RESPECTFULLY, M. KOPPEL

THE CITY CITY BULLETIN

The Lady of Lyons at the Opera House to-night. There is every probability now that we shall have fine weather for the races.

The re-structuring of the front of the First National Bank building, was commenced yesterday.

A good many people have arrived for the races, and the hotels and private boarding houses are beginning to fill up.

Those who care nothing for races and bare ball can skip this page for the next three days and turn to some other.

The managers of the recent colored excursion to Charleston, did not "put money in their purse."

Dr. C. F. Brem and Mr. J. W. Hubbard have established a tobacco factory over the office of Wooten's Express, on Tryon street.

The work on the College street pavement has been completed, and the improvement which has been made is very perceptible.

An important dispatch relative to the Atlanta & Richmond Air-Line Railroad, appears in our telegraphic columns this morning.

The depots and Court House are newsworthy everywhere except Carolina Park and the offices of the officers of the Park Association. All interest now hangs around the races.

The increasing popularity of colored shirts as the cold weather approaches, is becoming so great as to cause remark. Colored shirts do not show dirt, and it is not so comfortable, on a frosty morning, to stop in the midst of one's toilet, to put the studs into a clean shirt.

The Central Hotel has just put up a new register. The last one was opened on 22d of March of the present year, and closed on the 14th of the current month. There are 478 pages in the book, and an average of 25 names on a page. This statement gives some idea of the business of this hotel.

Death of a Cadet. We learn that a young man named D. Nobler, from Charleston, who had been a cadet at the Carolina Military Institute of this city, died a few days ago between Columbia and Charleston, while being taken home. He was a delicate youth, and died we believe, of hemorrhage of the lungs.

Personal. The following gentlemen among others, registered yesterday at the Central Hotel: Hon Kemp P. Battle, of Raleigh, W. A. Davis, Esq., of the Oxford Torchlight, Messrs R. F. Simonton and T. S. Tucker, of Statesville, Maj J. W. Wilson, of Morganton, an Col S. L. Fremont, of the Carolina Central.

Mr. P. C. Wilson and bride have returned home. "The Lady of Lyons." This evening the Watkins Troupe will present the dramatization of Bulwer's splendid novel, "The Lady of Lyons," at the Charlotte Opera House, with Rose and Harry Watkins in the leading. Those who have never seen this play should by all means attend to-night, and to those who have seen it, it will bear repetition. There are few finer dramas, and the Watkins Troupe is said to surpass itself in it. Reserved seats can be secured at Phifer's book store.

Theft in Providence. Night before last, a negro named Anderson Massey was brought to town and lodged in jail, for "a matter concernin' of a hog," belonging to Mr. W. M. Mills, of Providence Township. He had concealed it in a chest in his house, and when the officer went to search for it, the negro ran. He was pursued, and, after a mile chase, was captured. He admitted the theft, and said he could not give bond, so they brought him right on to the jug.

A little boy was put up at the same time for stealing cotton in the same neighborhood. The Courts. Mayor's Court.—Robt. E. Allen, colored, was up for an affray. Submitted and was fined \$1 and cost.

Before Justice McNeich.—Geo. W. Ayers, was up for an affray with G. W. Johnston, and was fined \$5 and cost.

Green McEwen, colored, was up on a race bond, and was bound over.

Ed Scott, colored, for stealing cotton, was bound over in \$300. Same, for trespass, bound over in \$100.

Jack Copeland, colored, for an affray, was fined \$3 and cost.

Watches, Clocks, Jewelry, &c. Mr. J. T. Butler says to our readers this morning, that he has a large stock of watches, clocks, jewelry, fancy goods, &c., for sale, cheaper than ever.

His establishment is a perfect gem of the kind, containing all manner of the most beautiful goods in the watch, clock and jewelry line, and all arranged with the utmost taste. The most attractive feature of the place, however, is the low price at which everything is sold, goods being marked down to prices at which no one can have the face to complain! Besides all this, Butler is one of the very best of fellows, and well deserves the large patronage which is bestowed upon him.

High Rents. Talk and complaints are quite general of high rents. In view of the truthful and universal complaints of hard times, which in spite of all that can be said to the contrary, nevertheless, is a fixed fact, asserts itself throughout the great republic, at this crisis, it might be a very proper subject for the consideration of landlords and property-holders as to whether reduction of rents may not be demanded by the emergency. High rent is a great burden, at times too heavy for moderate incomes, or for meritorious persons just embarking in a new business, whose promise is mostly in the future. Interests are so interwoven that the interests of tenant and landlord are dependent the one upon the other. Adaptation to time and circumstance and occasion, is a secret in the versatility of mind and genius necessary to individual success and general prosperity.

Meeting of the Street Committee.

The Street Committee of the Board of Aldermen, consisting of the Mayor and Aldermen Brown, Myers, Miller and Oates, met yesterday morning. The most important of their business was ordering that the work in front of the Central Hotel, and on College street, should be removed, and its place supplied with sand or gravel. This will be done in a very short while.

"Hymen's Torch." Last evening, we received the following notice: Married in Thomasville, Ga., on November 10th, at the residence of Hon. W. M. Hammond, by the Rev. P. T. Babbitt, Mr. H. Trevevant, and Fanny, daughter of Mr. H. B. Hammond, of Charlotte, N. C.

In addition to the above, we have received more acceptable proof of this marriage, in a package which contained a lot of delightful wedding cake. We beg to tender our acknowledgments for the remembrance.

Sneak Thieves at Work. On Monday night, while the family of Dr. E. H. Green, who lives at the intersection of Sixth Street and the North Carolina Railroad, were at supper, a sneak thief entered the front door and stole Dr. G's overcoat, which was hanging on the hat rack. He also picked up a medical satchel and carried it a short distance, but concluding that it would be of but little value to him, dropped it and departed, with the coat as his only booty.

We have warned our people on several occasions of late, of the danger to which they expose their property by leaving their front doors open after dark. Just at this particular juncture it is especially important to them to guard all the approaches against the light-fingered gentry.

Historical Society. At a call meeting of the Mecklenburg Centennial Historical Society, last evening, the meeting was called to order by the President, and a quorum being present, on motion, Gen. John A. Young and Col. E. A. Osborne were elected members of the Society. Col. Wm. Johnston then moved that an Executive Committee of five as required by the Constitution be elected, and after a few well-timed remarks, the motion was adopted. Col. E. A. Osborne, Gen. R. Barringer, S. Witkovsky, Gen. T. F. Drayton, and Gov. Vance were elected as the executive committee of the Society for the ensuing year. On motion the Society adjourned until the next regular meeting, on the 1st Tuesday of December, when business of importance will be transacted.

Keep Your Children at Home. The presence of diphtheria in the city, should warn our people to take all possible precautions against its further spread, and one of the first things that suggests itself in this course, is for each family to establish a kind of quarantine as it were; discourage the visits of other children to their houses and at the same time keep their own at home. There is no telling how much disease and death may be prevented by following this course. The seeds of the disease may be in a child, and even before this is known may be transmitted to another. Common prudence therefore would seem to dictate to parents, at this time, when this fearful malady is abroad, and is blighting so many fair flowers, that this all important measure be adopted. True it is a deprivation to the children to be cut off from the society of each other but far better this than when they encounter the risk of a disease which is so often attended with fatal consequences.

"Prevention is better than cure," any day, even if it is certain that cure can be effected, and we think that the suggestion which we make is worthy of serious attention.

Race Notes. The races open to-day, where the programme published elsewhere in these columns will be observed.

The Monroe Club, which will contend to-day with the Nameless Nine, arrives this morning on the 8 o'clock train.

Yesterday afternoon about 25 of the horses which have been entered for the races, were paraded through the principal streets. They made a splendid show, and were very much admired.

Pools will be sold to-night at Cochran's Exchange, on the match game of base ball which will be played to-morrow between the Lone Nine and the Mecklenburg Nine.

Mr. J. T. Butler, with characteristic generosity, has presented to Carolina Park Association, a handsome silver cup and pitcher, the first to be given to the successful club to-day, and the second to the successful club to-morrow. The articles can be seen in Mr. Butler's show window.

The pool selling on the races to-day, took place last night at Cochran's. Little interest was manifested and the pools sold low and slowly. In the first race, 2 mile dash, 3 starts, First chance was the favorite; in the second race, mile heat, 3 entries, Libby L. was the favorite; in the third race, 1 1/2 mile dash, 6 entries, Vanderbilt was the favorite.

New Railroad Project. From reliable information, we gather that a bill will surely be passed through the next Congress to finish the W. N. C. Railroad. There will be a proviso to the bill, that the Black Mountain must be taken in the course, the railroad being graded around the cliff from base to summit. Engineers have computed that it will have to encircle the mountain 14 times to reach the apex. All the convicts in the Penitentiary of New York are to be engaged in this grand work, their service being obtained from the State at a comparatively low figure. Duck River is to be rendered navigable clear to the base of Mt. Mitchell.

"Once more we begin to see prosperity dawning over our land." The shriek of the Iron Horse and the bell of the Steamboat will echo again and again in our mountain solitudes. All the freights from the great marts of the West, St. Louis, Chicago, &c., will pass through dear old North Carolina. Not only will the signal station on the Black be benefited by this grand and consummate arrangement of our legislature, but it will be a source of immense wealth to our native State. God bless old North Carolina, may she in one hand hold wealth and power and riches, and in the other, years and ages of peace and joy.

Mausoleum for the Recumbent Statue of Lee.

Gen. R. D. Lilly, the representative of the Lee Memorial Association to receive contributions to the fund for the erection of a mausoleum, for the erection of the recumbent statue of General R. E. Lee, which is to be placed over the remains at Lexington, Va., is in our city. The statue has been provided for, and is considered a beautiful work of art, and a correct likeness. To prepare a suitable memorial structure for the tomb of General Lee, is the most sacred tribute that can be paid to his memory, and doubtless our people will contribute liberally to the fund. All will give something.

The Reporter and the Fair. We do not wish to have the name of rejoicing over the misfortunes of our brethren, but we cannot forego the pleasure of smiling to ourselves as we look at some of our neighboring papers and see great long reports of Agricultural Fairs, and reflect that we have no such work as that to do this season. A poor devil of a reporter never feels so sensibly that this world is all a delusion and a snare, as he does when, after snatching a few hours' sleep, he gathers up his notes book, and starts to the Fair Grounds, there to stay and be bored during the five long days. At dark he returns to the office and writes till 3 or 4 o'clock in the morning, about squashes, and pumpkins, and cabbages, and potatoes, and about what a "perfect success" and how "highly enjoyable" the Fair was. Then at 8 o'clock he starts out for another day, and the same programme is observed.

We are sorry for you brethren who have this to do; for our own part we have served our apprenticeship at it and have retired with our laurels. These laurels consisted in the title bestowed upon us by our discriminating fellow-citizens, and that title was, the champion liar of Western North Carolina. We won it by reporting the "Fair of the Carolinas," the "New Fair of the Carolinas," &c., &c., and we deserved it. And now, thinking over those times, it is our deliberate conviction that if there is any one thing in the world better calculated than another to send a reporter off on a ten days' bender, it is an Agricultural Fair. We are done with 'em. We wash our hands of 'em. If Charlotte ever has another, we will employ a substitute and stay in bed till the Sunday after it is over.

PROGRAMME OF FALL MEETING ON CAROLINA PARK.

FIRST DAY, NOV. 17, 1875. Match game of Base Ball between the Monroe Club and Charlotte Nameless Nine. Game to commence at 11 o'clock A. M. sharp. Premium, Silver Cup. Races to begin at 1 o'clock, P. M.

DIED

In this county, in Berryhill Township, on the 15th inst., Fannie Milmound, daughter of James S. and Lizzie J. Berryhill, aged 4 years, 1 month and nine days.

"Of such is the Kingdom of Heaven."

SPECIAL NOTICES

Ladies will experience much less trouble with their sewing if they use the Eureka machine. Try it once and be convinced.

An old Baltimore negro who had emigrated to Liberia years ago, ordered a quantity of Dr. Bull's Cough Syrup a short time ago, stating that although coughs and colds were not frequent in Africa, he would not like to be without it in his family.

Notice to the Singer Sewing Machine Co.—The following letter explains itself: To the N. C. Agricultural Society, Raleigh, N. C., Nov. 5, 1875.

T. H. Head, Esq., Manager Singer Manufacturing Co. My Dear Sir:—On examination it appears that the gold medal awarded to J. and J. Johnson, Managers of the Wheeler & Wilson Manufacturing Co., for the best sewing machine with the most useful attachments, was so entered by a mistake of the reporting committee.

The Executive Committee have ordered that the medal be awarded to you, and it now stands in your name on the premium list. Respectfully, J. DEVEREUX, Secretary.

NEW ADVERTISEMENTS
