That worst of authority, the National Republican, says the President will sign the silver bill should it pass Congress, and that he believes the business interests of the country demand its passage. The cause of this suspension of business is explained by the officers in these few, simple words: "The smallness of deposits, the constant shrinkage in securities, and the legal restriction of seven per cent on loans, compel this course in justice to all concerned."

On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harunder all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician.
