Don Cameron's Trick-Spofford and Eustis-The Colorado Case Referred - Civil Service Voting.

Personal and Political Notes.

Washington, Oct. 25.-It appears that Evarts said to Don Cameron that the English mission should go to Pennsylvania, and asked him to name the man, the scheme being that he should name McVeigh. Don, however, hav-ing his father in view, referred the matter to the Pennsylvania delegation. They selected Fimon Cameron, The selection does not appear to be agree-

sober second thought. It is not by yond a possibility that the question will be postponed until the people elect a new Legislature. It is asserted, however, with some positiveness, that the majority report of the committee will follow what Morton had outlined, which, if adopted, seats Kellogg. The temptation to make the worse appear the better reason, is great, as the as-cendency in the Senate, for at least three years, depends upon it.

SENATE-Mr Chaffee, of California, submitted a resolution to annul rule 47 of the Senate, so as to provide for the standing committee on Banking and Currency to consist of seven Sena-

tors. Referred. The committee on Privileges and Elections have decided to go into the merits of Spofford vs Kellogg. This involves, it is understood, a full rehearing of the dreary story.

Secretary Sherman is quoted as saying that the President would ultimately send King's name to the Senate as collector of customs at New Orleans. The adjournment of the Senate to Monday is confirmatory of the determination of the Republicans not to act on the nominations until an understanding is reached with the exec-

Senators Gordon, of Georgia, Maxey, of Texas, and some others, reported as distinguished people at the Baltimore races, yesterday, were not there.

House-The Colorado case was finally disposed of to-day by a party vote by the reference of all the papers to the the Czarewitch. committee on Elections.

A petition of the colored people of
North Carolina, asking aid for emigra-

tion to Liberia, was presented, read, and referred. Adjourned to Monday. On dit, Grant is to be minister to the court of St James! The Secretary of War grants his

clerks ten days leave to go to Pennsylvania and New York for voting purposes, not to be deducted from their regular vacation.

The Star says: "It is now said in view of the embarrassment in which the Pennsylvania delegation have placed the President with reference to the English mission, that no name to succeed Pierrepont will be sent to the Senate until after the November elections. It won't do to offend Pennsylvania just now, nor will it prove acceptable to give Cameron the place.' Bayard, Thurman and Morgan are the Democrats of the committee of seven to mature a mode of declaring the President and Vice-President.

The Great Strike of Employes of the Bolton Mills-Treaty With the United States -- Race Horses.

LONDON, October 25 .- The statement that the strike in the Bolton cotton mills has terminated is incorrect. The men decline to resume work unless the employers guarantee to revise the standard lists and exchange the base of readjustment before February 1st, next. The employers will consider this condition at a meeting to-day. A strong effort was made on behalf of the employes to induce the spinners' meet-

ing on Tuesday night to accept the reduction unconditionally, but an amendment to that effect was rejected by an overwhelming majority. The Staffordshire colliers are now

voting whether they will accept the re-duction insisted on by the proprietors. As far as the returns are known, there is a large majority against acceptance. Five thousand colliers are now idle. and two thousand more go out on Saturday. The result of the voting will be announced to-day.

United States Minister Pierrepont and the Earl of Derby, Secretary of State for the foreign department, yesterday signed a treaty regarding trade marks and trade labels. The treaty

goes to America to-day. Captain Machell bought Mr Sanford's horse, Mate, yesterday for 355 guineas, and will enter him for next year's steeple chases. Brown Prince is recoving from an attack of pneumonia, but it is feared will be unfit for racing hence-

The Pope Expels a Prominent in the "Scythia."

LONDON, October 25 .- Special dispatches from Rome assert that the General of the Jesuits, by the Pope's cold? Use Dr Bull's Cough Syrup and proorder, has expelled from the society, Father Cruci, editor of the Civitata Cataloca, and both as a sacred orator and writer, heretofore regarded as one of the brightest ornaments of the Jesuit order and the Roman Church. Father Cruci's offence was maintaining that temporal power is not necessary to the well-being of the church. It is said that he intends to publish a full account of his differences with the Vatican, dating from 1871.

Morton's Condition.

CINCINNATI, October 25.—A special from Indianapolis, says; "Dr Bliss, who is attending Senator Morton, does not now seem very hopeful of Morton's immediate improvement. He has eaten little or nothing for nearly a month, and it is feared that he will literally starve to death. A change of treat-ment has been decided on, and medi-cal skill will now be directed to infus-ing nourishment into the system."

EPISCOPAL CONVENTION.

The Marriage and Divorce Can-on Amended—Joint Committee on the Deaconesses.

Boston, October 25.—The bishops non-concur in the canon in regard to marriage and divorce. A committee of conference was appointed. The bishops concur in allowing the use of the English Lectionary.

LATER-The bishops concurred in the amendments of the lower house in relation to the amendment of canon 13, title 2, on marriage and divorce. A message was received from the bishops notifying the convention of the adoption of a resolution for the appointment of a joint committee to consider further the subject of legislation relative to the organization of the proposed order of deaconesses and report to the next general convention. able to Mr Hayes.

The impression is becoming oppressive that the Senate will not seat either Spofford or Eustis. Some Republicans, not wishing to have Kellogg and Pichback thrust down their throats, favor allowing Louisiana to have her sober second thought. It is not be presented to the next general convention. This joint committee, as appointed, consists of the bishops of Alabama, Long Island and Pennsylvania, and Reve Drs Dix, of New York, Parker, of New Jersey, Dr Huntington and Robt L Winthrop, of Massachusetts, Mr Judd, of Illinois, and Mr Stark, of Consoleration.

The Situation Unchanged-Conciliation Urged and Opposed.

NEW YORK, Oct 25 .- The French situation is unchanged. The government organs continue to declare that the Marshal will not submit nor the ministers resign. The Le Soleil to-day again urges mutual concessions. The Republique Francaise rejects all idea of conciliation. It says: "The resigna-tion of the ministry will not be sufficient." Nevertheless, it is believed that influential members of the Left are resolved on a moderate course .-Gambetta will deliver a speech next week at the American circus.

A Very Good Reason. The reason why only one sample bottle

of Merrell's Hepatine for the Liver will be sold to the same person, for ten cents, by our druggists, in Charlotte, is because of the enormous expense of importing the Hepatine into this country, but as there are fifty doses in the large size bottles, it seems two cents a dose is cheap enough for a medi-cine that cures dyspepsia and liver com-plaint. All who have not had a sample bottle are entitled to one for ten cents at all druggists. Three doses relieves any case of dyspepsia, constipation, indigestion or liver complaint, inthe world. The Cotton Market.

OBSERVER OFFICE. CHABLOTTE. N. U., October 27, 1877.

For the past four years a careful and accurate report of the condition of the cotton market has been one of the features of the OBSERVER, and so systematic have we tried to be in our effort to report the actual condition of the market from day to day and from week to week, that cotton buyers and cotton sellers throughout the country contiguous to Charlotte, now rely in the main upon our reports for an actual condition of the market. Knowing that often a large amount of cotton changes hands daily upon prices based upon the OBSERVER reports, it has long since become a matter of conscience with us to have the reports as correct as it is possible for us to do. We want it distinctly understood that we are not on the side of the cotton buyers or the cotton sellers in this matter. Our whole aim has been and shall be to report the actual figures given and received for the staple when it is offered on the Charlotte market. Complaint has been made that for a few days past the OB-SERVER has been quoting cotton a little under the actual price. Let us see. Taking vesterday's quotations, middling is quoted at 10%c, and 44C bales are given as the re ceipts for the day. A small part of the cotton brought a slight advance just at the close of the day's transactions, say 10 40 to 10 45, but this was because purchasers held orders which must be filled by a given time, without regard to the actual market, as indicated by telegrams from New York, Boston and Liverpool, which were received hourly by cot ton men throughout the business part of the

We quoted middling at 10%. The Wilmington market, as indicated by our telegraphic market reports, was only ic higher. and the freight from Wilmington to New York or Boston being one dollar less on the bale, showed that our market was at least on a par with Wilmington. The Augusta market was the same as our quotations, while Norfolk, Charleston, Savannah and New Orleans were not higher than ours in proportion to the difference in the freights to Boston, Providence or Fall River. Our Liverpool quo: ations were 6 9-16d, which, counting freights to this great cotton emporium of the world, and reducing the money to American currency, again places us right with both buyer and seller on the Charlotte market.

As a further evidence as to the Charlotte market, we will state that at 10 o'clock last night we were shown a telegram from a leading New York cotton firm to a firm in this city, declining to purchase a lot of cotton offered at Charlotte prices. and closing with the significant remark: "we can do better in Norfolk, Charleston or Savannah." In other words, we are accused of quoting cotton too ow by home sellers, and yet New NEW YORK, October 25 .- President York houses decline to buy, because we are too high. To a certain extent this looks like we were between the upper and the nether mill-stones, but as our aim is to de justice to both the buyer and seller, the b ame cannot rest upon us. The market yesterday closed rather weak, but offerings found purchasers at the follow-
