BERLIN, June 1.—Advices received here through St. Petersburg, represent that the Turks have recovered Ardahan after the Russians had reduced it to ruins.

PARIS, June 1.—The Moniteur publishes an article repeating its assertion that President MacMahon will not resign.

The Queen of Holland is slightly better.

Questions concerning the German residents of Cuba, have been settled satisfactorily to Germany and Spain.

It is rumored that the Roumanians are bombarding Ada Kaleis, the casemates of which are under water.

The Le Temps says the Russian reply to England will be dispatched today, and is said to be conciliatory.

LONDON, June 1.—The Times Paris correspondent says that according to a letter from Russia, emanating from a very trustworthy source, that Prince Gortschakoff accompanies the Czar to Ploesti, solely to prevent Serbia from being involved in the war.

Gortschakoff fully estimates the capital importance of the attitude Serbia is now attaining, and does not wish to abandon this delicate question to purely military management.

But there is certainly another motive for the Chancellor's journey.

It seems probable that Russia will attempt a rapid seizure of Rutchuk, and there propose peace after a signal victory.

Gortschakoff of course wishes to be at the Emperor's side should this occur, for if Russia accepts peace on the basis of the reforms proposed by the conference, she will probably wish to act in a thoroughly formal manner, by placing the peace reforms under the protection of the dignitaries of the protocol.

The Queen has inquired about the health of Madame Tietius, and received an answer that she could not be as yet pronounced out of danger, but her advance towards recovery is cheering.

The Telegraph's Orsova dispatch gives the following details concerning the peace rumors: "It is believed by many well informed people at Bucharest, that the Russians are somewhat anxious to negotiate through Berlin for some arrangements that would obviate the necessity of crossing the Danube.

Having convinced the resery that the enterprise is fraught with sacrifices, and that the result is altogether doubtful, it is certain that at headquarters during the past few days the tone has been anxious and even despondent.

The Telegraph's correspondent with the headquarters of Mukhtar Pasha before Erzeroum, telegraphs on Wednesday: "The army is in readiness to begin an advance, and no operation has been arranged with the Turkish troops at present in front of Otili.

The Daily News' dispatch from Constantinople says that the Porte has issued a notice warning mariners of its intention to place torpedoes in certain portions of the Dardanelles and Bay of Smyrna.

The race for the Oaks stakes was won by Platina; Belphebe was second, and Muscatel third.

St. Petersburg, June 1.—The following telegram has been received from the headquarters of the army of Caucasus dated May 31st: "More pacific feeling is noticeable among the population of the Kabelet districts in front of Batoum. The inhabitants are surrendering their arms to the Russian authorities.

The heavy rains continue to impede operations.

A column of troops from the army near Kars has been sent in a Southeastly direction to watch the movements of the Turkish forces which have appeared at Saghani.

A fresh rising has occurred in the Terak district. The insurgents were dispersed by the troops. One body of insurgents lost 30 killed and 100 prisoners.

LONDON, June 1.—A special dispatch from Vienna to the second edition of the Daily Telegraph says: "On the Czar's arrival at Ploesti, a council of war will be held, and on the 7th inst, orders were to be given for crossing

WASHINGTON

Governor Stone Gives a True Statement of the Chisolm Tragedy.

No Occasion for Military Interference Whatever.

WASHINGTON, June 1.—A letter has been received from Governor Stone, of Mississippi, dated May 18th, in which he states that he had twice visited Kemper county, since the Chisolm tragedy. The utmost quietude prevailed, and he had assurances that an extra term of court, would be held that the affairs might have early judicial investigation; and he shows that there was no necessity for troops to protect any body, after the unfortunate occurrence; that there was no danger of any mob, and it was folly to mix up military with civil law, under the circumstances.

It is thought that to day, the Cabinet will reach some important decision in the Alabama offices.

Things Growing Serious on the Rio Grande.

The following letter is published: WAR DEPARTMENT, Washington, June 1

General: The report of W. M. Shafter, Lieutenant Colonel of the 24th Infantry, commanding the district of the Nueces, Texas, concerning the recent raids by Mexicans and Indians from Mexico, into Texas, for marauding purposes, with your endorsement of the 29th inst, has been submitted to the President, and has, together, with numerous other reports and documents, relating to the same subject, been duly considered. The President desires that the utmost vigilance on the part of the military forces in Texas, be exercised, for the suppression of these raids. It is very desirable that efforts to this end—in so far, at least, as they necessarily involve operations on both sides of the border—be made with the co-operation of the Mexican authorities; and you will instruct General Ord commanding in Texas, to invite such co-operation on the part of the local authorities—and to inform them; that while the President is anxious to avoid giving offence to Mexico, he is, nevertheless, convinced that the invasion of our territory by armed and organized bodies of thieves and robbers, to prey upon our citizens, should not be longer endured. General Ord, will at once, notify the Mexican authorities along the Texas border, of the great desire of the President, to unite with them in efforts to suppress this long continued lawlessness. At the same time, he will inform those authorities that if the government of Mexico, shall continue to neglect the duty of suppressing these outrages that duty will devolve upon this government, and will be performed, even if its performance should render necessary the occasional crossing of the border by our troops.

You will therefore direct Gen. Ord, that in case the lawless incursions continue, he will be at liberty in the use of his own discretion, when in pursuit of a band of the marauders, and when his troops are either in sight of them or upon a fresh trail, to follow them across the Rio Grande, and to overtake, and punish them as well as retake property. I have the honor to be very respectfully,

Geo. W. McCrary, Sec. of War.

To Gen. W. T. Sherman, Commanding the Army of the United States.

NORTH CAROLINA

WILMINGTON, June 1.—The Board of Aldermen that was elected to-day, is Democratic—first time since negro suffrage. Jno. Dawson is mayor.

HARTFORD, Ct., June 1.—Rev. J. B. Reid, Catholic chancellor, is dead.

The fragrance of Dr Price's Floral Riches, the sweet odor of his Pet Rose, and his charming perfume Ailista Bouquet, produces an exhilarating effect upon the mind. They are as fresh and sweet as the fields in hay-making time. None have used them but to admire.

A Note of Warning.

Editors Dispatch: Are you all blind, stone blind, and are there none but Hayes papers in this city? Can't you see the nose on your face, or are you deliberately walking into the trap set for you?

Note, if you please, these two political notes from Saturday's New York Tribune:

"Is North Carolina to be the cradle of the Re union party?"

"The Solid South hasn't split yet, but that is no sign it may not before 1880."

Note also, the visit of Key to North Carolina on postal business," he says I hate a liar, but a southern liar is beyond hate. He couldn't have chosen a better field. Then there is the Hill party in Georgia, the Houston faction in Alabama, and anything you call for Tennessee. And what is Sam. Howes wandering round for? How about Virginia's Hill? Talk with a few Old-Line Whites, and ask yourself how many papers there are in the South whose news-cities are such that a little cash is had and a promise of something better will carry them just wherever Evans wants them to go. Solid South! 'Tis a thing of the past. Key in North Carolina is the entering wedge, and the split is virtually accomplished. Pessimist.

THE STONES OF THE PYRAMIDS.—The immense stones used in the erection of the Pyramids of Egypt were obtained from the quarries in the Arabian hills, and were carried to the river and over a bridge of boats. They were then brought forward by means of a causeway, which of itself took ten years to construct, and which is said to have been a fine work, with its polished stones and figures of animals engraved upon them. One hundred thousand men were employed at a time, and these were relieved by the same number at the end of three months. A long time was spent in the leveling of the rock on which the edifice stands, and twenty years for the erection of the pyramid itself. The stones were raised step by step by means of a machine made of short pieces of wood, and, last of all, commencing from the top, the stones were cemented together with a layer of cement not thicker than a piece of paper, the strength of which is proved by the age of these enormous memorials.

Women sew lace, but that is not the kind of solace that men are most interested in.
