A distinguished physician of New York says: "It is astonishing how universally Dr. Tutt's Pills are used. In my daily rounds, I hear of them not only among the poor, but their virtues are heralded from the mansions of the wealthy and refined. Knowing the inventor from his long connection with the medical profession, I have great confidence in their merits, and of late have often prescribed them with the happiest results in cases where I desired to make a decided impression on the liver."
