TELEGRAPHIC NEWS.

FROM WASHINGTON.

The Presidency of the Texas Pacific R. R.—McCormick's Future—Schurz's Patronage—Senator Ransom—The Presidential Tour.

Other News and Gossip.

WASHINGTON, September 15.—It is loosely stated that ex-Gov. Brown, vice-president of the Texas Pacific Railroad, will become its president, under an impression that his position on the Louisiana Commission will influence the administration favorably toward the great road.

It may be accepted that Gov. McCormick desires to retire from the assistant secretaryship of the Treasury, because its duties deprive him of the outdoor life to which he has been accustomed. He is not on the slate for the Russian or any other mission, unless it be the commission to the French exposition.

Secretary Schurz suspects some squatters, who have applied for patents for desert lands in the far West, have accidentally secured an occasional slice of meadow lands. He has ordered the commissioner to withhold all patents until his agents have reported. Together with his log desert land and other agents, Schurz will have more patronage than Morton in the Postoffice Department.

The Supreme Court convenes October 8th. Second Assistant Postmaster General Tyler has returned.

Geo. H. Pendleton and Garfield take the stump jointly during the Ohio canvass.

Evarts holds to the opinion that the amalgamation of the direct cable violates its charter.

Matt Carpenter thinks the Republicans will carry Wisconsin by hard work.

Gen. Randall Gibson, whose health improves at the German Spas, returns October 1st.

The Secretary makes a mystery of the new commissioner of Indian Affairs until he returns from Louisville. It don't matter so much as the secretary seems to think.

First Assistant Postmaster General Tyler has dispatched that there is no particular change in Morton's condition today.

Thirty temporary clerks were banished, at the Treasury Department today.

Seven thousand five hundred dollars was contributed to the conscience fund of the treasury to-day by an obscure person.

Senator Ransom is quoted: "The Democrats will not attempt to organize in the Senate by seeking aid from disgruntled Republicans."

Schurz has discovered some logs and two saw mills in Colorado which he has ordered replevined. The squatters are ordering dictionaries to know what replevin means.

Secretary Evarts and his two daughters left this morning for Louisville, stopping at Grafton, W. Va., where they will remain until the arrival of Secretary Schurz and Postmaster General Key, who leave this morning. The postmaster general will accompany the presidential party on their Southern tour. Secretary Schurz expects to leave the party at Louisville and return to the city arriving on Wednesday evening, 9th instant.

Secretary Thompson will accompany the party as far as Chattanooga, from which place he will proceed to Pensacola, Fla., for the purpose of examining the navy yard at that point. The President, accompanied by a number of the party, among them being Secretaries Evarts and McCrary, and Postmaster General Key, will proceed to Chattanooga, Nashville and Knoxville, and return to Washington perhaps via Richmond about the 25th.

It is intimated that the Commissioner of Indian Affairs will be Mr. Ezra A. Hoyt, of New York, who is at present a member of the board of Indian commissioners.

Within the last twelve years the government has accumulated a large amount of real estate in various parts of the country, particularly in the South by reason of violation by the owners, of the provisions of the internal revenue laws, and it now appears that the accumulation of that class of government property makes a very valuable aggregate. Attention has not been given the matter however, says Schurz, to an extent that the interests of the government require. Some time ago the commissioner of internal revenue appointed two agents to make a personal examination of the subject to ascertain and report upon the localities of such real estate, the condition, the titles thereto, the value etc., and solicit purchasers.

The Cotton Crop.

WASHINGTON, December 15.—The statistician of the Department of Agriculture reports the condition of the cotton crop during the first week of September as averaging for the whole cotton belt the same as in September of last year. From the crop in the Atlantic States, Louisiana, Arkansas and Tennessee make higher averages than in 1876. The Carolinas, Georgia and Texas report less favorably, the greatest reduction being in Texas, as compared with last month. Florida, Arkansas and Tennessee only report improvement. The per centages of condition are as follows: North Carolina, 83; South Carolina, 85; Georgia, 77; Florida, 94; Alabama, 91; Mississippi, 88; Louisiana, 92; Texas, 70; Arkansas, 99; Tennessee, 100. The caterpillar is present in all of the Gulf States and in South Carolina, but has done little damage, as yet, except in Texas. In several parishes in Louisiana the loss is considerable from this cause. Where it has made a late appearance, it will be felt rather than injure the crop. In the Atlantic States there is much complaint of rust, mainly resulting from drought, but in some counties from injury by beating storms. In this section the growth is late, and the effects of frost in shortening the harvest is feared.

RUSSIA AND TURKEY.

The General Tone of the News Very Unfavorable to Russia.

Various Attacks Upon Plevna—Osman Pasha Routes the Russians Near Plevna.

LONDON, September 15.—The Servians will delay a declaration of war until operations against Plevna assume a more cheerful look from a Russian point of view.

General Skobloff repulsed five attacks on Tuesday, but at the sixth he was compelled to abandon two redoubts before Plevna which he had captured Tuesday. Plevna is provisioned for two months.

Baker Pasha drove the Russians into Vozditch with a heavy loss. The general tone of the news is very unfavorable to the Russians.

The Daily News has just issued a special edition containing the following: Let the battle field be Plevna at 12 m. yesterday. Two redoubts taken by Gen Skobloff on Tuesday evening were held twenty-four hours. On Wednesday the Turks made the sixth attack, and finally about 6 o'clock in the evening drove him out. He lost three cannon which he had placed in the redoubts. He asked for reinforcements several times, but Gen Litzky refused them thinking Gen Skobloff had enough men to hold the redoubts. Finally Gen Kriloff on his own responsibility sent a remnant of the regiment which had attacked the lower redoubt, near Plevna, and whose effective strength was reduced to one thousand men, utterly unable to go into battle. Even this regiment arrived a few minutes too late, and another regiment sent from the headquarters of the staff to reinforce him, arrived when Gen Skobloff already had retreated, the loss of these redoubts is disastrous, for the Russian attack, as it seems that the Russians, in possession of these two redoubts and the Greveva redoubt, had counted upon recommending the offensive immediately. This is now impossible until the arrival of reinforcements.

"When I left the battle-field all was quiet except the light artillery fire. The Russians are still in possession of the Greveva redoubt, which was under a continual heavy fire from the Turks. This redoubt was visited by Col Willesly, who says it is heaped full of dead Russians and Roumanians.

A dispatch from Shumla to the Daily Telegraph, dated Friday, says: "Osman Pasha has attacked the Russians in great force at Dubruk on the road from Plevna to Sofia, where they had fortified themselves in order to prevent him from receiving supplies. The Russians were badly beaten and have lost several thousand men, besides nine guns.

LATER DISPATCHES.

LONDON, September 15.—There is hardly room for doubt that the week's operations about Plevna did not result as favorably for the Russo-Roumanian army as was expected, in view of the reports from Russian sources. The brief Turkish bulletin about the affairs at Plevna reads: "Since Friday the Russians have made continuous assaults, but they have been repulsed. We have recaptured two redoubts on the Lovatz road, which recently fell into the enemy's hand."

This coincides with the only detailed narratives yet received, and with the later Russian bulletins. The friends of Russia have reason to fear therefore, that the capture of the Greveva redoubt is of much less significance than was at first represented. If so, Osman Pasha may await his reinforcements without fear of further immediate molestation. These reinforcements are, according to the Times' Vienna dispatch, already on their way from Sofia, whence most of the reserves have been sent across the Balkans to Orhanie. The following description of Sulleman Pasha's position written ten days ago is probably still correct: "The main Russian army, including the reinforcements just received, keeps up its original number of 42,000 men, with ample field artillery and mountain guns. Upon his right and left he has established 16 guns which gave the Russians no rest night or day. Although he cannot sufficiently command the road from Gabrova into the Russian fortifications to prevent their receiving supplies, he can and does make them have anything but an easy time within their entrenchments, which are exposed to his murderous flanking fire that entails very heavy losses. Gen Rodizky cannot break through the force before him and descend into the plain any more than Sulleman Pasha can drive him out of his position, and make a sweep upon Gabrova and the country beyond. So matters will in all probability remain until some important change occurs in vicinity of Shumla and Plevna."

Reports say that the Czarowitch's forces have been so weakened to reinforce the Plevna army that they are no match for Mehmet Ali, and this seems to be corroborated by the Russians steadily retreating. On the whole, whatever may be the fate of Plevna the time is rapidly slipping away in which the Russians might retrieve the fortunes of the European campaign, now as seriously compromised as the Asiatic one.

Telegraphic Notes.

NEW YORK, September 15.—Mr. William H. Hull, of Augusta, Ga., who died here suddenly Thursday night, became overheated, sat on a door-step and died in a few minutes. An examination shows that he died of Bright's disease.

PHILADELPHIA, September 15.—The Philadelphia & Erie main train going North collided with the freight train near here. The baggage and express cars with their contents were destroyed. The express messenger, Jacob Steinman and engineer Wm. Attek were burned to death in the wreck. Two cars of wheat and several coal oil tanks were also burned.

SAVANNAH, Ga., September 15.—The report for this week shows the health of this city to be unappreciably good, there being not a death of a white adult from any cause. The interments of the week were four whites—all children—and twelve colored persons.

A TIMID BEAUTY.—A young woman alarmed the house yesterday by standing on a chair, with her skirts drawn tight around her feet, and screaming: "Mother! mother! Here's—a great—big—awful—nasty—mouse!" She was rescued, and in half an hour had pounded her little sister black and blue, eaten a large pan of cold beans, and gotten ready to look sweet when Charley came to take her out driving.

The season being about to end, dead-head correspondents will cease writing from watering places flatteringly praise of these localities, which paid for their own grub by emptying the pockets of others, and the public will no longer be bored with such stuff until another season, when the same tribe, will resume their occupation. We suppose for this service these dead-heads are allowed to dine with the servants, but pick their teeth among the guests.—Statesville American.

No child can sleep soundly while suffering with Colic or from Teething. Remove the cause by using Dr Bull's Baby Syrup. Only 25 cents per bottle.

A Very Good Reason.

The reason why only one sample bottle of Merrell's Hepatine for the Liver will be sold to the same person, for ten cents, by our druggists, in Charlotte, is because of the enormous expense of importing the Hepatine into this country, but as there are fifty doses in the large size bottles, it seems two cents a dose is cheap enough for a medicine that cures dyspepsia and liver complaint. All who have not had a sample bottle are entitled to one for ten cents at all druggists. Three doses relieves any case of dyspepsia, constipation, indigestion or liver complaint, in the individual. Regular size bottles, fifty doses, \$1.

ASTONISHING SUCCESS.

It is the duty of every person who has used Bosche's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor dying consumptive, at least to try one bottle or 4000 doses bottles were sold last year, and not one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it; sample bottles to try sold at ten cents. Regular size 75 cents. For sale by T. C. Smith.
