A citizen offers to take the census of the city and have it complete and correct for the sum of \$10. Won't they take him up? Tuesday, 21st inst., is the day for the

autumnal equinox. Look out for squalls. Court ends to-day, and notwithstand ing the business has been pushed rap-

idly, there are scores of cases yet remaining on the docket. "Hic-'spose you'll wait till I git my hat," was all that the drunk fellow said to the Sheriff, day before yesterday, after Judge Schenck had ordered him to jail for con-

tempt of Court. A special train will run from this city-on Sunday next, for the accommodation of those who wish to attend the camp meeting at Morrow's Turn Out, on the Charlotte, \$9,55 Columbia & Augusta Railroad.

## The Hornet Fire Company.

At an adjourned meeting held last night, the resignation of Capt W H Trezevant, as Captain of the Company, was received, that gentleman having removed to Augusta, but was not accepted. Besides this, only routine business was transacted.

## Seizure of Whiskey.

On yesterday deputy internal revenue collector P H Phelan, seized two barrels of whiskev at the depot in this city. while in transit from Columbia to Philadelphia. It was shipped by Hardy Solomon, of "Hardy Solomon Bank" notoriety, and was seized because the barrels were unstamped.

## New Bakery.

J L Webb, of the Shelby Banner, was in the city, yesterday, on his return home from Rateigh.

A Court Incident.

A little pleasantry which created considerable good humor at the time, occurred in the Court House the other day.. Col H.C. the blinds behind him drawn to, as the light prevented his seeing His Honor. The Court replied that, if the blinds were closed court replied that, if the blinds were closed the heat would be oppressive to him, and suggested to the attorney to move his seat.

"Never mind, sir," replied Col Jones. "I who is a seat of the self of these loans are likely to be disturbed upon forged orders in the name of Col who is and in default of bail in \$100, went to to follow the funding of the fire live per its that he deep one should be appressive to him, and the heat would be oppressive to him, and the same of the amount held as security. Neither of these loans are likely to be disturbed for years, and bankers are now anxious to replace them with the four and a half per tent bond, the sale of which is and in default of bail in \$100, went to its that he deep one should be oppressive to him, and the name of Col who is a security. Neither the sale of the sale of which is and in default of bail in \$100, went to its the sale of the sale it," and with that he drew one shutter to. | jail.

### Prisoner Going Through.

A good looking young white man arrived in this city last evening on the C, C & A. train, under a guard from Winnsboro, S C, and was put in the lock-up until this morning, when he will be taken to Monroe, where, it is alleged, he perpetrated a theft of some clothing a week or two ago.

#### Business Lecations.

Mr E J Allen intends to move his jewelry establishment into one of the store rooms which have just been built on Trade street

in the addition to the Central. Messrs H F Daniels and W H West, of Dalton, Ga., will establish a bar and billiard saloon and restaurant, in that one of these stores between Mr Allen and Mr Hales. They are real estate owners in Dalton, but will sell out and remove to Charlotte.

#### The Shooting of Joe Crews.

A daughter of Joe Crews, the shooting of whom is reported in another column, was here at the time news of the affair was received. Adam Crews, his son, a route agent on the Charlotte, Columbia & Augusta Railroad, has also gone to Laurens, where his father is lying in a dangerous condition. The Greenville News, of yesterday, reports that Crews' chances of recovery are very slight, Up to 8 o'clock Thursday, but one of the five balls had been extracted, though the other balls had been probed for, to the depth of three or four inches. From one of the wounds there was an escape of air from the lungs, and Crews' lower extremities were paralyzed.

#### The Carolina Central.

We understand that Col Fremont is at the head of the Carolina Central Railroad, directing the work there in person, and that he says he will put the road through to Shelby by the 15th if he has to work a force both day and night. Two or three gravel trains are up the road, and nearly all the available force in the employ of the company, and the work is being pressed for-The Carolina Military Institute will ward with the utmost vigor. #### Banished from the City.

Those shining lights, Ella Bell and Josephine Hammond, who were committed to jail, about a week ago (they having been just the day befere turned out) for vagrancy and cussedness, were discharged from custody yesterday morning. The sentence of the law is still held over them, and they were told to leave the city and that if they ever returned they would be re-arrested and cast back into pris-

Thus is the community rid, finally we ever knew.

## The Neptune Fire Engine.

The members of the Neptune Fire Company, or a portion of them were out yesterday afternoon, to make the third and final test of the engine which has just been received by the company. All the members not being present, a portion of Diffendal's hands were engaged to assist in the pumping. The engine threw a stream 184 feet. The requirement is 200 feet. The test was made in the presence of the committee appointed to pass upon the engine's work. The committee were to have held a meeting last night to settle whether or no the engine should be accepted, but the meeting did not take place.

## The County Prisoners.

County Commissioner Vail informs us that Messrs Diffendal & Co., offered 50 cents per day per head for the prisers in the county jail instead of \$1, as we stated yesterday. We were misinformed as to the price. Mr Vail tells us further, that at the next meeting of the Board of County Commissioners, he will use his endeavors to have the pris-Co., or other parties who have made pers, and from the way he took the propositions for their hire. ### Train Delayed.

The Wilmington train for Thursday evening, due here at 8:45, did not put in an appearance until about 7 last evening. This was due to the giving way of the flues and pumps of the engine on the road between here and Wilmington. The down train arrived on time yesterday afternoon, but the up train last night was behind again.

### Good Advice vs. Bad Taste.

Jennie June, in her last fashion letter, gives the girls a good sound scolding, and they will no doubt be interested in what she says, and then-pay no attention to it. She says that the epidemic for striped stock- present Constitution. The principal ings which has been raging more or less for the past two years has at last taken a form which will speedily put an end to them among refined women. There are reasons cogent with every lady who possesses delicacy and teste why she should not dress her limbs in the attire of ballet dancers; why she should not set herself to stimulate and encourage the ribald conduct of men who watch on hotel steps, on the street corners, at the church doors, for opportunities to make their jokes on women who suggest them. A lady may wear, as many do, the finest of silk, the most delicate of thread, she may match the tints of her dress, and thus harmonize every portion of her toilet with perfect propriety; but when she wears hosiery only fit for a harlequin, and shortens her dress in front to a vulgar extreme. to show it, there is very little of modesty or womanhood left that would not be sacrificed to vanity and love of display.

### The Recent Bank Fallure.

The Salisbury Watchman, speaking of the statement that the business men of Charlotte and "the ming" are responsible to the. people for the losses sustained by the recent failure of the Bank of Mecklenburg, says

"Rather an ugly showing, we think, for the high toned honest old Hornets' Nest. Can't our fertile young friend, Jo, help the future London out of this scrape? Do say something to console the heavier losers, at least. The five, ten, twenty and hundred dollar fellows need no attention at all. A The Rain. loss like that gave them something to talk the money.

The Future London will help itself out of this scrape in a very short time, and its citizens need no consolation from us. They are not of the sort to sit down and grieve over spilt milk. They have long since gone to work to repair their losses, and Charlotte is going ahead, building and trading, and buying and selling, and in every way rushing along toward being a big city, just as if no failure had ever taken place within her borders. It will require more than the failure of one bank to check the entrprise of its people, and soon there will be no evidences left of the disaster which has just overtaken the Future London.

## A Thick Skinned Darkey.

Yesterday evening that same little hope, of two of the worst pests it duck-legged guinea nigger who was thrashed not long ago at Walter Brem & Martin's store, sauntered into the store again and began talking about the walloping which they had previously given him there. He was strapped and on the make, and when asked if he wanted to go through the process again, announced that "Barkis was willin." So they struck a trade with him; he was to be whipped with a buggy whip, at the rate of two and a half cents a lick, and they were privileged to lay on as hard as they liked. With parts of two garments on, which, for the sake of courtesy we will call shirt and pants, he stood in the middle of the floor and took twenty lashes, as hard as they could be laid on. Had the whipping been done in the street, each stroke could have been heard for a block. When the crowd got through with him, he pocketed his 40 conts, and declared his perfect willingness to take as much

more whipping on the same terms. We can't imagine what sort of hide covers him. When asked if the whipping hurt him, he said no, if it did he wouldn't take so much for so little money. He seemed to think he was oners farmed out to Messrs Diffendal & playing an excellent joke on his whipthrashing, we are inclined to think so

## Surrender of Circulation.

To-day the First National Bank of Charlotte, N. C., surrendered, \$225,000 of its circulation; the Sixth New York National Bank \$67,000, and the First Jamesburg National Bank of New Jersey \$27,000. Under the law, banks surrendering all their circulation are compelled to go into liquidation. Fortyfive thousand dollars is the amount required to be kept if the bank is to retain its certificate of organization. Washington Correspondence Baltimore

It should not be understood from the above that the First National Bank, of thir city, has gone into liquidation, or proposes to do so. It has left, \$150,000 hand promptly without calling, sometimes of circulation, as we are informed by to return empty handed, rigg bun stoile for the purpose of buying other, and better bonds. They say that it is not profitable to hold circulating notes now, while the premium on United States bonds is so high and they prefer to profit by the sale of the bonds now. Upon this subject the New York Herald of the 8th says

"The indications are that the banks will henceforth rapidly deposit legal tenders for the redemption of their circulating notes in order to avail them-selves of the premium upon the bonds held as security for such circulution.

The amount of six per cent bonds in the hands of the Treasurer is but little. over \$40,000,000, while the ten fortics and new fives make up nearly the en-

The only resolution introduced by the Republicans was one for adjournment sine die, which lies over under the rules. A majority of the committees are composed of Democrats, with the ablest men of the Convention as chairmen. The session was protracted, but harmoni-

### In large effusion o'er the freshen'd Can the Election of Judges be taken

from the People ! A learned lawyer calls our attention to the 414 Article, Section 2, of the Constitution of the United States, which provides

"Representatives shall be apportioned among the several States, according to their respective numbers, counting the whole number of persons, excluding Indians not taxed. But when the right to vote at any election \* \* \* for the executive and Judicial officers of the State is denied to any of the male inhabitants of such State or in any way abridged \* the basis of representation therein shall

be reduced in the proportion which the number of said male citizens shall bear to the whole male citizens in such State, twenty one years of age." So it seems if we deny to all the "male

citizens" the right to vote for "Judicial officers" we lose all our representation in Congress. The words of the 14th amendment seem to be very plain and the result This is an interesting question, and our

Suggestion About Postal Regulations. A stranger in this city, on the look out to

see what may be seen, and noting things that appear strange or not altogether like what is customary in other parts of the world, I observe among other things, which may be improved, the following: There is no messenger to deliver letters. Now, sir, suppose there are two hundred persons going daily to the postoffice for their BEST IMPORTED AND DOMESTIC letters. Allow each person one hour. This say, at 20 cents per hour, is \$40 per day lost to the community. Now, sir, let two messengers be applinted at \$2.50 per day. and all the letters in the city could be promptly delivered, as they arrive at the office, and a raying would be effected to the community at large of \$10,920 per annum. This is reckoning 6 days to the week.

How this may be done, it is not my purpose to show, but it seems the duty of the United States Government to provide the officers and pay them, as every person buying postage stamps is contributing to their service, but failing this, in it would pay the townspeople to unite and raise a fund for The annoyance to the postmaster will be
