Turco Servian War Items. LONDON, Sept 15 .- A Vicana dispatch to the Times reports that the Great Council to which the Sultan referred the rejected propositions, has reaffirmed them. A compromise is probable.

the general armament of Mohammedans; necessity for such precaution having passed.

The British officers at Turkish head- the Homond scheme. quarters in Servia report great devastation by the Turks, but no outrages on says the report is current there that women, or mutilation of the wounded is known. On recieving this intelligence the British minister at Constantinople remonstrated against the devastating whereupon the Turkish Government issued stringent orders to | fractional currency.

The Standard's Berlin dispatch says: Russia is endeavoring to induce the Bulgarians to emigrate to the Crimea.

A Renter dispatch from Berlin says: The intolerant measures of the Spanish government against protestants, are stated to have given rise to a frequent exchange of notes between the British and German governments. It is understood they will address remonstrances to Spain on the subject, and call upon her to act in conformity with her engagements.

A Reuter dispatch from Constantinople says: It is stated that although the reply of the Porte to the Representatives of the powers will formulate the conditions of peace, it will leave the conduct of the negotiations in the hands of the powers.

General Breaking Up of the Encampments in the Yellowstone - The Sioux to be let Alone.

CHICAGO, Sept 15-The Times' special correspondent with Terry telegraphs from Fort Buford, mouth of Yellowstone, Sept 8th, via Bismarck, that the final breaking up of Gen Terry's command occurred yesterday morning. All the troops are now en route home with the exception of two regiments of infantry which will winter at the mouth of Tongue River. The Montana troops, numbering 200 infantry and 120 horse, and including the 7th Infantry and the 2d Cavalry under Gen Gibbon, left Fort Ellis with wagon train and supplies for eight days. They will follow the old standing trail, the route teeming with hostile Indians and 420 miles long, with prospects to encounter a large war party in the Big Horn country. They have been in the field since March, and poorly clad for the cold weather and fierce storms which sweep over the prairies at this season. The 22d Infantry, left at the mouth of Glenudive Creek, have commenced the construction of stockades. They will remain till November 1st, or later. The 7th Cavalry have left Fort Buford and will go to Fort Lincoln to winter. The 16th Infantry will remain here. General Terry and staff arrived here

this morning and will remain a few days, then go to St. Paul via Bismarck. By the 15th all the troops will have been withdrawn from the northern country, except the 22d Infantry and

5th Cavalry, containing 400 men. A dispatch just received from Gen. Sheridan countermands the order to winter a regiment of cavalry on Yellowstone, which renders a winter campaign impossible and indefinitely postpones the subjection of the Sioux.

Turkish Propositions for Raising Money.

LONDON, Sept 15 .- A general committee of Turkish bond holders have issued a circular embodying a scheme for permitting the Turkish government to issue her money to the amount of forty million dollars, to be legal tender and bearing no interest. The whole amount is to be redeemed in ten years by half yearly drawings of 2,000,000 each, and than sum is to be The Governor General of Adrianople | provided for by a deduction of 15 per

A dispatch from Constantinople to the Reuter Telegraph Comyany, says that the Porte has informed the embassadors of powers in reply to their representatives made on Saturday last, that it's impossible to grant an armistice but the Porte is prepared to accept a peace based upon the following points:

1st. The reoccupation of the forts which were held by Turkey previous 2nd. The destruction of the fortress-

es constructed by the Servians since

3rd. The investiture of Prince Milan at Constantinople. 4th. The reduction of the effective

Servian army to 10,000 men and three batteries. 5th. The construction of a railway

across Servia. The sixth point is indescipherable in the telegraph. The Porte insist

chiefly upon the necessity of the occupation of the principal Servian fortresses so as to prevent a fresh aggression, and leaves the negotiations of a treaty on the above basis, intirely in the hands of the powers.
