Very Respectfully,

Your Obedient Servant, President and Vice President are appointed, the United States secure voters against whatever, in general hinders, or prevents them from the exercise of the elective franchise, extending that care alike to the registration ists, the act of voting, and the personal freedom and security of the voter. at all times as well against violence. on account of any vote that he may intend to give as against conspiracy, because of any that he may already have given. The peace of the United States, therefore, which you are to preserve and whose violation you are to suppress protects among others the rights specified in the last paragraph and any person who, by force violates there rights, breaks that peace and renders it your duty to arrest him, and to suppress any riots incident, or that threaten the integrity of the registrations in election, to the end that the will of the people in such election may ascertained, and take effect, and that offenders may be brought before the courts for punishment. Notorious events in several States, which recently and in an unusual manner have been duty of all marshals who have cause to apprepend a violation of the peace of the United States, connected as above vember next, to be prepared to preserve and restore such peace-as the eft bank of Moraya which resulted held responsible for all breaches of the peace of the United States, which dili gence on your part might have prevented, and for the arrest and securing Diligence in these matters requires of is required, to enforce the laws, such statues, have peculiar duties assigned to them—duties which otherwise do not only in cities of twenty thousand inhabitants or upwards-but the duties assigned to marshals and their deputies by section 2022, or other like statutes belong to all duly appointed deputies, whether they be general or be special, within the meaning of that and the preceeding section. Deputies to discharge this latter class of duties

> Sections 2030 has no practical bearing upon this point in States where no limit is imposed, upon the appoint ment of deputies by sheriffs, because in such States the laws of the United States, prior to the 10th of June 1872, left marshals also unlimited as to the number of their deputies. In discharging the duties above mentioned, you will doubtless receive the counten-ance and support of all the good citi-zens of the United States in your re-spective districts. It is not necessary that it is upon such continuance and support that the United States mainly rely in their endeavor to enforce the right to vote, which they have given or have secured. The present instructions are intended only to countricute the secure of the se teract that partial malice, wrong dead-edness or inconsideration which sometimes triumphs in critical moments, over the Conservative, and in general observe and pravide against. The fact that they are organized as military bodies, whether of the State or of the United States under the immediate command of their own officers are officers. their own officers, does not in any wise effect their legal character. They are still the posse comatatus. I prefer to quote the above statement of the law quote the above statement of the law upon this point from an epinion by my predecessor, Att'y Gen Cushing because it thus appears to have been well settled for many years, "6. opinions, 866, May 27th, 1854." I need hardly add that there can be no State law, or State official in this country who has jurisdiction to oppose you in discharging your official duties under the laws of the United States. If such interference shall take place, a thing interference shall take place, a thing not anticipated, you are to disregard it entirely. The laws of the United States are supreme, and so consequently is the action of officials of the United States in enforcing them. There is, as virtually, you have already been told, no officer of a State whom you may not by summens embody into your own posse, and any State posse already embodied by a sheriff, will, with such sheriff, be obliged upon your summons to become a part of a Unit-ed States posse, and obey you, or your deputy acting virtute officio.
