TELEGRAPHIC NEWS.
WASH. NGTON.
The Louisiana Senators—Blaine and His Daughter—No Congressional Proceedings—Mata Going Home—Confirmations—Simon Cameron Offered the English Mission.
Morton Commending Hay & c.

WASHINGTON, Oct. 23.—It seems understood among Louisiana politicians that King's name will not be sent to the Senate until near the close. Finckback arrived last night. The impression grows that the whole Louisiana Senatorial question will be remitted to the coming session of the Legislature of that State.
 Senator Blaine's condition is better. His daughter's condition is not dangerous, but the ball has not yet been extracted. She was shot in the face by a premature explosion of a parlor pistol.
 The committee on Privileges and Elections agreed to allow Spofford and Kellogg, or their representatives, an hour each in which to argue their respective cases. Kellogg's counsel argued that the President's decision as to which was the legal government of Louisiana was subject to review and reversal by Congress. By request Spofford was allowed to defer his argument until to-morrow.

The Senate went into executive session with the understanding that they adjourn to Thursday.
 The House will meet to-morrow without a quorum, and adjourn for the Baltimore races.
 There were no nominations to day.
SENATE—Confirmed—Prof Langston, colored, Minister to Hayti, and several unimportant nominations. Adjourned.
NIGHT DISPATCHES
 Senator Mata, who has been here some time with credentials from the Diaz government, returns to Mexico in a few days. His retirement is attributed to ill health, but the real cause is said to be his success in securing recognition.

The Senate has confirmed Governor McCormick as Assistant Secretary of the Treasury, and Hazen as Third Assistant Postmaster General.
 It is said that the English mission has been tendered to Simon Cameron.
 191 Northern Apache Indians are surrounded at Wingate, New Mexico.
 The Indianapolis Journal of today prints an editorial, revised and approved by Senator Morton, declaring that President Hayes has done nothing as yet to justify the Republicans in distrusting either his patriotism or his Republicanism, and urging for him the continued confidence and support of the party.
 The cabinet has finally determined to appoint Roosevelt collector, Merritt surveyor, and Prince naval officer, for New York. No consular or diplomatic appointments were considered to-day.

EPISCOPAL CONVENTION.
A Lengthy Discussion as to the Order of Deaconesses.
 Boston, October 23.—The message from the House of Bishops in relation to marriages with relatives was concurred in and a committee appointed. The number of bishops now in the church is twenty-eight.
 Increased effort with the freedmen of the South was recommended.
 The canon adopted by the House of Bishops for the creation and government of the proposed order of deaconesses and sisters of the church, came up for concurrent action.
 Rev Dr Huntingden objected to the provisions in the canon for the government of the order, whereby the deaconesses would be governed more by diocesan rule than by a form established by the House of Bishops. He was heartily in spirit with the proposed organization.
 Dr Leeds, of Maryland, supported the canon as it came recommended by the committee, as did also Mr Welsh, of Pennsylvania.
 Judge Sheffield, of Virginia, from the committee on canons, presented a minority report, proposing that the qualifications of women to enter the order be left to the Bishops, and that the setting apart of deaconesses should be left to the House of Bishops instead of being in the control of any one bishop.
 Mr Morgan Dix, of New York, expressed the opinion that canonical legislation was unnecessary; he could not endorse anything affecting the majority report.
 Dr Clark, of Kentucky, said that proper legislation was necessary to place the church in its proper position before the world, and declared himself in favor of the canon as reported from the House of Bishops; it would serve to protect the church from any discredit.
 Rev Dr Shattuck, of Massachusetts, thought any legislation or canonical law relative to the matter unnecessary.
 Dr Fulton, of Wisconsin, believed that the establishment should be governed by legislation, the same to be made by the respective diocesan conventions, as regarded the work of the order in their respective jurisdictions.

THE WAR.
The Russians Building Railroads and Establishing Ferries.
 LONDON, October 23.—The correspondent of the Times at Sistova telegraphs the following: "The Russians have made contracts for the construction of a series of railways in Bulgaria, the work to commence October 27th. The main line will run from Sistova to Gorny Studen, with branches from there to Plevena and Tirnova."
 The passage of the Danube by ferry boats on the American plan, has been effected, carrying several railway carriages each time.

Morton's Condition.
 CINCINNATI, Ohio, October 23.—Dr Bliss has reached Indianapolis. He found Senator Morton's condition less favorable than he expected to.

FRENCH AFFAIRS.
The Formation of a Conciliatory Cabinet Suggested—Grevy's Position.
 PARIS, October 23.—A correspondent says the article published in the *Courier de France*, suggesting the immediate formation of a cabinet of conciliation, has attracted much attention. It is supposed to have been inspired by M Jules Grevy and other Republican leaders.
 Jules Grevy will accept the representation of the ninth arrondissement of Paris, instead of his former constituency, the arrondissement of Dale, Department of Jura, from both of which arrondissements he was returned, because the Republicans attach greater and more general significance to his election in place of the late M Thiers. Although M Grevy favors a moderate policy, believing it to be better for the country that President MacMahon should serve his time, still the Marshal does not promptly accept the opportunity now open to him and sincerely co-operate with the moderate Liberals in guaranteeing the country against an anti-Republican surprise. M Grevy is prepared to place himself at the head of the solid Left and maintain its claims and fulfill the duties imposed by the country in the late elections.

THE MINE DISASTER.
Penetrating the Mine and Rescuing the Living and Bodies of the Dead.
 LONDON, October 23.—The latest intelligence from the High Blantyre colliery is to 11 o'clock Monday night. The shaft at the bottom of which the knocking was heard, is rapidly collapsing. Explorers consequently are attempting to re-open communication from another mine. They have penetrated about half a mile, but still have one hundred and fifty fathoms to clear.
 LATER.—Four miners were discovered alive at 11 o'clock, but so exhausted that one died before morning and the case of another is thought hopeless. Mining experts express the opinion that all the men remaining in the pits have perished, but even if any are alive no rescue party can reach them in less than eight or ten days. The work of bringing up the dead was resumed this morning. The bodies were found fearfully burned and mangled, showing that the explosion was of terrific violence.

The Baltimore Races.
 PIMLICO, Oct 23.—In the three quarter mile race Wash Booth won, Vermont second, Diamond third; time 1.25. Two mile race, Dixie stakes, King Faro won, New York second, Stags hanna third; time 3.55. Mile central stakes, Duke Magenta won, Pique second, Danichiff third; time 1.50. Two mile heats, first, Algerine won, Burgoo second, Barricade third; time 4.02. Second, Barricade won, Ambush third, Algerine second; time 3.50. Third, Algerine won, Barricade second; time 4.00.

Wood's Chicago Museum Burned—Failures.
 CHICAGO, Oct 23.—Wood's Museum was partially burned to-day. The part occupied as a theatre was gutted, and all the animals were suffocated. Loss \$50,000.
 G W Alexander, real estate agent, has failed. Unsecured debts, a quarter of a million.
 John W Carrington, Jr, real estate agent, has failed. Unsecured debts, \$21,000.

Railroad Accident.
 St Louis, Oct 23.—A train on the Ohio and Mississippi Railroad was thrown from the track to-day. The rail had been raised by a jack screw, which was left to hold the rail out of place. The mail, express, baggage and two passenger cars, with three sleepers, were thrown from the track. All were more or less damaged, but not a passenger was hurt. It is the supposed work of discharged section men.

The President and Secretary of the Cuban Republic Captured.
 HAVANA, Oct 23.—A Spanish column near Halguin, commanded by Col Mozovujo, has captured the President of the Cuban Republic, Thomas Estrada, and the Secretary of the Cuban Chambers.

New York Items.
 NEW YORK, Oct 23.—Gen O'Brien Dray, lumber dealer, has failed; liabilities \$38,000.
 A woman was convicted to-day of abducting a little girl, and sent to the penitentiary for ten years.

Frost in Tennessee.
 MEMPHIS, Oct 23.—A heavy, white frost fell this morning, which, it is thought, will materially benefit the cotton crop by stopping the second growth, developed by the recent warm weather, and causing the bolls to open.

A Strike Terminated.
 LONDON, October 23.—The weavers' strike at Ashton, by which a thousand operatives were thrown out of employment for the past three weeks, has terminated by the strikers accepting the terms offered by the employers.

Death of an Eminent Divine.
 KNOXVILLE, Tenn., Oct 23.—Rev Dr W E Munsey, an eminent divine of the Southern Methodist Church, died suddenly this morning at Jonesboro.

The Duty of Woman.
 To be attractive is a duty which every lady owes to herself, to her domestic circle, and to society. Not only should she endeavor to please in address and in apparel, but, whenever possible, in complexion and in feature as well. Facial embellishment is to a lady as proper, and oftentimes as necessary, as the adornments of her raiment, the artificial graces of her conversation, or her demeanor, or other meretricious attractions upon which depend so much of her dominion and influence over man. The woman who permits herself to become unlovely, who resigns herself hopelessly to the ravages of time, and the spoliation of her charms, visits upon her friends and admirers a sorrowful regret, that it becomes her to avert to the latest day. Of this social duty, it may truthfully be said that she can best acquit herself by the use of Grand's Olympan Cream. No other preparation approaches this in excellence, in harmlessness and purity, or compares with it in the number of spontaneous testimonials that its virtues have elicited. Its advertisement has hitherto been its merit, its recommendation by all that have used it, and not by sounding and pretentious advertising in the journals of the day. Large bottles price, reduced to \$1. A. H. GOURA, D. D., 98 Greenwich Street, N. Y. For sale by T O Smith, Charlotte.

A Very Good Reason.
 The reason why only one sample bottle of Merrell's Hepatine for the Liver will be sold to the same person, for ten cents, by our druggists, in Charlotte, is because of the enormous expense of importing the Hepatine into this country, but as there are fifty doses in the large size bottles, it seems two cents a dose is cheap enough for a medicine that cures dyspepsia and liver complaint. All who have used a sample bottle are entitled to one for ten cents at all druggists. Three doses relieves any case of dyspepsia, constipation, indigestion or liver complaint, in the world. Regular size bottles, fifty doses \$1.

A CARD.
 To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c. I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev J. J. T. Lewis, Station D, Bible Home, New York City.

Dime Savings.
 Housekeepers who study economy in small things should use Dooley's Yeast Powder, the best, because perfectly pure; the cheapest, as every package is full weight.
