WASHINGTON!

Hayes to Summer at the Greenbrier White Sulphur Springs.

Mexicans Captured in an Engagement on American Soil.

Won't Accept James Russell Lowell's Resignation

WASHINGTON, June 18.—It is understood that Hayes will spend a portion of July and August, at the Greenbrier White Sulphur Springs. He has engaged a cottage there for his family. Sherman has directed the Assistant United States Treasurer to issue one and two dollar notes in sums not exceeding ten dollars.

General Sheridan telegraphs officially, and substantially confirms the Galveston News' special, regarding the Mexican fight on American soil, near Fort Clark, and the capture of several Mexican officers and forty-five men, for violation of the new treaty. Sheridan regards the prisoners as a hard set, and wants to get rid of them, but the War department directs that they be fed and detained.

Harvard College refuses to accept James Russell Lowell's resignation, and has given him leave of absence to go to Spain as minister.

Secretary Sherman has designated R. E. Preston as director of mints during Dr. Linderman's term of inspection.

General Julius Miles, formerly minister to the Argentine Republic, is spoken of for the Turkish mission.

Twenty plate printers have resumed work on the four per cent. bonds at the Bureau of Printing and Engraving. Kenneth Rayner, though a native of North Carolina, claims citizenship in Mississippi. His appointment in the official distribution, is charged to that State.

Union Moulders Obtaining Employment in Non-Union Foundries.

Governor Hampton Will Stop in New York to Negotiate a Temporary Loan.

Troy, June 18.—The Troy Times, embracing nearly one-half of the compositors in this city, to-day withdrew from the printers' union.

A considerable number of moulders, heretofore belonging to the moulders' union, have obtained employment in non-union foundries.

New York, June 18.—A special dispatch from New Orleans to the Herald, says: "Gentlemen just returned from the Texas border, say that by direction of the State department, people are preparing sworn statements of losses by raids during the past ten years.

Governor Hampton, on his return from Auburn, will stop here to negotiate a temporary loan, authorized by the legislature, to defray expenses until the taxes are collected.

The Western Union Telegraph Company opens to-day an office at the Surf Hotel, Fire Island, connecting with the telegraph system of the company at Babylon, Long Island, by submarine cable across the great South bay. Fire Island is thirty-five miles east of Sandy Hook, and captains of steamers and masters of vessels are requested to display their signals off Fire Island.

JEROME PARK, June 18.—The attendance is immense, weather is fine, and the track fast. In the mile and quarter, ten thousand dollars match, betting was one thousand dollars to go in favor of Clover Brook, against Basil. There was an even start, but Basil immediately pulled to the rear at the club stand, three lengths behind at Looker turn, half way up the hill, colored him, and at the head of the home stretch, the excited crowd cried Clover Brook quits, and Basil won ten lengths in 2 minutes. In the mile race for three year olds, Salem won; Cardinal Woolsey, second; Oysterman, third. Time, 1:47. In the 2 1/2 miles, for the Keene purse of \$1,000, Tom Ochiltson won; Anthene, second. Time, 4:36 and 3/4.

A man on West Hill has brought peace into his family circle forever. Last week he moved into a new house, containing a bay window and twenty-three closets, and he bought his wife nine miles of clothes line, a cord of clothes line props, and one hundred and twenty-four dozen clothes pins. And the angels just came down and sit around on the side fence and envy the woman's perfect happiness.—*Burlington Hawkeye.*

THE EASTERN WAR

Nicsies Revictualled after Tremendous Slaughter.

French Situation Growing Threatening.

Exciting Scene in the Chamber of Deputies.

Germany Anxious About France.

Disastrous Turkish Defeat.

Montenegrins Fighting Like Tigers.

VIENNA, June 18.—Nicsies was revictualled after tremendous slaughter. Great inundations of the Don and Dnieper are reported from Russia.

LONDON, June 18.—Special dispatches from Paris agree that Saturday's sitting of the Chamber of Deputies was the most violent ever witnessed.

The Times correspondent says it extended over five hours and a half, and during that long time there was one prolonged roar of vociferations. At one time, when M. Gambetta said that the power was in suspicious hands, the Minister of Public Works sprang into a threatening air towards the tribune, and members of the right and left dashed forward, and the ushers had to separate the hostile armies. It really seemed as if there would be a hand to hand fight. All instinctively waited for the reports of revolvers.

A cable special to the New York Herald reports a terrible fight between the Turks and Montenegrins. The Saturday and Friday may refer to week before last. The cable says the advance of the Turks from Podgoritz on the Albanian road has been carefully watched by the Montenegrin spies, and every precaution has been taken in selecting suitable points at which to receive the invading party. The Turks moved forward to Spuz, reaching that place Friday night and encamping, on Saturday morning at day light, the advance into Montenegro began. The Turkish force numbered 10,000 men, under the command of Ali Saib. The Montenegrins had taken up their station at Plana, 3,000 strong. About 10 o'clock the Turkish advance came up with the Montenegrin's pickets, who fell back to the main body. An hour later, fourteen battalions of Ali Saib, came up, and without halting attacked the Montenegrin's position. During the eight hours following the engagement before the defile, and fighting during retreat, four determined attacks were made by the Turks, which in each instance was repulsed by the Montenegrins. Bosnia Pretrovich had thrown up two rows of entrenchments and behind these ramparts the Montenegrins fought with a safe retreat into wooded hills, always open behind them. The third advance of the Turks was made with 8 battalions, led by Ali Saib in person. Flushed with three victories, the Montenegrins saw that their enemies came up to attack with little heart, therefore they refrained from firing until they were within 200 yards, and then poured a terrible volley into the enemy's front, as a small body of Montenegrin horsemen dashed out from either side, and fell upon their flank. At first the flanks wavered, but rapidly changing their front, killed many of the attacking party. The centre came up without halting until it received several volleys, through some mistaken order, or because of disinclination to advance, the Turks halted. Then the Montenegrins sprang over the parapet of their entrenchments, and attacked the column with bayonets. The Turks broke, but were partially rallied by Ali Saib, and fell back about 2 miles in tolerable shape to an open piece of country. Meanwhile the Montenegrins had reformed and pursued the Turks. The retreat soon became a rout and the Montenegrin horsemen pursued the Turks to Spuz. The Turkish dead at Plana, along the road, certainly equalled two thousand men, besides many wounded and a few prisoners.

A correspondent at St Petersburg, telegraphs that advices from Russian headquarters in Armenia, reports that the garrison of Kars have made another desperate sortie. The Russian left wing under Gen. Heinman repulsed the attack, and inflicted severe losses on the Turks. The Russian cavalry at Kugala, succeeded in turning the Turkish flank and rear by a bold movement. The fighting was very brisk, and the Turks lost 200 men. The Russians only 117.

A correspondent at Athens telegraphs an explanation of the defeat of the Circassians at Binkli Ahmed. The Circassians in the Turkish army became mutinous, owing to inaction, and demanded to be led against the enemy. Moussa Pasha, their leader, applied to Mukhtar Pasha to be allowed to bring them to the Relief of Kars. Permission was granted, and Moussa Pasha with 1,500 men started for Kars, and reached the village of Binkli Ahmed, halted on the plain of Kars, encamped there for the night. The Russians observed their movements, and coming

upon them suddenly, surrounded the village, and took the Circassians by surprise. The Circassians had scarcely time to form, but made a desperate resistance. They fought singly or in groups, and the fighting was almost entirely hand to hand. 1,100 Circassians were killed and the rest either dispersed or taken prisoners. Moussa Pasha is supposed to have escaped.

Hundreds of the Turkish soldiers are deserting, owing to the ill provided condition of the army. Their condition is growing daily worse. They are poorly clothed and fed, and are in want of almost every necessary of life.

Goy Hampton has tendered the position of aid on his staff for Richland county to First Lieut. W. R. Cathcart, of the Richland Rifle Club. Lieut. Cathcart's service at Fort Sumter during the siege of Charleston, and the position he has sustained ever since, render him in every way deserving the honor which the Governor has conferred upon him.

THE END OF AN EVENTFUL LIFE.—Washington June 14.—Gen. C. F. Henningson died here this morning. The General was born in England, in 1815. In 1834 he went to Spain to espouse the cause of Don Carlos. He afterwards took part on the national side in the Hungarian war of 1848-49. He subsequently came to the United States in company with Kosuth. In 1856 he commanded a filibustering expedition to Nicaragua, where he joined Walker. During the late civil war he served in the Confederate army as Colonel, and frequently had command of the defences of Richmond. Since the war he has been a Cuban sympathizer. He was quite a linguist, and the author of several works of merit.

CAPITALISTS.—Yesterday there were a party of five gentlemen, all capitalists from New Jersey, in this city. They are en route to Moore and Montgomery counties, where they are about opening some valuable gold mines. They visited the Department of Agriculture, Geological Museum, and other points of interest. They expressed themselves as particularly well pleased with the property agency feature of the Department of Agriculture, saying that many Northern people who desired to settle in this State were kept away by the fear of falling into the hands of those sharks that go by the name of "land agents." These gentlemen, we learn, are pleased with what they have seen of our State, and speak very hopefully of her future.—*Rail News.*

The multiplication of poison germs in diseases of the blood is exceedingly rapid, and if unchecked, vitiate all the blood of the body. Dr. Bull's Blood Mixture, by its peculiar influence, kills these germs, and purifying the blood, removes all possible chance of disease establishing itself.

A Medicine for Many Uses.

A medicine which remedies dyspepsia, liver complaint, constipation, debility, intermittent and remittent fevers, urinary and uterine troubles, depraves the blood, counteracts a tendency to rheumatism and gout, and relieves nervousness, may be truly said to have many uses. Such an article is Hostetter's Bitters, one of the most reliable alternatives of a disorderly to a well ordered state of the system ever prepared or sold. It has been over a quarter of a century before the public, is endorsed by many eminent professors of the healing art, and its merits have received repeated recognitions in the columns of leading American and foreign journals. It is highly esteemed in every part of this country, and is extensively used in South America, Mexico, the British possessions and the West Indies. In its increase in public favor in the past is to be regarded as a reliable criterion of its gain in popularity in coming years, it has indeed a splendid future before it.
