LONDON, Jan 29.—A special dispatch to the Times from Philadelphia indicating that there is a possible two thirds majority in the United States Senate for Bland's silver bill, had the effect of

The Echo says: "There is a great panic in the cotton trade of Blackburn, on account of the fear of the prolonga-tion and extension of the Eastern war which has hitherto greatly depressed cotton manufacture. Should the crisis contine, the mill owners will attempt a reduction of ten per cent. in the wages of operatives"

THE GREAT EASTERN QUESTION.

The Coming Debate in the English Parliament-Another Battle Disastrous to the Turks-Disturbances in Constantinople-No News from the Plenipotentiaries.

London, Jan 29 .- The press association understands upon announcement that the government would consider the money v te a vote of confidence. Lords Granvi le, Kipon and Kimberly, and some of the other opposition leaders hastily conferred together, and although no definite resolution taken, it is understood that was opposition will accept the government challenge and arraign its whole Eastern policy Lord Harlington proposed the postponement of the debate so as to give the

The latest from Athens up to last night, says that order has been reestablished, but the exasperation of the people is increasing. Their disposition is very warlike. Many volunteers Acid Phosphates are crossing the frontier.

The vote of the supplementary estimates has now become purely a party question, and the Liberals will contest it as such and accept the result of the division as decisive. The government's position in the division as weakened by lacking the vote of confidence to by lacking the vote of confidence to the question of supplies, because many Liberals who might not have been willing to refuse supplies, will not hesitate to oppose the cabinet on the party question. On the other hand the government's Eastern policy will be strengthened by a decided majority to such an extent that fear is already expressed in some quarters that the cabipressed in some quarters that the cabinet will take a hostile attitude, even at the risk of offering Lord Derby's resignation of the foreign secretaryship.
Lord Derby, last night, in opposing
Lord Strathaden's resolution, declaring that opposition to any occupation of Constantinople would not be a breach of neutrality, very strongly intimated his personal conviction that the temporary Russian occupation of Constantinople would furnish no

ground for British interference. Advices from Constantinople up to 7 80 last night, say there is no news yet from the Turkish peace plenipotenti aries The concentration of Russians at Admanhple continues. A Very Good Reason. The reason why only one sample bottle of Merrell's Hepatine for the Liver will be sold to the same person, for ten cents, by our druggists, in (harlotte, is because of the enormous expense of importing the Hepacountry an opportunity to extress its tine into this country, but as there are fifty cae- in the large size bottles, it seems two cents a dose is cheap enough for a medicine that cures dyspepsia and liver com-plaint.
