Military Changes—Amendments to the Enforcement Act Proposed—Departing Delegates to St. Louis—No Decided Preferences.

WASHINGTON, D. C., June 23.—General Schofield has been ordered to West Point, Gen. McDowell to the military division of the Pacific, and Col Ruger to the department of the South. The division of the South is to be discontinued.

The Senate has up the bill to amend the second, fourth and fifth sections of the enforcement act.

The House is progressing slowly with the civil sundry appropriation bill. No committees this morning.

Many are departing for St. Louis. No boisterous preferences are expressed for any candidate—conservative money and strong Chinese planks, with Tilden, are most whispered. There are no positive demonstrations in any direction.

NEBRASKA.

Engagement With Indians.

OMAHA, NEB., June 22.—The following has just been received at Department Headquarters from Capt Nickerson, aid to Gen Crook, dated Capt South Fork Tongue River, June, 19th, via Fort Fetterman, 23d: "We had a sharp fight on Rose Bud Creek on the morning of the 17th inst. which lasted several hours. Our loss was nine men killed and twenty-one wounded. Capt Henry of the 3rd cavalry, was the only officer hurt. He is severely wounded in the face. We won the fight and camped on the field. The Indians made the attack and had a force which they no doubt believed sufficient to whip this command. A private dispatch states that Gen Crook had his horse shot from under him during the engagement.

MARYLAND.

Decision in a Lease Case.

BALTIMORE, June 23.—In the ninety-nine year lease case, the court passed a decree directing the defendants, upon the complainants making the return of the fine of two pounds 10 shillings sterling, with all arrearages of rent due under the lease up to the time of such payments and cost, to execute a new lease of 99 years commencing at the original term of the lease at the same rate. The court says it is of the opinion that our courts of equity ought to grant the relief asked for, and compel a renewal on the equitable conditions stated in the decree before. The Court of Appeals affirms the decree of the Circuit Court. The possession of millions of dollars' worth of property in this city is quieted by this decision.

The Whims of Abdul Aziz.

(Letter to the New York Times)

Three days after the future of the Government to pay the interest on its obligations he made his chief eunuch a present of 20,000 francs, but ordered the sum paid from the public treasury. At one time he amused himself in his harem for days at a time, then went to building palaces, then passed agreeable hours in counting over his gold. At one time he took it into his head to have some wild beasts, and wanted some tigers. Agents were sent off at once. Fearing to cause his Majesty some discontent, they sent off emissaries in every direction, with orders to purchase without delay, and the result was the arrival of fifty superb tigers about the same time. But no sooner had they arrived than the Sultan concluded that lions were better suited to his palaces; the tigers were exiled into Asia, and the agents were once more sent out to purchase lions. Fifty of these beasts arrived, but after looking at them two or three times his Majesty had a fancy for parrots. As soon as this was known, all the merchants in Constantinople ordered parrots, and in the end the city was filled with them. The cargoes that arrived too late were sold in the shops—over 100,000 of them. It was the Minister of Finance who had to pay the bills for all these fancies, and this will show why Turkey is bankrupt. All this time the Sultan was piling up his private hoards.

JEWISH POPULATION OF THE UNITED STATES.—A Jewish paper published in London, says that of the six million Jews in the world, a quarter of a million are to be found in the United States. We have no accurate figures of recent date to confirm or correct this estimate, as our decennial census returns give no distinctive enumeration of Jews; but we judge from a number of facts before us, that the estimate of the London Jewish paper is far too low. Rabbi Gotthel, who is well informed, and careful in his language, says that the Jewish population of this city alone is over 70,000; and the Jews are to be counted by many thousands in all our large cities; including New Orleans, San Francisco, Chicago, St. Louis and Cincinnati. There has been a large immigration of Jews to the United States from the various countries of Europe during the last twenty years, and the prosperity they have enjoyed has enlarged the current in this direction from year to year.—N Y Sun.

CHILD AGAIN.—George W Childs rolled his eyes in a fine frenzy the other morning as he observed the first green apple of the season on a corner fruit stand, and, rushing to his office, he dashed off the following: "Put away the pretty plaything which is the darling used to frolic. He will need them on earth never, for he died of bilious colic," and, marking it "\$1 per line," he sent it down to take its place with the other obituary treasures of the counting room.

FAULTS.—He who boasts of being perfect—says a modern writer—is perfect in his folly. I have been a great deal up and down in the world, and I never did see either a perfect horse or a perfect man, and I never shall until I see two Sundays come together. You cannot get white flour out of a coal sack, nor perfection out of human nature; he who looks for it had better look for sugar in the sea. The old saying is "lifeless, faultless." Of dead men we should say nothing but good; but as for the living, they are all tarred more or less with the black brush, and half an eye can see it. Every head has its black drop. Every rose has its prickles, and every day its night. Even the sun shows spots, and the skies are darkened with clouds. Nobody is so wise but he has folly enough to stock a stall at Vanity Fair. Where I could not see the fool's cap, I have, nevertheless, heard the bells jingle. As there is no sunshine without shadows, so all human good is mixed up with more or less of evil; even poor law guardians have their little failings, and parish beadles are not wholly of a heavenly nature. The best wine has its lees. All men's faults are not written on their foreheads and it is quite as well they are not, or hats would need wide brims; yet as sure as eggs are eggs, faults of some kind nestle in every man's bosom. There's no telling when a man's faults will show themselves, for horses pop out of a ditch just when you are not looking for them. A horse that is weak in the knees may not stumble for a mile or two, but it is him; and the rider had better hold him up well. The tabby cat is not lapping milk just now, but leave the dairy door open and we will see if she is not as bad a thief as the kitten. There's fire in the flint, cool as it looks; wait till the steel gets a knock at it, and you will see. Everybody can read that riddle; but it is not everybody that will remember to keep his gunpowder out of the way of the candle.

Gov. Irwin, of California, has taken off from one to four years each from the sentences of 100 convicts in the State Penitentiary, because of the good conduct of the body of convicts at a recent fire in the prison.
