

Tuesday, October 23, 1877.

CHAS. R. JONES, Editor & Proprietor.

"Free from the dotting scruples that fetter our free-born reason."

INFLEXIBLE RULES.

We cannot notice anonymous communications. In all cases we require the writer's name and address, not for publication, but as a guarantee of good faith.

NOTES AND NEWS.

Senator Lamar pitches \$2 bouquets under his desk.

Harper's Weekly is getting to very sweet on the South.

Oakey Hall now says he left home on account of domestic troubles.

It is now fifty years since Speaker Randall was himself called to order.

The people of Mississippi expect to extinguish their State debt within three years.

The Republicans begin to concede Pennsylvania to the Democracy by 15,000 majority.

The New York Times says Gov Hampton wants Patterson's seat in the Senate as well as his scalp.

We see it stated in the New York Herald that "B. C. Cox is a funnier man than old Randall."

At the recent term of the Carolina county (Md.) court there was not a single prisoner awaiting trial.

Zack Chandler has bought and consolidated two Detroit papers, and made them anti-administration.

Very shortly John McCullough, Charles R. Thorne and Lawrence Barrett will play Julius Caesar in London.

The matinee at the New York Academy of Music Friday, for the benefit of Edwin Adams, realized \$8,000.

Republican members of the Wisconsin delegation openly state that they have no hope of carrying that State this fall.

The Contra Costa News has struck it. For the sake of conciliation it is naming all the babies that it can "Ben Wade Hampton."

Ex-Gov Pinchback, of Louisiana, insists upon having his claims to a seat in the United States Senate considered by that body.

The secret of P. T. Barnum's world-wide reputation is to be found in a statement he has just made that "I don't care what the papers say about me, provided they say something."

There being no law for extra mileage at an extra session of Congress, there will have to be some special legislation providing for it. Members are getting anxious, and a bill will be introduced next week to relieve them of their fears.

The Republican opposition to Mr. Eustis is childish and partisan to the extreme. There is not a single flaw in his title to a seat. The Democrats have shown perfect liberality in the House cases, but the Republican Senators have never cultivated that grace.

As Mr. Holder sat contemplatively upon the railing of a tank in the New York aquarium, an enterprising seal sprang up, seized his coat-tails, and jerked him into the water. He was considerably surprised, but the seal's intentions being honorable, he received no harm beyond the wetting.

It is understood that Blaine does not aspire to be the Republican candidate for President in 1880, because he believes that the Democrats will sweep the country.

A Virginia paper says: Let us give credit to Mr. Hayes, for his conduct to the South; but let Mr. Hayes give credit to the Democratic party for their policy which he has adopted.

That's the idea.

THE MAJORITY IN OHIO.—Official figures of the vote for Governor in Ohio, in all but three counties, give Bishop, Democrat, 38,125 majority over West, Republican. In the three counties not heard from, the Republican majorities aggregated 4,243 at the presidential election.

J. R. Young writes from Washington to the New York Star as follows: "I would not be surprised to see a speedy change in the policy of the administration. As I said before, Hayes is an ardent Republican, and is earnest in his desire to have his party successful in the future. He sees that he is the cause of what threatens to be the complete disintegration of his party, and he is now willing to change his tactics in order to recover lost ground and unite his friends. So look out for sudden changes." Perhaps Mr. Young is mistaken. President Hayes would gain nothing and lose all by going back on "the policy."

OCTOBER FAILURES.—The quarterly circular of the mercantile agency of Dun, Barlow & Co., shows the number of failures in the third quarter of this year to be 1,816, with liabilities amounting to \$42,949,085, against 2,420 failures, with \$47,867,371 liabilities in same time last year, and 1,771 failures and \$54,328,287 liabilities in 1875. In the second quarter of this year the failures number 1,880, with \$45,068,097 liabilities, and in the first quarter there were 2,869 failures, representing \$54,688,074 of liabilities. The total number of failures during the nine months ended 30th September last was 6,565, with liabilities amounting to \$141,052,256, against 7,060 failures and \$156,272,800 liabilities for the same time last year.

IMPORTANT MEASURES BEFORE CONGRESS.

The telegraph has brought us information that Mr. Merrimon, of this State, introduced in the Senate, last Friday, two bills in regard to the method of electing Presidents and Vice-Presidents of the United States, in future. In reference to the purpose of these bills, the newspapers inform us that the first, which is to alter the times prescribed for holding the elections for electors for President and Vice-President and casting the vote in the electoral colleges for those officers, proposes to amend section 131 of the Revised Statutes so that the electors shall be appointed in each State on the Tuesday next after the first Monday in October instead of November, and that the electors shall meet and give their votes upon the first Wednesday in January next after the year in which they are appointed instead of the first Wednesday in December, as they are required to do by the present law.

The other bill introduced by him to amend section 146 of the Revised Statutes relating to vacancies in the offices of President and Vice-President provides "in cases of the removal, death, resignation or inability of both the President and Vice-President of the United States, the Secretary of State, or in case there shall in that contingency be no Secretary of State, or he shall for any cause be unable to discharge the duties of the office, then the Secretary of the Treasury, or in case there shall in the last-named contingency be no Secretary of the Treasury, or he shall for any cause be unable to discharge the duties of the office, then the Postmaster General shall act as President until the disability first aforesaid shall be removed or a President elected."

Senator Merrimon, on the same day, introduced a bill restoring to the pension list all the names stricken off for disability, and this, it seems to be considered, has a better chance for coming up for consideration this season than either of the other bills. All of them are measures of importance, which will challenge the attention of Congress, and receive from it deliberate consideration.

Among other measures of importance which have already been introduced, Senator Edmunds' district attorneys' mileage bill and Senator Morrill's pension agencies resolution are aimed at extravagances that should have been corrected before. Senator Ingall's bill to make silver coin a legal tender explains itself in its title.

A bill to repeal the bankruptcy law has also been introduced in the Senate and referred to the Judiciary committee. This law has been made an agency for the practice of great dishonesty upon unfortunate creditors, and it is not surprising that steps have been taken to have it expunged from the statute books. The Baltimore Sun very truly says of it that the law was intended to be framed in the interest of justice, and has been of assistance to honest business men, who, from one cause or another, have met with misfortune. Whilst this is the case it has the effect in other instances of robbing innocent creditors and building up fortunes for debtors. If it can be so amended as not to offer a premium on dishonesty and to confer more blessings than evils, it will be a cause of good to the country and of satisfaction to all honest men.

There is a strong probability, too, that Congress will pass a general amnesty bill this season. It may be remembered that the House passed the bill two years ago. Mr. Cox, of New York, was expected to have introduced the same bill in the House yesterday, and his friends are confident that it will meet with only slight obstruction in its way through the Senate.

These are some of the matters of material importance which will occupy Congress between this time and the regular term in December. A measure which may have a direct bearing upon our interests, is a proposed bill to establish a United States Branch Mint at New Orleans. If a bill of this kind passes Congress it will destroy our last hope of an appropriation for the re-establishment of the mint of coinage in Charlotte. We trust that the North Carolina members will look well to this matter, and see to it, if possible, that if any mint of coinage be established it be done in this city, which has a claim prior to that of any other place which has been yet suggested.

THE REPUBLICAN SENATE.

Honest men throughout the country, hoped when the present session of Congress convened, that the Republican majority in the United States Senate, would lay aside the role of the partisan, in the matter of admitting duly accredited Senators from the unrepresented States, but it seems that the country is again mistaken. People thought that the "handwriting on the wall" was sufficiently plain to be unmistakable, especially in the revelations of the late Ohio election, and that for once United States Senators, would turn back to the constitution and the laws and decide questions which come up before the Senate with something of the old time honesty. But it pains us to state that this is not the case. The Radicals do hard, even in the last ditch, and whenever the opportunity presents itself to discriminate between party supremacy and honesty, justice and law, everything but party is lost sight of. The action of the United States Senate in the matter of the admission of Senators from South Carolina and Louisiana, is a notable case in point. Messrs Eustis and Spofford, from Louisi-

Sumner and Grant.

Wendell Phillips' Explanation of Their Misunderstanding.

Boston, October 18.—Wendell Phillips, in a lecture at Newton to-night, took up the charges in behalf of the late Senator Sumner, and asserted that President Grant was intoxicated when he had the conversation with Mr. Sumner, which led to his charging the Senator with lying. He eulogized Sumner, and gave the following account of the affair: Senator Sumner received from the hands of President Grant the treaty of San Domingo, and, after examining it for one day, returned it to President Grant and urged a reconsideration of the action of the administration. The President listened in sullen silence. A gentleman who was present, who has been in Washington for forty years, and who came away with Senator Sumner, said, as they came down the stairs of the Executive mansion: "What is the matter with Grant? Do you think he oversteers you?" "I should think he might," replied Mr. Sumner. "No, he does not," was the response. "He is in no state to understand anything." "If Grant never heard," continued Phillips, "that Sumner took back, in the chamber of the White House, the courteous pledge that he trusted to have the pleasure of supporting the administration, it was because his brain refused to perform its office. He is no judge of the veracity of the Senator from Massachusetts."—New York Tribune.

MILITARY SCIENCE IN GERMANY.

One particular German institution is decidedly popular among the German people. There are 1,055,000 men inscribed on the military lists of the German Empire. Of these, as many as 395,000 have their names set down in a black list as having failed to observe the law of compulsory military service, and 190,000 of these have gone out of the way of it by emigrating. One in eight able-bodied Germans has resolved to quit his fatherland rather than stop at home and share the prevailing poverty and enforced military service, which his nation has to endure. In this manner Germany loses much of the muscle and brain of her young men.

THE TARGET SHOOTING AT THE FAIR.

The Iredell Blues, one of the finest looking military companies on parade last Tuesday, is composed principally of the business young men of Statesville, who at this busy season of the year cannot lose time from their stores. As a consequence many of them had to return home on Wednesday morning and the company was reduced to less than ten on Thursday, which barred them from an entrance to the shooting match. There are a number of crack shots in the Blues, who came prepared for the contest, and had they been in, the score might possibly have been different.—Raleigh Observer.

Hon. Montgomery Blair of Maryland.

who is a member of the Episcopal General Convention now in session at Boston, made a speech before a political meeting while in the city as a church delegate, for which the centure of the eyes of the press was asked and referred much to the gratification of the Baltimore Gazette, which declares Mr. Blair not to be pious enough to keep him out of politics, and not Democratic enough to keep him out of the church.

A Neglectful Liver.

The bile has a three fold part assigned to it by the great manager, Nature. It assists in the digestive process, acts as a coloring agent of the blood, and is the principle of the secretory function. When the liver grows torpid, complete chaos ensues in the stomach and bowels; the bile is injected into the circulation in large quantities, and constipation and indigestion are produced. Pains under the right shoulder blade and through the right side, headaches, vertigo, yellowness of the skin, furred tongue and nausea, also follow. But these and other symptoms of biliousness, and disorders which accompany it, are entirely removed by Hostetter's Stomach Bitters, that benign rectifier of organic disturbance and remedy for physical weakness. Intermittent and remittent fevers, urinary and uterine troubles, rheumatism, gout, and other maladies, also yield to the remedial influence of the great corrective and invigorant. It is the people's chosen remedy.

SPECIAL NOTICES.

How It Is Done.

The first object in life with the American people is "to get rich"; the second, how to retain good health. The first can be obtained by energy, honesty and saving, the second (good health) by using Green's Augustin, a natural and safe medicine, which is a sufferer from any of the effects of Dyspepsia, Liver Complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Constipation, Dizziness of the Head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Two doses of Augustin will relieve you at once. Sample bottles 10 cents. Regular size 75 cents. Positively sold by all first-class druggists in the U. S.

AN OPEN LETTER TO THE PUBLIC.

New York, October 1st, 1877. I have devoted twenty years of patient study to the liver and its relations to the human body, in search of a remedy which would relieve the sufferer from its normal condition. The result of that labor has been the production of TUTT'S LIVER PILLS.

Their popularity has become so extended and the demand so great as to induce unscrupulous parties to counterfeit them, thereby robbing me of the reward, and the afflicted of their virtues.

TO CAUTION THE PUBLIC, and protect them from vile imposture, I have adopted a new label which bears my trade-mark and notice of its entry in the Office of the Librarian of Congress, also my signature, thus:

W. H. TUTT, M. D.

BEFORE PURCHASING THIS IS FORGOTTEN. Before purchasing, examine the label closely.

THE GENUINE TUTT'S PILLS exert a peculiar influence on the system. Their action is prompt, and their good effects are felt in a few hours. A quarter of a century of study of the liver has demonstrated that it exerts a greater influence over the system than any other organ of the body, and when diseased the entire organism is deranged. It is especially for the healing of this vital organ that I have spent so many years of toil, and having found the remedy, which has proved the greatest boon ever furnished the afflicted, shall they be deprived of its benefits, and a vile imitation imposed upon them?

LET THE HONEST PEOPLE OF AMERICA SEE TO IT THAT THEY ARE NOT DECEIVED. Scrutinize the label closely, see that it bears all the marks above mentioned, and buy the medicine only from respectable Dealers. It can be found everywhere.

Very respectfully, W. H. TUTT.

CHARLOTTE INSTITUTE OF YOUNG LADIES

TUESDAY, OCTOBER 23, 1877, 8 O'CLOCK, P. M.

Tickets, \$1 each, to be had at Tiddy's Book Store and at the door. Doors open at 7 o'clock, P. M. oct23-

DOCTOR PIERCE'S Golden Medical Discovery. CURES DISEASES OF THE THROAT, LUNGS, LIVER & BLOOD. In the wonderful medicine to which the afflicted are above directed for relief, the discoverer believes he has combined in harmony more of Nature's sovereign curative properties, which God has inscribed into the vegetable kingdom for healing the sick, than were ever before combined in one medicine. The evidence of this fact is found in the great variety of most obstinate diseases which it has been found to conquer. In the cure of Bronchitis, Severe Coughs, and the early stages of Consumption, has astonished the medical faculty, and eminent physicians pronounce it the greatest medical discovery of the age. While it cures the severest Coughs, it strengthens the system and purifies the blood. By its great and thorough blood-purifying properties, it cures all Humors, from the worst Scrofula to a common Itch, Eczema, or Eruption. Mercurial disease, Mineral Poisons, and their effects, are eradicated, and vigorous health and a sound constitution established. Erysipelas, Salt-rheum, Fever Sores, Scaly or Rough Skin, in short, all the numerous diseases caused by impure blood, are conquered by this powerful, purifying, and invigorating medicine. If you feel dull, drooped, debilitated, have sallowness of face, frequent headache or dizziness, and feel in general, internal heat or chills alternated with hot flashes, low spirits, and gloomy forebodings. Irregular appetite, and tongue coated, you are suffering from TORPID LIVER, or BILIOUSNESS. In many cases of this kind, Dr. Pierce's Golden Medical Discovery has no equal, effects perfect cures, leaving the liver strengthened and healthy.

SOLD BY DRUGGISTS AT \$1 PER BOTTLE. Prepared by R. V. PIERCE, M. D., Sole Proprietor, at the WORLD'S DISPENSARY, Buffalo, N. Y.

This Cut Illustrates the Manner of Using DR. PIERCE'S Fountain Nasal Injector, OR DOUCHE.

This instrument is especially designed for the perfect application of DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried High up and perfectly applied to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating Catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. Its use is pleasant, and so simple that a child can understand it. Full and explicit directions accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific in all cases of Catarrh of the Head, and is a mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Dose, 10 to 20 cents by all Druggists.
