got rid of Leander and Lord Byron as the typical great swimmers. Who will dare mention the swimming over the Hellespont now that a man has swum across the English Channel?

The report of the Deputy Master of the English Mint for the year 1874 has recently been presented to both Houses of Parliament. It appears that during the year the total coins struck numbered 27,467,142, of the value of £2,371,739. The gold coinage, including both sovereigns and half sovereigns, amounted in value to £1,462,929, or considerably less than in preceding years, but to this must be added nearly two millions sterling of gold coinage imported from Australia.

FAT.—One hundred and eight "slab-sided Yankees" met together last Wednesday at Norwalk and celebrated themselves in a fat man's feast on baked clams. The average weight of these men was two hundred and twenty-eight pounds, which is not bad for a dyspeptic and skinny generation.

The recent discovery of extensive coal deposits in California will add much to the prosperity of the State in more ways than one. Last year the sum of $10,000,000 was paid for iron, which cost half as much more for transportation from Eastern and foreign factories.

The Presbyterian Church in this country has thirty-six synods, 4,706 ministers, 506,934 communicants, and 520,452 Sunday-school children.

REASON WHY HENRY WARD BEECHER MUST BE HELD GUILTY.—If the whole conduct of Mr. Beecher does not point conclusively to his guilt, then all the rules governing such cases as laid down in the books of evidence are a deception and a sham. Certainly no person on trial for an offence ever brought himself more completely within the rules pointing to his guilt than has the great Brooklyn preacher. Whatever subterfuges may be resorted to by his adherents to break the force which his conduct and confession must have upon the public mind, there is one thing that Mr. Beecher cannot escape the consequences of, in the estimation of all decent people, and that is, his cowardly attempt to fasten the guilt of his improprieties, whatever the extent thereof might have been, upon an inoffensive, helpless woman, whose good name had before that been above suspicion. For this dastardly conduct alone, he deserved a verdict of guilty.—*Chicago Legal News.*

JAY GOULD'S BABY.—Now, there is the other friend, Jay Gould, he does not look as if he did it. Even when unbending in the midst of his family, Gould has a sinister cast of countenance. I saw him going to Long Branch the other day, all attention to his wife, a quiet, plain lady, evidently an invalid. There was a girl, twelve and a lad ten, and a beautiful, frank-faced boy of four, and a two-months-old baby, unfortunately a girl. If that Jay Gould baby was only the other sex you'd hear of it making a corner in nurse bottles and selling the market on safety pins early next week. I never saw such a wise old baby in my life. There was speculation in its very eyes, and when it cried you could detect the latest quotations. I don't know what its name is, but would suggest they hang it up as a stock indicator and call it Fire Short.

W. W. HOLDEN.—We must confess some little surprise at some of our State journals advocating the immediate removal of Governor Holden's disabilities, but perhaps it is magnanimity and that is always laudable. The democrats imposed these disabilities after ousting him from the office of Governor. Well, we do not know but that it is proper that they should be removed. Give the old man another chance, as some one says, for he may yet make himself useful. We can remember when he was a great democratic power in our State, one of the ablest editors in the country—and the vilest sinner have the privilege of returning.—*Tarboro Southerner.*

Thurman's locks are gray, his stomach is an ample one, his movements, bodily and intellectual, are conservative. He is not a being of crosses, but thoroughbred to the bone. He never wore a paper collar in his life, on the contrary, his swallow-tailed coat has the easy fit of familiarity with good society. It may be fairly doubted whether his favorite beverage is not cognac. In one words, Judge Thurman is a gentleman, an old Virginia gentleman, a gentleman of the original Jeems river school, high-toned, cold-nosed, with a watch-fob and a silver-headed cane. He came to the front during a period of extreme drouth.—*Courier-Journal.*

GORDON.—The Atlanta *Herald* is authorized to say that Gen. John B. Gordon will not attend the rag money convention at Detroit as has been telegraphed. While Gen. Gordon does not abate one jot of his views on inflation, he is of the firm opinion that the currency question should not be dragged into the next campaign, and does not believe in pressing it upon public attention just now.

STATE NEWS.

It is a mistake that Judge Purches and Cloud will exchange circuits.

Rev. Mr. Gilmer was acquitted at Alamance Court of immoralities.

An Edgecombe pig, seven months old, pulled the scales down at 187.

Lt. Gov. Armfield is in New York on business connected with the Western N. C. Railroad.

The negro, Warren Hare, who poisoned policeman Crossan, of Raleigh, has been bailed in $500.

T. A. Bogle, Esq., of Salem, realized 182 bushels of wheat from sowing five and a half bushels.

A thief broke into Mt. Mitchell Church, Cabarrus county, a few days ago, and stole the pulpit bible.

Mt. Pleasant, Cabarrus county, announces her readiness to pay $25,000 towards getting the Cheraw road built.

Rev. Dr. R. S. Moran, has been called to the pastrate of Bethany Independent Methodist Church of Baltimore.

A gang of revenue officers made a raid in Cleaveland county the other day, and cut up and burned several stills, and still houses.

A Gates county lad, Isaac Powell, was kicked in the stomach by a mule while marketing some sheep in Norfolk Tuesday morning. He is in a critical condition.

The Shelby *Banner* says that the father and mother of Allen Bettis Esq., of Cleveland county, both died the same day and were both buried at the same time and in the same grave.

A week or two ago the horrible crime of rape was perpetrated in Johnston county, upon a highly respectable young lady named Miss Rhode Enniss, by a burly negro man who was afterwards arrested and confined in jail.

Josie Mansfield passed over the Wilmington & Weldon Railroad, going North, some days ago. The news that she was aboard preceded the train, and the Tarboro *Southerner* says the excitement along the line was disgusting.

Two young men from Craven county have been arrested in Kinston for passing counterfeit money. They confessed and said further that they had the moulds for making the pewter nickles, for passing which they were apprehended. So says a correspondent of the Raleigh *News*.

The Tarboro *Southerner* says that Mr. Wm. A. Brown representing a Philadelphia firm has purchased for $25,000 the Mann gold mine property in Nash county. A quantity of the machinery has already been received, and operations will be commenced at an early day.

Greensboro *New North State* says: Robertson, the marble cutter, is at present cutting a stone for a man who died in 1816. He has been dead so long, no one knows upon what day of the month he died, the inscription reading, "Died in May, 1816." Better late than never.

By the death of Thomas W. Dewey, Grand High Priest of the Royal Arch Chapter of North Carolina, that office now devolves upon Col. Thos. S. Kenan of Wilson, Deputy Grand High Priest. The *Advance* remarks that at this time, Wilson has the highest officers, both of the Grand Arch Chapter and the Grand Lodge—George W. Blount Esqr., being Grand Master of the State.

Wilson *Advance*: The Radical Sheriff of Granville has proved to be a defaulter to a large amount. Besides a heavy loss by the county, we understand several merchants of Oxford will lose largely by him. In Wake, New Hanover and Granville, three large Radical counties, Sheriffs have fallen short over $100,000! Do the white men, the tax payers of the State, want more Radical rule?

The rampant animalism of the Woodhull school is only equaled by its sublime idiocy. An Ohio subscriber writes to the Woodhull publication of a dirty show administration:

"You are doing a splendid work for the coming generation, in building up a tangible structure of humane religion, founded upon the very element of life from which humanity evolved. This is the true and natural religion. It is the harmony of God's beautifying and unfolding self-wood in the individual."

This "unfolding of self-hood in the individual" has been going on ever since Adam was born. Self-hood is what ails the whole human race, and we have been trying in vain to make it fit our religion ever since the ten commandments were made. If the coming generation is to devote itself to unfolding that thing, the world may as well call on Brother Sherman at once to lead in a grand, universal weep.—*Louisville Courier Journal.*

The Milwaukee *News* thinks that presenting President Grant with two bibles was "overdoing the thing." The *News* is meddling with something which it does not comprehend. There can be no doubt that the person who gave him the bibles knew best. It could hardly be expected that one bible would be enough to convert a whole President, particularly the present Chief Magistrate and it will be a mercy if the American Bible Society isn't worked to death before we do get just the kind of a President that Grant ought to be.—*Courier-Journal.*

WHAT DR. TOM EVANS writes to the Vicksburg *Herald* from this State: The Rads are alarmingly healthy; so far from dying or getting killed, one of their Convention men had a mule to throw up both heels and strike him in the forehead plump. It only broke both the mule's legs, and the same man was in Raleigh the other day on a blind drunk.

AND
ALL KINDS GALVANIZED WORK
Which he will sell Cheaper than any Person.

Office hours from 8 to 12 m. and 2 to 9 p. m.

APPLEGET would beg to inform the public at large, that he is prepared to furnish Plans of all kinds of buildings, with working drawings in full, which will be found much plainer than those of any other man in the State, he being a practical builder, having an experience of 15 years in three of the largest cities of the United States. He can answer any question or give any information in regard to the construction of any part of the building, as he is fully qualified to go and do the work himself. With 15 years as a builder and 14 as an Architect, he knows just what is necessary for a mechanic to get along with, and with this experience you will at once see that he has a pretty good knowledge of the business. You can judge for yourself as to whether a man is an Architect without being a practical builder. Some in this State claim to be Architects when they have no knowledge of the business and can only be called draftsmen, and need some one to instruct them at all times should they undertake a job. For the last six years he has been employed in this State and has done all the best buildings, with only a few exceptions in Raleigh, Goldsboro and Greensboro, and almost all over the State, where persons can see his work.

In Charlotte he would call attention to S P Smith's Iron Front Building, and Sims & Dowd's Store, and a number of the private residences here.

He refers to all who have employed him as Architect and Superintendent to his ability. He can furnish, if any desire them, the name of parties and buildings, but cannot do so here for the want of room.

He can show as many fine buildings as any other man of his age, and will take pleasure in doing so. Any person visiting Charlotte is invited to call and examine his drawings, which he has at least 500. He guarantees to have 50 to 1 of any other person in the State. All are invited to examine them whether they are going to build or not. The ladies are specially invited.

A NEW BUSINESS
IN
CHARLOTTE!

I HAVE opened in Charlotte an establishment for the purpose of
BOTTLING SODA WATER,
In connection with the manufacture of the celebrated
HELFENSTEIN GINGER ALE.

All my machinery is new and of the most approved pattern, and cannot fail to do good work.

My manufactures are put up in such boxes as will suit for use in families and for shipping purposes.

The Soda Water is flavored and prepared for immediate use.

Call at the rear of Vogel's Tailoring establishment opposite Charlotte Hotel.

T W WEST.

WE KEEP
Constantly on hand a good stock of Salt, Molasses, Sugar, Coffee, Bacon, Lard, &c. which will be sold at bottom prices.

Give us a call.
