sumption act, reported by the commit-tee on Finance on Wednesday last, so as to strike out that portion naming October 1st, 1878, as the time when United States notes shall be receivable for imports, so as to read that "from and after the passage of this act United States notes shall be receivable in paystates notes shall be receivable in payment for the 4 per cent bonds now authorized by law to be issued, and for duties on imports." He also moved t uangul the substitute so as to strike oot "October 1st, 1878," as the time when the volume of said notes in existence shall not be cancelled nor hoarded, and insert in lieu thereof "the passage of this act." A further amendtence shall not be cancelled nor hoarded, and insert in lieu thereof "the passage of this act." A further amendment repeals immediately all that part of the specie resumption act authorizing the retirement of 20 meters. This institution was regularly incorporated by the Legislature of the State for Educational and Charitable purposes in 1868, with a capital of \$1,060,000 to which it has jealous exclusion of Europe from all the retirement of 20 meters. Gordon, of Georgia, moved to make the bill the special order for Wednesday, May 1st.

Ferry, of Michigan, who reported the bill, said he hoped an earlier date would be fixed for its consideration. The Finance committee would meet to-morrow and would probably agree upon an early day to take the bill up in the Senate. After some further discussion Gordon

withdrew his motion. Blaine, of Maine, submitted the fol-

owing resolutions: Resolved, That any radical change in our present tariff laws, would, in the judgment of the Senate, be inopportune, would needlessly derange the business interests of the country, and would seriously retard that return to prosperity for which all should earnest-

> The Times' Calcutta dispatch reports that all the energies of the government are concentrated in war preparations. In spite of the negotiations concern-

ing the simultaneous withdrawal of the English fleet and Russian forces from the neighborhood of Constantino-ple, the prevailing feeling in the Eng-lish press is one of great uneasiness. It is noticeable that all the Berlin specials to the English papers are couched in a very despondent tone. They dwell upon the difficulties which will be encountered in settling the de-

tails of any scheme for the withdrawal of. The Times' and Telegraph's Vienna correspondents write in the same tone.

The Times' correspondent says:

'The aspect of affairs is neither better nor worse. The course of the negotia-tions makes it more and more apparent that Russia meant to make any con-cession relative to the congress dependent on some arrangement as to the relative position of her own and the English forces. The fact that the Russians did not reject the idea of withdrawing to Adrianople, and that the negotiations have been pending on that basis, shows that they would set great value on the withdrawal of the British fleet beyond the Dardanelles. Still, as Besika Bay is only about 12 hours' sail from Stamboul, while Adrianople is at least a three day's forced march distant, the Russians thought

they would be placid.

The Cronstadt Messenger announces that the equipment of the Russian Baltic fleet is proceeding with all haste. It will go to sea as soon as the ice breaks. It consists of seven vessels of the Russian iron-clad navy. The Peter the Great is a mastless double-turret ship of 9,510 tons burthen; she carries four 35-ton guns, and her armor outside at the water line is fourteen inches She was launched in '74 and resembles in design and construction the three great mastless turret ships of the Brit-

ish navy, more especially the Dread-nought, though of larger size. Various telegrams continue to show a decrease of the tension between Russia and Roumania.

The Rustchuck correspondent of the Times telegraphs that Grand Duke Nicholas has summoned the Turks to

evacuate Shumla within eight days. Trouble in Other Fall River Factories.

FALL RIVER, MASS., April 22 .- Since

the defalcation of Chase, the treasurer of the Union Mills, considerable uneasiness has been felt about the solvency of the Border City and Sagamore Mills, of which Geo Hathaway is treasurer. This unessiness culminated in a protest of the corporation's paper at Providence last week, which at that time was attributed to an oversight of the treasurer, but since that time these notes have been permitted to remain unpaid. In consequence of this fact, the directors made an imperative demand upon Hathaway for an immediate statement of the affairs. The latter has been busily at work upon the statement, which was to-day submitted to the directors. No official intimation of its contents has yet been made pub-lic; it is said, however, that the affairs are terribly mixed and that Treas-urer Hathaway is a heavy defaulter to both mills.
