PROCEEDINGS OF CONGRESS.

The Fisheries Award—Another Effort to Repeal Resumption—A Proposition to Establish a Postal Savings Depository—The Hot Springs Reservation and Senator Dorsey.

General Notes and Gossip.

WASHINGTON, March 21.—SENATE—Mr Conkling presented a petition of the citizens of New York City asking an appropriation to complete the catalogue of the national medical library.

SENATE—California, read a communication from T W Stout, secretary of the New York maritime association, referring to the memorial of that association in regard to the change in the control of the life saving station, recently presented in the Senate, and stated that the memorial favored the transfer of the control of that service from the Treasury to the Navy Department.

HOUSE—Chalmers, of Mississippi, introduced a bill providing for the organization of the Mississippi improvement commission. Referred.

The naval appropriations bill for nearly fifteen millions of dollars was passed.

An effort to take up the Mexican pension bill was defeated by a vote of 97 to 116. The motion was made by Mr Hewitt, of Alabama, and was to set aside the regular order. The vote is no indication of the strength of the measure.

Waddell, of North Carolina, chairman of the committee on Postoffices and Post Roads, reported a bill to establish a postal savings depository as a branch of the Postoffice Department, and to aid in refunding the interest bearing indebtedness of the United States.

The bill also provides for certificates of deposit of the denominations of ten, twenty, fifty and one hundred dollars, bearing interest at 3.65 for one year only, and to be convertible into four per cent bonds.

SENATE—Hereford, of W Va, offered a preamble and resolution directing the Finance committee to report the House bill repealing resumption within one week, and asked that immediate action be taken. Objection was made by Mr Morrow, and the matter went over under the rules.

The timber question was resumed. Jones, of Florida, spoke in opposition to the Secretary of the Interior.

Mr Dorsey, of Arkansas, spoke to a personal explanation, and called attention to a publication which appeared in a New York paper of yesterday, in regard to his amendment to the bill passed last week to extend the time of the Hot Springs commission. He said he had determined long since not to respond to newspaper publications investigated by persons engaged in defaming the characters of those upon whose floors, but in regard to this matter he desired to say that the amendment introduced by him simply authorized the superintendent of the Hot Springs reservation to lease ground for the erection of suitable bath houses for the accommodation of the public, and to distribute water to the people of the place. It granted no other privilege.

There were two or three individuals hanging around the capitol who had the interests of the people of Hot Springs so much at heart that they immediately telegraphed there that a great fraud had been perpetrated by him (Mr Dorsey); that the water company was to have possession of all the springs. The amendment he proposed was an absolute necessity to enable those visiting the springs to enjoy the advantages of the waters. All the bath houses but two were destroyed by the recent fire. He had received many letters urging the passage of such an amendment as that submitted, and he submitted it because he thought it was the right thing to be done. The only thing that this water company asked, and all the bill granted, was the right to build a reservoir on the mountain for cold water, to supply the city therewith, and erect bath houses. It did not give the company a right to the Hot Springs. If it did he (Mr Dorsey) would be as quick to protest against it as any one. He had letters now from ex-Senator Crogin and others, approving of the amendment. For more than a year he (Mr Dorsey) had spent much time and money in sifting these Hot Springs difficulties. Finally, the bill was passed organizing the commission, and the adjustment of the difficult questions involved, were now progressing to the satisfaction of every one, and exact justice was being done to all. He must express the opinion that when the people of Hot Springs had understood his amendment they would not condemn it. This story, like all others, was not worthy of this attention.

Capt Adams, commander of the United States corvette Hartford, died at Annapolis, of yellow fever.

The President communicated to the Senate to-day the correspondence regarding the fishery treaty, whereby the

United States was mulcted in five million dollars. The correspondence is bulky but contains nothing startling or new and develops no sharp practice on the part of England or palpable stupidity on the part of the United States.

The commissioner of internal revenue will to-morrow issue a circular materially modifying and explaining a recent order with regard to the division line between cigar factories and retail stores, which has called out innumerable protests from all over the country.

THE ECHOES OF THE WAR.

Still Nothing Settled—Speculations as to England and Russia's Positions on the Conference Question—Russia Concentrating Troops Around Constantinople.

LONDON, March 21.—The Telegraph's Vienna dispatch states most positively that Gen. Tschekowsky, former provincial governor of Bulgaria, has committed suicide because threatened with removal.

Russia is about to issue her intimation that she recognizes the right of each power individually to demand the discussion of any stipulation in the treaty, but reserves the right of refusing to submit such stipulations to the sanction of the powers, even if the majority desire it.

A dispatch to the Daily Telegraph from Pera says the British government has telegraphed to Gen Sir Arnold Kimball to return home immediately. It is reported that England has decided to resist the Russian annexation in Asia Minor.

A Vienna dispatch to the Times says Russia's admission of the right of the congress to discuss what points of the treaty are of European interest does not seem to have been made directly to England and the difference is still unsettled.

A special to the Daily News from St Stefano reports that the Russians have abandoned the idea of embarking at Buyukdere, because Minister Layard has informed the Porte that if the Turks grant them permission to embark there, the British fleet would come up the Bosphorus.

The News' Vienna dispatch says: "Russia has declared her readiness to make concessions relative to the boundaries of Bulgaria and all misunderstanding between the three empires is removed."

A special to the Times from Vienna says that according to the treaty of San Stefano, the evacuation of European Turkey except Bulgaria, must be completed in three months after definitive peace, and a portion of Russian troops may embark on the Black Sea and the Sea of Marmora. It is doubtless on the strength of these conditions that the Russians are now beginning to march their troops for shipment in the neighborhood of Constantinople, as they may begin their operations at once if they are introduced in the Reichstag to-day. It is not believed that the bill will pass at present, but some members intend to take the opportunity of debate on its first reading to question the ministers regarding the existing cabinet crisis. There is some talk of a dissolution of the Reichstag, and an attempt to carry the new election on Prince Bismarck's personal strength.

This morning's Post prints a second edition containing the following: "PERA, March 21.—The Russians have in the Bosphorus two regularly fitted torpedo ships carrying six torpedo boats."

THE FISHERIES AWARD.

What is Thought of It in England.

LONDON, March 21.—The Times' editorial on the fisheries award says: "It is unfortunate for the good fame of the United States that at a moment when the financial policy of Congress has awakened grave suspicions and anxieties in Europe, that some American politicians of considerable importance and notoriety, display another phase of the repudiating spirit in opposing the payment of the award. The reckless language of Mr Blaine and Gen Butler is not only throwing discredit on the country, but damaging to the system of settling international disputes by arbitration. No country henceforward will be willing to refer claims to arbitration if the decision of the arbitrators is liable to be challenged by the unsuccessful party."

The article continues: "The attempts at evasion and the attacks upon the impartiality of Mr Delcasse are of a piece with the spirit of chicanery which has been attempted to force an interpretation of the unanimous award. We hope and believe that Mr Blaine will not be able to get the Congress of his countrymen to support him in a refusal to pay the award, and to stamp the American spoliation with the double discredit of meanness and trickiness."

The Power of the Printing Press.

PLYMOUTH, N H, March 21.—Isaac Adams died at Sandwich, N H, yesterday, leaving a fortune of from four to six millions. He bought what is known as the Adams printing press from the inventor for an old gun, and afterwards received \$40,000 in gold for the use of it in England.

Labor Troubles in England.

LONDON, March 21.—It is stated that the strike of the locked-out Oldham weavers will probably terminate to-day. The Barnsley collieries struck work to-day against the reduction of their wages. The Oldham Mills were opened to-day. The strike there is ended.

"Functuality is the King of Business." In families where Dr. Bull's Cough Syrup is kept, there is never a case of absence from school or business on account of Coughs, Colds or Sore Throats.

How the Depositors of Savings Banks are Protected.

BOSTON, March 21.—Governor Rice to-day signed a bill entitled, "an act for the better protection of depositors in savings banks;" the law to continue three years. The Brighton Five Cent Bank was the first to avail itself of the benefit of this law. The bank commissioners have directed that during the period from March 21st to September 21st, 1878, not over ten per cent shall be paid to each depositor out of the total amount due him; ten per cent, additional be paid during the period between September 21st, 1878, and March 21st, 1879. No further additional amount shall be paid after the latter date, except by order of the commissioners.

United States Bonds in the London Market.

LONDON, March 21.—The Times' financial article says: "United States bonds continue to be bought for American account and their price is maintained, but the sales by English holders, corporate and individual, continue and are sometimes of very large amounts. The fear of the silver bill has died away, but the people now begin to dread what may follow it, and there is a strong and widespread feeling that if Americans are to try experiments on their credit they had much better do so with debts held at home than in English hands. People sell, therefore, and are likely to continue to do so while so much that is dangerous seems to surround the United States national finances."

SPARKS FROM THE WIRES.

One of the oldest banks of Prague, that of Grund, has suspended.

A London dispatch states that the Pope's intention to make Dr John H Newman a cardinal is denied.

It is stated that Bismarck, tired of the Nicaraguan shuffling, has determined to order the blockading of the Nicaraguan ports.

A Cincinnati dispatch says that Miss Von Hillern has made her 100 miles in 28 hours.

Rev Mr Gilbert, formerly of Baltimore, now of Cincinnati, who was accused of immoral practices, was, after a full investigation by his church, fully exonerated.

Fire on Staten Island.

STAPLETON, S I, March 21.—Rutson & Apsomson's brewery has been burned. Joseph Rutson's private dwelling was also burned. The loss on the brewery buildings and stock is \$200,000; insurance, \$150,000. The loss on the dwelling and furniture is \$15,000; insurance, \$11,500.

The Railroads are now at peace, and the hotels have had their "war." The result of this recent cutting of first-class hotel rates in New York leaves the Grand Central in the lead, with rates one and two dollars per day lower than the rest.

NEW ADVERTISEMENTS.

P. LASNE

From Paris, France. WATCH MAKER, JEWELER, GILDER AND SILVER PLATER. Trade street, opposite First Presbyterian Church, Mt. Gray Street. I have opened this store for the repair of WATCHES, CLOCKS & JEWELRY in every style. I will do Colonial, Guiding, Plating, Gilding, Galvanizing Chains, Watches, Old Jewels, etc., and make them equally as good as new at short notice, and at half price.

As I have been working since in French, Spanish, English and American Manufactories, I have all the tools from Manufactories, and I can do and make every piece at once and warrant them.

SPECIAL NOTICE.

In consequence of the impaired health of my brother, Mr. W. W. LATTA, our resident managing partner, demanding recreation from close confinement and active business, we had concluded to withdraw our concerns both here and in Chester. Upon my arrival, under the approach of warm weather, with still a heavy stock of Winter Goods on hand, I find it inexpedient and impracticable to retire from business effectually, and so deem it to our interest only to close out in Chester, thereby permitting the return of our Mr. MUNN, who will represent us here in Charlotte, at such time as I cannot be here in person. The concern will continue as usual with the largest and best Assorted Stock in the South, and with our advantages in my association with an extensive Manufacturing House in New York, we can furnish goods here at so low a valuation as will defy any and every effort to competition in this market. Our past experience convinces us that low prices are promptly appreciated, and it will be our effort to produce an Attractive Stock at prices that must encourage an active demand.

The cordial response to our recent "announcement," together with the many expressions of regret for our contemplated severance from the community, assures us of a genuine recognition of our "fair dealing," and will instill a redoubled desire and determination to continue the leaders of "low prices."

And now in soliciting the patronage of the populace at large, with an expression of gratitude to our friends and constituents, we proffer them shelter under the triumphant banner of "One Price Clothiers," the model system, the "protective union for one and all. Very respectfully,

E. D. LATTA.

N. B.—To vacate and make room for the arrival of our Spring Stock, we will, for fifteen days, sell our Fall Goods at closing prices."

Leaders of Fashion and Low Prices!

NATIONAL CLOTHING HALL!

We will announce to the public of Charlotte and vicinity that we are receiving daily our Spring Stock, consisting of MEN'S, YOUTHS', BOYS' and CHILDREN'S CLOTHING.

Our Men's and Youths' Clothing are all manufactured at our own House in Baltimore, where we employ the finest and best of skill and workmanship—none but artist tailors to make them. We can, therefore, sell our customers a Merchant Tailor's made suit for less than you can buy New York shop-made goods for. Our Stock is Fresh and New, and bought under the present low rates of goods.

Our Stock of GENTS' FURNISHING GOODS is of the Finest, such as Scarfs, Ties and Neckwear in general, Kid Gloves of all shades and all colors; Underwear for Spring and Summer; Umbrellas, the very best of silk and alpaca.

Our Stock will be ready for inspection by Saturday, the 23d instant. We invite the public to come and see for themselves, as we can do all we promise.

Respectfully,

L. BERWANGER & BRO.,

FINE CLOTHIERS AND TAILORS.

N. B.—Garments made to order and satisfaction guaranteed or no sale. Goods sent by mail to any part of the South on application. If they do not suit to be returned.
