WASHINGTON, July 16.—Secretary Evarts and Attorney-General Devens left this morning for an excursion planned for them by D. B. Randolph Keirn, to the Pennsylvania coal mines. Both lunch with Colonel John W. Forney, who will favor them with his company. They will be entertained by Mr. Keirn at Edgement, where there will be a reception and brass band. Returning, they will lunch with Senaator Don Cameron, and reach Washington on Thursday. In the mean-time, those anxious about justice and

John Nichols, of Raleigh, N. C., is here, and is strongly recommended as collector of the fourth N. C. district. Both the and the present incumbent are Republicans. Col. Young claims under the civil service regulations: under the civil service regulations; Mr. Nichols' friends push him under the President's rule that eight years tenure does not give the holder a title to continuance. Gen. P. B. Hawkins will accept the place on the condition that Col. Young resigns. This is an extraordinary contest, as no one of the aspirants charges the others with

Washington, July 16.—The July returns of the condition of cotton as received in the Department of Agriculture, cover the area of three hundred and seventy-one counties, producing six-tenths of the cotton of the United States. Seventy-three counties of Georgia are represented. The average condition of the whole area is ninety-three and four-tenths per cent.—four per cent. less than the July average of last year. It is less by seven per cent. than the average for 1876, but better than the condition for 1874 to 1873; only Louisiana gives a higher average stan in July of last year. The State averages are as follows: North Carolina, 88; South Carolina, 87; Georgia, 99; Florida, 95; Alabama, 94; Mississippi, 93; Louisiana, 102; Texas, 94; Arkansas, 94; Tennessee, 96. The crop is from one to two weeks late. In the more Northern belt, the nights have been too cold, and in many sections an excess of rain has retarded the cultivation and rendered the fields grassy and the plant unthrifty. Rains have been general and long continued in Texas, but fine weather is producing rapid improvement. An overflow of the Arkansas river has drowned out sixty thousand acres of cotton. The low lands in Tennessee have been destructively inundated, while the losses have been mainly from rains. There are localities east of the Mississippi that have suffered from drought. Insects have as yet done little damage. The cut worm is reported troublesome in Florida. Lice are abundant wherever the plant and coresive moisture. Grass worms are doing some damage, mainly in and the port of the cotton. Gates worms are doing some damage, mainly in effects and 3550 ment were wonded of the cotton. The Standard's dispatch from Constantinople reports that it is said that the Turks have beaten the Russians and re-occupied Turnova; also that Ismail Pasha has entered the Russian territory and advanced six miles on

the road to Tiflis. A Bucharest special to the same paper says that it is reported that there has been serious fighting between Drenova and Gabrova.

The Turkish monitor which was ashore at the mouth of the Danube has been towed off by two of her consorts. The Standard's Vienna correspondent states that it has been announced that the Porte has given England permission to use Gallopoli as a coaling sta-

Two Constantinople correspondents of the Times concur in the following statement: "Hobart Pasha had a long interview with the Sultan yesterday who gave him permission to command the expedition to the Black Sea with complete liberty of action."

The Times' Bucharest dispatch reperts that preparations continue for battle near Rustchuk whither a portion of the garrison of Silistova has al-

ready gone. It is said that all the work done by the International Danubian Commission will be lost in consequence of the measures taken by the Russians to obstruct the mouth of the Danube.

It is variously reported that ten thousand Russians unsupported by a battery traversed the Herva Pass of the Relbans.
