Personal and Political Notes.

Washington, September 28.—Senstor Conover, of Florids, is quoted that he is first for Florids and next for Conover. He was a Republican and should stand by the principles of that party, but would be a tail to no one's kite. He believes in the justice and wisdom of Hayes' Southern policy. Conover feels favorably towards seating Butler and Spofford, but could not determine until he heard the claims of Corbin and Kellogg discussed. Atmos

Hayes is represented as being determined that the New York officeholders shall not set his administra-tion at defiance.

### RUSSIA AND TURKEY.

Still Attacking the Second Grivica Redoubt-The Turks Reported to Have Crossed the Danube Near Silistria.

## General War News,

LONDON, September 28 .- The Daily News' correspondent reports that the Roumanians have been unsuccessful in their attempt to capture the second Grivida redoubt, after having sapped close up to it. They displayed great gallantry and suffered severely.

No confirmation has yet been received of the intelligence, which still seems current, that the Turks have crossed the Danube opposite Silistria. The project is, however, eminently feasiole, and any day may see its fulfil-

The Times' correspondent at Shuma confirms the report that Mehemet Ali had fallen back to the Kara Lom. The retirement of Mehemet Ali behind the Kara Lom seems to indicate that the Turks will be satisfied to maintain their present position and depend on winter to force the Russians back

across the Danube. The Times' Shumla special says the retrograde movement was partly because the recent rains rendered it difficalt to bring up supplies, and partly on account of the Russians massing considerable forces on the Lom.

It would appear from this explanation that the idea of holding the country between the Lom and the Yantra, has been abandoned by the Turks. Thus it once more becomes possible for the Russians to isolate and blockade Rustchuk, which, however, has probably been supplied for the winter during the last month that communication has been open.

Mehemet Ali's right will again be

The correspondents with the Czarewitch are not sanguine of his ability to force the line of the Kara Lom, notwithstanding the arrival of several divisions of the imperial guard.

#### The Duty of Woman

To be attractive is a duty which every lady owes to herself, to her domestic circle, and to society. Not only should she endeavor to please in address and in apparel, but, whenever possible, in complexion and in feature as well. Facial embellishment is to a lady as proper, and oftentimes as neces-sary, as are the adornments of her raiment, the artificial graces of her conversation, of her demeanor, or other meretricious attractions upon which depend so much of her dominion and influence over man. The woman who permits herself to become unloyely, who resigns herself hopelessly to the ravages of time, and the spoliation of her charms, visits upon her friends and admirers a sorrowful regret, that it becomes her to avert to the latest day. Of this social duty, it may truthfully be said that she can best acquit herself by the use of Gouraud's Olympian Cream, No other preparation approaches this in excellence, in harmlessness and purity, or compares with it in the number of spontaneous testimonials that its virtues have elicited. Its advertisement has hitherto been its merit, its recommendation hitherto been he merit, its recommendation
by all that have used it, and not by sounding and pretentious advertising in the journals of the day. Large bottles price reduced to \$1.
