Wells to be Removed—First Violation of Hayes's Civil Service Circular—An Ex-Collector Charged with Malfeasance.

Le Duc Thinks He Can Improve on Watts.

The Franks Case Closed—The Prosecution Moves to Amend Its Indictment.

Southern Crops—Destruction of Sheep—Revenue Decision.

WASHINGTON, June 29.—It is reported that District Attorney Wells will be removed. Wells was Governor of Virginia.

J. W. Wilson, of Iowa, who was recently appointed by the President a director of the Pacific Railroad, has violated his orders by presiding at the Iowa State Convention. It is wondered what Hayes will do about it.

A special dispatch from Charleston, South Carolina, says that L. Cass Carpenter, formerly an Internal Revenue Collector, has been held in two thousand dollars bail on the charge of tampering with treasury warrants issued to him for printing, while editor of the Union.

General Le Duc, it is said, thinks he can do more than his predecessor in the Agricultural Department for the interest of the farmers. He promises rashly unless Congress is more generous to the Department than while it was under the management of Commissioner Watts.

The defence in the Franks case has closed. The prosecution moves to amend their warrant to make it read: "That Franks did make and cause to be made and present, and cause to be presented for payment, and approval by R. M. Douglass, Marshal of the Western District of North Carolina, a certain account for services and fees as Deputy Marshal for the said District in the amount of \$411.50, knowing at the same time that it was false, fictitious and fraudulent." The truthfulness of Eastman, the principal witness for the prosecution, is impeached.

The Agricultural Department report oats in superior condition in most of the Southern States. The South is finding immunity from loss in their red rust proof oats. There is an increase in clover, especially in the South, and very marked in Texas. An investigation into the losses of sheep during the past year, shows a total of nearly three millions of sheep and lambs destroyed by dogs and wolves, and various diseases, and an aggregate money value of nearly eight million of dollars. The average per centage of losses is nearly eight millions. The proportion is highest respectively in North Carolina, Florida and Louisiana, and ranges from seventeen per cent. in the former State to three and seven-tenths in Nebraska. The rate is highest in the South and lowest in the States having dog laws.

The Commissioner of Internal Revenue has decided in favor of the Orangeburg and Alexandria Railroad for the use of their net earnings immediately after the war.

Louisiana Crops—Movements of Mexican Magnates.

NEW ORLEANS, LA., June 29.—Crop reports are promising from all parts of the State.

The Times says that two gentlemen, representing Diaz, have arrived here. Senator Matta proceeds to Washington City to secure the recognition of the Diaz government. General Benavidez goes to the Rio Grande. General Mexico representing Leordo, who has been here nearly a month, has gone to New York to report to his chief.

THE RUSSO-TURKISH WAR.

The Czar Issues a Devout Address to the Bulgarians.

Russian Failure to Take Zewin.

The Russians Well Situated—A Fine Prospect for Them.

The Turks Almost Entirely Cut Off.

Heavy Losses on Both Sides at Nickopolis and Scisva.

BUCHAREST, June 29.—The Czar has issued the following proclamation to the Bulgarians: "My troops have crossed the Danube to day. They enter your territory, where they have already several times fought for the amelioration of the lot of the Christian inhabitants of Turkey. Russia still bears the same love and solicitude towards all the Christians in Turkey as when she secured the liberation of Serbia and Roumania. I have confided to my army the mission of securing the sacred rights of your nationality, which you have acquired by centuries of suffering and the blood of martyrs which has soaked your soil. Russia's mission is to build up, not to destroy; she is called by Providence to conciliate and pacify all races and denominations in those parts of Bulgaria inhabited by a mixed population. Henceforth the Russian armies will protect every Christian against all violence. Not vengeance, but strict equity will guide our acts. As fast as the Russians advance, Turkish rule will be replaced by regular organization in which the native inhabitants will be summoned to take part."

The proclamation concludes: "Follow faithfully the instructions of the Russian authorities. Therein lies your strength and security. With humility I pray the Lord to grant us victory over the enemies of Christianity, and to send down His blessing upon our just cause."

LONDON, June 29.—The Standard's special correspondent at Zewin, who says he was present at the battle, telegraphs: "The Russian attack on the Turkish position at Zewin was repulsed despite repeated assaults. The Turks had ten thousand men, but their numerical inferiority was counterbalanced by their well fortified positions. The Russians fought with the greatest bravery."

The Standard's Bucharest dispatch says the Russian officials are as much surprised as the general public at the ease with which the crossing of the Danube was effected, and at the slightness of the resistance.

News comes from Zestova that the Turks have completely wasted the country around that place. Neither food nor forage is obtainable.

A correspondent confirms the reports that the Turks have evacuated Tchernavoda and Medjedji.

The Times' correspondent from Zemnitsa, dated the 27th, sums up: "The Russian left is in great force near Her-sova and is being constantly strengthened. The right has secured a crossing at Simnitsa with ease, so that we may say the Danubian passage is secured. The centre has a choice of concentrating upon the right or left left wing and crossing unopposed."

"Widdin and Nickopolis are isolated from the Turkish quadrilateral, and present indications lead to the conclusion that this much vaunted squad of fortresses will itself soon be cut in halves and the Turkish forces separated into three divisions with the whole Russian army occupying a central position between them, and free to move with crushing force upon any one of them."

Various correspondents fix two miles below Sistova as the exact point of the Russian landing on the Turkish bank of the Danube.

A Daily News dispatch from Vienna states that at the bombardment of Guirgevo the Turks chiefly aimed at the house of the German consul, as it was believed the Czar was domiciled there.

A dispatch to the Times from Donilgrad says the Turks, after the junction of the armies of Suleiman Pasha and Ali Saib, occupied Martinitsa heights. Suleiman Pasha's next movement is expected to be by way of Leichanska towards Ricks, and possibly also by way of Soutari and Toherminitsa. Both of these movements would menace Oettinje.

MANCHESTER, June 29.—A special dispatch to the Guardian from Vienna says 100,000 Russians have occupied the Island of Barce, near Silistria. It is unknown whether they succeeded in crossing to the Turkish side, but the report that the Turks have abandoned their positions at Tchernavoda and Medjedji is thought to be only explicable if the Russians have crossed near Silistria.

A Pera dispatch to the Guardian says: "It is stated here that Count Schouvaloff, on behalf of the Czar, will raise objections to the presence of Sir Arnold Kimble, the English military at-

tache with the Turkish army in Asia. A despatch to the Guardian from Vienna, dated Thursday, says: "At Nikopolis and Scisva, yesterday, the losses on both sides were appalling."

LONDON, June 29.—The Daily News has a Constantinople dispatch which says 16,000 rifles, and 2,500,000 cartridges are expected from Egypt to-day.

Fires in Scotland.

GLASGOW, SCOTLAND, June 29.—John Robertson & Co's spinners, running sixty thousand spindles, has been burned. The loss was four hundred thousand dollars. Cause, friction of the machinery. Five hundred persons are ousted.

FAISLEY, SCOTLAND, June 29.—Clark & Co's thread works have been burned. The work people barely escaped. Loss, \$75,000.

Spriggins says that he once prevented a severe case of hydrophobia by simply getting on a high fence and waiting there till the dog had gone away.

The Czar has ordered another army corps from the interior to the lower Danube.

One hundred and twenty Russians have been killed by the bombardment of Gurgevo.

The Czar on Wednesday went to Turmu Magurella. Vigorous cannonading continues along the Danube.

Mothers will grow weary and sigh over the Baby's troubles when Dr Bull's Baby Syrup would relieve the Child and thereby give the mother rest. Price 25 cents.
