General News and Gossip.

Washington, January 12.- Neither

house is in ression. Washington, Jan 12 .- The reporters' galleries of the Senate and House are connected by a telephone. Orders have been issued to detain the "Estelle" at Bristol.

J N Camden has been appointed commissioner to the Paris Exposition from West Virginia,

The Star says that "Representative Buckner, chairman of the Banking and Currency commutee of the House, is reported as threatening that if the Senate fails to pass the silver bill, or if the President should veto it, he will have the rules suspended and the Bland bill attached as an amendment to the Legislative, Executive and Judicial appro-

This afternoon the Postmaster Gen-eral transmitted to the Speaker of the House a communication recommending a change in the law regulating the prices to be paid for advertising. In case no change in the price is made, he suggests that no list of routes be published, but that notices informing contractors that proposals will be re-ceived for carrying the mails between stated points be published instead, and that contractors be referred for all information usually advertised, to the Second Assistant Postmaster General.

Washington, Jan 12.-The tobacco delegations were reinforced to day by delegations from Baltimore, Lynchburg, Liberty, Va, and other places Conferences were held with several members of Congress. The several delegations were unanimous for a reduction to 12 cents per pound, and a lrawback on the old stock in the hands of manufacturers and their agents and effect. They urged upon those members that this rule would bring more than \$30,000,000 into the treasury annually, which Congress ought not to require this staple production to con-tribute, and should there be any deficiency it ought to be made up on other subjects now untouched by federal taxation; that this reduction of the rate would generally increase the consumption, thereby increasing the price of the farmers' and planters' leaf; that the price of the leaf has steadily fallen since the present high rate of taxation went into effect on March 3rd, 1875, until it ranges on the average grades in eastern and western markets to 34 cents per lb, a point unremunerative

to both farmer and dealer. This move in behalf of reduction was commenced by the representatives from Virginia, North Carolina, Missouri, Tennessee and Kentucky in the interest of the farmer and planter, and has been since taken up by the manu-facturers of Richmond, Lynchburg, Danville, Louisville and Cincinnati, whose interest is considered with that of the growers of tobacco. The Baltimore delegation ineist upon the draws back as set forth in Representative Cabell's bill. In fact, they represent that the deslers and jobbers of the North will take this bill as it is. To-bacco manufacturers have a strong accession to their ranks on the basis of this bill, which seems to be one which harmonizes the different interests to a greater degree than any which has yet been offered to Congress. The repre-sentatives of the cigar Interest represent that they are more interested in a change of the bonds now required of them than they are in reducing the present rate on cigars and cigarettes.

Contradictory Reports Concerning the Armistics Russia's Conditions will Probably be Severe
 The Porte Wants the Question of the Armistice and Peace to be Separate—He Asks Russia for Her Conditions.

London January 12 -The cabinet council is summoned for to day. The Standard's special from Constantinople says the Russians have occupied Ezki Saghra and Yeni-Saghra, cutting off the Turkish army. This report is ap-

rendered to the Servians numbered at large. You would find scarcely 8,000, with 90 cannot, 12,000 rifles, and a number of flass a number of flass. The Times' Bucharest dispatch re-

ports that six small steamers commenced plying between Simuitza and Sistova on Thursday.

A Bucharest correspondent of the Times says the contradictory reports in regard to the conditions of the armistice continue. The Russians have probably not yet made any proposal, but all reports current point to severe conditions. A rumor is in circulation in Berlin that the Russians demand the evacuation of the Danube fortresses and the withdrawal of the Turks to a line of demarcation between Adrianople

and Phillopopolis.

A Times' Bucharest dispatch says:
"It is rumored that Grand Duke Nicholas has demanded the surrender of Adrianople as the first condition. No great confidence in the conclusion of he armistice is felt at Bucharest, unless the matter is conducted entirely by Russian diplomatists to the virtual ex-

clusion of the military element." A telegram to the Times from Vienna, also says: "According to very trustworthy information, the whole Russian army feels the bardness-almost inany rate delay the armistice as long as The same correspondent jobbers when the new law goes into says: "The Prince of Montenegro having applied to Russian headquarters for instructions relative to the armistice, has been informed that he need not send an envoy, as the Grand Duke

would take charge of his interests."

The Daily Telegraph's Pera correspondent sends the following: "The Porte has refused to allow the questions of peace and armistice to be considered together, as it was understood these questions were to be kept separate during the preliminary negotiations. I believe the Porte has deter-mined that the defence of Adrianople is virtually imposible. The ministe rial changes are regarded as favorable to peace, but opposed to the separate arrangement desired by Russia. Hamdi Pasna, the new grand vizier, (not Haumi Pasha as first telegraphed) favors dignified, honorable peace. An imperial order, giving notice of the changes in the ministry, says the Turkish defeats are due to the fault of the commanders, who will be tried when peace is established. The order expresses the hope that the new ministry will make such arrangements as will guarantee the integrity and indepen dence of the country. It is officially stated that the term of the armistice

proposed by Turkey is six weeks."
The Daily Telegraph's correspondent, at Vienna, states that at Schipka Pass the Russians captured 28,000 men, 1,000 horses, 12 mortars, 12 siege guns and 80 field guns.

The Cossacks have cut the Yamboli

A Reuter has the following, dated Constantinople, 9 a.m.: "Encouraged by the German ambassador, who intimated that Russia's conditions of peace would probably be moderate, and in order to give Europe proof of its sincere desire for peace, the Porte has asked the Russian government to state what conditions it would demand."

The Pailly News ways the cabinet The Daily News says the cabinet

council summoned for to-day was originally fixed for Monday. "The date," says the Daily News, "has been advanced for reasons which may be of great gravity."

Lordon, January 12, 8:30 p. m.—The largest fire for sometime is now raging in Friday and Walling street. It originated in the warehouse of Crocker, Sons & Do., calico printers. The whole block is threatened, but the fire is now believed to be under control. The loss already is over \$1,000,000.

Common sense for all cases of longhs Cough Syrup.

The opponents of Mr Hayes' South-ern policy see that it has resulted in vast benefit to the South, but they see at the same time that it has deprived at the same time that it has deprived the carpet bagger of his occupation and his power to plunder. No benefit the Southern people may derive from that policy is in their eyes a compensation for the loss of a single Radical representative in Congress. They would rather see the South ruled and ruined by Radical thieves than governed and made prosperous by honest Demografs. made prosperous by honest Democrats. These are the men who set themselves parently due to the panic in Constantinople. Several special disparcies announce that the garrison of Nish, which sur-

"Bogus Singer Sewing Machines."

OFFICE OF SYMONS & MAXWELL, Dealers, in all kinds of Sewing Machines, CHARLOTTE, N. C., Jan. 12, 1878. In yesterday morning's issue of the OB-SERVER an advertisement appears in regard to a Bogus Machine purporting to be a Singer, being thrown on the market and palmed off on the public.

As we have the only office in Charlot's except the Singer, these remarks can apply to us only, and co us great injustice. It is well known to the local Singer Agents here that we have recently introduced not a Bogus, but a real singer Machine made by he Stewart Company, in New York hity, who make a better Machine for less money. For so doing the Stewart Company has been assailed by the Singer Company in the courts of New York for infringment of their patent; but in all cases the singer Company has failed to stop the manufacture of the Singer Machine by the Stewart Companyand why not? The original Isaac M Singer is mouldering in his grave, the patent has expired, and any company or person is at iberty to make the Singer or any other machine. Why then this attempt to fas en on the public, MONOPOLY and HIGH PRICES? We sell the Singer and all other ain s of Machines, and if we come in competition with another Singer Machine, we are willing to place them side by side and test them merits. We venture to assert that no ma-chinist, no agent, no experi—not even the original Isaac M. Singer himself, could the revisit this earth, would recognize a machine made by the Stewart Company from another made by the Singer Company, when divested of their name and trade mark. The machinists who once worked for the inger Company are to-day working for the Stewart Company. The Singer Company has no exclusive privilege; no better right to make a Singer Machine than any citizen of Charlotte. We submit an extract from the Americ in Trade Journal published in the city We submit an extract from the

of New York by men of skill, "Business and Enterprise." "Mr. Stewart makes the Singer machine, but those from his factory are superior in finish and workmanship to those produced by the singer Company. He also makes every part of the machine, so that any person owning a machine purchased at Singer's, which has become injured in any of its parts, this part can be supplied by Mr. Stewart as well as by the Singer Company itself, and at much less cost. He turns out about 400 machines weekly, and is making preparations to produce 600 a week, as orders are pouring in to him from every portion of the country faster than he can fill them. We

Henry the Seventh of Reuss, German ambassador here, absolutely denies that he said the Russian conditions of peace would be moderate, as mentioned in a Renter dispatch this morning. All he said was that the conditions would be easier if Turkey treated directly with Russia.

We call public strention to the fact that he sells these machines \$5 less for every grade of machine, than the Singer Company itself. This is a matter of importance, and the Singer Company cannot but acknowledge that he makes their own machine better than they do themselves."

Thus you see the opinion of unbiased scientific men, without prejudice or recling, in the centre of our great metropolus—and could the original Isaac M. Singer rise from his grave he would claim the machine now his grave he would claim the machine or importance, and the Singer Company cannot but acknowledge that they do themselves."
