The Wisest of Precautions.

Of precautions, the wiseat is that which is taken against disease. There is safety in timely medication; great peril in delay. One malady often begets others far more dangerous, and if it does not, any apnormal congerous, and if it does not, any abnormal col-dition has a tendency, if unremedied, to be-come chronic and obstinate. Trifling disor-ders of the stomach, liver, bowels or urina-ry organs may speedily develope into for-midable maladies. Check them at the out-set with Hostetter's Stomach Bitters, which, although it is wonderfully effective in overcoming disorders of long standing, is, like any other medicinal preparation, more advantageous in the infancy of the maladies to which it is adapted than after they have become chronic. Among these are dyspepsia, liver complaint, constipation, intermittent and remittent fevers, gout, rheumatism, ner-yous and general debility, and urinary troubles. The Bitters are a capital appetizer, induce sound repose, and counteract the effects of fatigue and exposure.

SPECIAL NOTICES.

Astonishing Success.

It is the duty of every person who has used Boschee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor dying consumptive, at least to try one bottle at ten cents. Regular size 75 cents.
