It is said that with the change of

schedule on the Richmond & Danville Railroad, the irregularities in the running of trains will cease. It is to be hoped so.

A little son of Mr J S Shafer fell from a pair of stilts yesterday and broke his fore arm. Only one of the bones was fractured, and he is doing "as well as could be expected under the circumstances."

Capt R A Jenkins, a gentleman who was often here and was well known generally while soliciting agent for the Atlantic, Mississippi & Ohio Railroad, is soon to become the landlord of the Paxton Hotel, Danville, Va.

#### A Small Run Off.

The delay of the Wilmington train two of the cars passed over the wreck and the passengers were transferred.

### Knocked Off the Track.

The Concord Sun gives the name of the man who was knocked off the Carolina Central Railroad near Charlotte one day last week, and had his wagon smashed all to pieces and a bale of cotton knocked over the fence, as James Morrison, of Pioneer Mills, Cabarrus county. The Sun says that although he was not much injured a heavy brogan shoe was knocked off one of his feet, and a darkey who was in the wagon with him was "ditched" and knocked senseless.

### The Widows and Widowers,

A lady of this city has taken the pains to count up, as far as she is able, the number of widows and widowers in town. The general public will be surprised to learn that this unofficial count has resulted in finding within our corporate limits no less than seventy of the former and no more than eight of the latter. Of course there are quite a number of people in the city with whom the lady is not acquainted, and she does not claim that her returns are complete.

### A Slandered Tramp.

It has come to be so popular here of late to call upon newspaper men for explanations and apologies for what they print and say, that hanged if it ain't getting dangerous to follow the profession unless you are going to have "I apologize" printed on a card and wear the card on your breast. Yesterday morning the OBSERVER published an item about two tramps stealing a ride on one of the railroads running into Charlotte and may we die like a dog if one of them didn't come up yesterday and want an explanation and correction!

Colored Military. The Adjutant-General has issued an order, organizing the colored military companies of the State in the fourth and fifth battalion of the North Carolina State Guards, and ordering the officers to assemble for the purpose of learning. electing a Lieutent-Colonel and Major of each battalion. The Charlotte Blues together with the Hanover Light Infantry, Cape Fear Light Infantry, Howard Light Infantry, Fayetteville Rifle Guard, constitute the fifth battalion. The officers of these companies will meet in Wilmington on Wednesday, the 21st of November for the pur. pose of electing the officers of the battalien mentioned above. The officers

If this experiment proves a success, other citizens in the Southern part of Mecklenburg will establish similar enterprises. This factory is to cost about \$5,000, and its projectors are satisfied that it will prove a paying institution.

#### Police Points and Court Gossip.

The police force will average nearly ix feet in height and about a hundred and seventy pounds in weight.

Only \$2 was taken in at the mayor's court yesterday morning.

Although there were a large number of people on the streets as is usual on Saturdays, there was not a single arrest during the day.

### Much of a Man.

Mr White, the Baltimore drummer who is known allover the country for his extraordinary muscular development, is in town again, selling goods and astonishing the natives. "How much can you hold out?" an OBSERVER reporter asked him as he leaned on the counter of the Central Hotel last night, "Well, I don't like to hold out more than a hundred pounds in each hand," It may also be added that after the he responded; "you see it strains me; Columbia Fair, a train will be put on but the other day I held out two kegs of shot, 25 pounds to the bag, without any difficulty. #### The Observer on the Railroads,

Under the new schedules the OBSERV-ER will possess unrivalled advantages on all of the railreads running out from Charlotte.
