TELEGRAPHIC NEWS.

WASHINGTON.

PROCEEDINGS OF CONGRESS. Dean vs Field—Wherein Field—Talk of a Department of Industry—Beck and Bayard Oppose the Senate—Nominations.

WASHINGTON, Feb'y 4.—The sub-committee on Elections in Dean vs Field, from Mississippi, Candler and Hancock reported in favor of Field and Springer in favor of Dean. The case goes over to Wednesday.

WASHINGTON, Feb'y 4.—SENATE—A great part of the morning hour was taken up in the presentation of petitions from all parts of the country, most of them remonstrating against the changes in the present tariff duties, and the restoration of the tax on tea and coffee. All referred to the committee on Finance.

HOUSE—The following bills were introduced and referred: By Davis, of North Carolina: Reducing the tax on brandy made from peaches or apples.

By Shelly of Alabama: For a commission to inquire into the best means of destroying the cotton army worm.

By Hooker, of Mississippi, moved to suspend the rules and pass the bill authorizing a special term of the circuit and district court for the southern district of Mississippi, for the purpose of trying causes arising from the seizure of timber alleged to have been obtained by depredations on the public lands.

By motion to suspend the rules and instruct the Ways and Means committee to report a graduated income tax was defeated by 166 to 86—not two thirds in the affirmative.

Senator Beck spoke in support of his amendment, and Mr Bayard in opposition to the silver bill.

WASHINGTON, Feb'y 4.—Messrs Beck and Bayard occupied the day in the Senate. Mr Beck offered an amendment looking to the prevention of the debase dollar, but of a double standard. Mr Bayard opposed Bland's bill.

Nominations: Thomas Anderson, of Pennsylvania, (known in Louisiana in connection with election returns,) consul general at Rio Janeiro; Edward Wheeler, collector of internal revenue for Arkansas; Jas C. Rollins, postmaster at Camden, S C.

Effects of a Gale—Story of Another Remarkable Cure. New York, Feb. 4.—Over \$250,000 damage was done to the handsome summer college district, Long Branch, by Thursday's gale, and with the exception of the Howland House, not one of the large hotels escaped between Highland's station and Sea Bright.

Rev Father Seiene, of Maunich Chunk, Pa., has the following card in this morning's Herald: "Miss Greth was called out of restlessness by a miraculous means. She was deathly sick and restored completely. She is now in perfect health. Miss Greth had hemorrhages from the lungs twice and three times every day for about nine weeks. No physicians were called, and no remedies were used during her sickness. There was a multitude of people present when she was cured; and I don't know whether any physicians were among them. She was cured quite publicly. Ecstasy means the soul departed from the body."

SPARKS FROM THE WIRES. The Anderson trial was resumed in New Orleans yesterday. The steamboat Lessee Taylor has been snagg'd at Chafalaya Bay. No lives were lost. The boat and cargo are a total loss.

THE GREAT EASTERN QUESTION.

Austria Dissatisfied With the Peace Conditions and in a Threatening Attitude—Mobilizing Her Troops and Calling for a Conference of European Powers—Servia Discontented and Actual War Broken Out Between Turkey and the Hellenes—The Re-Opening of the Whole Eastern Question and a Generally Unfavorable Outlook.

LONDON, Feb. 4.—The Duke of Northumberland enters the cabinet as Lord of the Privy Seal. The Standard's Bucharest correspondent telegraphs: "In consequence of the armistice the garrison at Widin has been ordered from Constantinople to surrender arms, after which they will be quartered in the neighboring villages."

The Pera correspondent of the Times reports Austria about to send a note refusing to sanction any conditions of peace which would imperil the existence of Turkey.

The Pesth papers announce an Austrian army corps mobilized and concentrated at Versea. The Odessa correspondent of the Times in a letter to that journal, says: "Much relief is felt at the probability of an armistice, as the people are naturally anxious to dispose of the grain accumulated here—about 1,000,000 quarters. Nearly one million and a half more are stored at stations on the Odessa & Kharkof, Nikolaiof & Sebastapol, and Korska & Azof railways."

St. Petersburg, Feb. 4.—The Vedomost calculates that after the conclusion of peace, the Black Sea and Sea of Azof ports will export 5,000,000 quarters of wheat.

BELGRADE, Feb. 4.—The government has ordered the different Serbian commanders to stop hostilities. CONSTANTINOPLE, Feb. 4.—The blockade of the Black Sea between Odessa and Constantinople has been raised.

LONDON, Feb. 4.—The Times' Vienna dispatch says: "Even in their immature form, the Russian conditions seem to contain much that can scarcely be brought into harmony with the interests of Austria, being rather calculated to sow seeds of fresh troubles than promote a real and lasting peace. They destroy the Ottoman power in Europe without substituting anything in its place possessing guarantees of stability. The smaller States would receive just enough to make them wish for more, while Bulgaria, the largest of them in extent and population, would become little more than a Russian dependency. The restoration to the Czar of Bessarabia without a due equivalent to Roumania, would make Russia mistress of the mouths of the Danube. Thus, in the very preliminaries themselves, there is much that must lead to discussion between Austria and Russia, and the same must be the case, though perhaps to a lesser degree, with the other powers. Meeting Roumania has already announced her claim to take part as a belligerent in conclusion of peace, the minister of foreign affairs having issued a circular to this effect. The Servians are greatly disappointed with the frontier rectification allowed them by the Russian preliminaries, and claim that in spite of the armistice, they will not stop operations until they have possession of all Servia down to the river Lom."

"By this time the war between Turkey and the Hellenes has actually broken out. The Turks seem to have expected this, for a Turkish man-of-war has been ordered to Athens to take off the ministers. Thus the Eastern question has been raised in its full extent."

LONDON, Feb. 4.—The London correspondent of the Manchester Guardian, telegraphing to that paper last night, says: "The document signed at Adrianople tends to increase public distrust, and if Russia were not pledged to refer certain conditions to a conference, public sentiment would take a more decided shape than distrust. The Liberals have not heretofore been hearty or unanimous in supporting Mr. Foster's amendments to the government motion for the supplementary. The signature of the armistice will perhaps not decrease the government's majority, but in any circumstances it will probably exceed 100. The government may endeavor to counteract the effect of the armistice by some announcement concerning the terms of the protocol. If they are deemed unsatisfactory, the government will not hesitate to say so. The feeling tonight is far from hopeful."

St. Petersburg, Feb. 4.—The Czar, yesterday, after the inspection, addressed the troops as follows: "I congratulate you upon the armistice, the satisfactory conditions of which are due to our brave troops who proved that for them nothing is impossible of accomplishment. We are still, however, far from the end, and you must continue to hold yourselves prepared until we obtain a durable peace worthy of Russia."

Public opinion here, and even more at Moscow, regards the projected conference with disfavor. Some of the papers speak of the conference as a mere device of the European powers to deprive Russia of all she gained after so heavy an expenditure of blood and treasure, without themselves spending a farthing or losing a man.

VIENNA, Feb. 4.—The cabinet yesterday issued a formal invitation to the signatory powers of the treaty of Paris, to send representatives to a conference to be held at Vienna.

2,000 Persons Perish in a Fire. PARIS, Feb'y 4.—A telegram, dated Shanghai, China, yesterday, Feb'y 3rd, 1878, published here, announces that an asylum for women and children at the city of Hienstein has been burned. Over two thousand persons are stated to have perished in the fire.

As BLIND AS A BAT.—While the Wilmington, Columbia and Augusta Railroad train was pushing along towards Columbia, Tuesday night, about eleven o'clock, an owl commenced beating against the windows of the ladies' coach and kept up its "tappings" for at least five miles. At last the "bird of evil," as Poe would have it, succeeded in breaking one of the panes of glass and fell dead upon the floor of the car. The rash bird had been stuffed, and is in the keeping of one of the boys at the express office in this city.—Columbia Register.

Treasury Department. Washington, D. C., Nov. 10, 1878. I take great pleasure in certifying to the efficacy of Dr Bull's Cough Syrup, in use in my family and as a specific for colds of children or adults. I have found it to be a cure almost immediate and always permanent. Very respectfully, Thos B Eric.

Now and Then. It is only now and then that such men as Hon Alex H Stephens, Ex-Gov Smith and Ex-Gov Brown, of Ga., endorse a medicine for the throat and lungs, and when they do it is pretty good evidence that the remedy must be good for the cure of coughs, colds and lung affections. They recommend the GLOBE FLOWER COUGH SYRUP, and their testimonials are to be seen round the ten cent sample bottles of the Globe Flower Syrup, for sale by all druggists in Charlotte. A sample bottle relieves the worst cough and will cure sore throat. Regular size bottles, fifty doses, \$1.
