It is a singular fact that no demonstrations of joy were made over the announcement that Hayes had been counted in. Fashionable Women.

Fashion kills more women than toil and sorrow. Obedience to fashion is a greater transgression of the laws of woman's nature—a greater injury to her physical and mental constitutionthan poverty and neglect. The slave woman at her task will live and grow old, will see two or three generations Washerwoman, with scarce a ray of hope to cheer her in her toil, will live to see here fashionable sisters die all around her. The kitchen maid is hearty and strong when her lady has to be nursed like a sick baby. It is a sad truth that the fashion-pampered women are almost worthless for all the ends of human life. They have still less power of moral will, and quite as little of physical energy. They live for no great purpose in life; they accomplish no worthy ends. They are only doll-forms in the hands of milliners and servants, to be dressed and fed to order. They serve, nobody and they save nobody. They write no books they set no rich examples of virtue and of womanly life.
