Rockingham county Democratic convention met last Saturday, endorsed J H Dillard for the Supreme Court beach, A M Scales for Congress, nominated Col Jas P Dillard for the Senate, Lindsay Rolly for the House, John L Johnston for sheriff, and David Settle for clerk of the Superior Court. The Raleigh News' correspondent says everybody in the county seems for Vance for Senator.

Raleigh News: Of fifty-nine delegates on the excursion train from Shelby, forty-six were in favor of Vance and nine for Merrimon for United States Senator. Four didn't vote at all.

At Durham on the 11th Captain Fred N Strudwick, of Orange, was nominated for solicitor of the fifth judicial district, composed of the counties of Alamance, Bandolph, Guilford, Chatham, Franklin, Orange, Granville, Person, Caswell and Rockingham.

Salisbury Watchman: It is conceded on all hands that Theo F Kluttz came out of the sheriff squabble in this county with increased strength. He will walk the track one of these days and travel faster than he who runs.

The Salisbury Watchman denounces the spirit of independence in politics, and growls because its choice has been defeated for Congress in the seventh district, speaking lightly of "the men who run conventions," and declaring the defeated candidate to be "the choice of the people.

The Montgomery Democrats have endorsed Smith for chief justice, Ashe and McCoy for associates, and Steele for Congress. The convention decided not to have any nominations for county officers. These facts from the Pee Dee Herald.

Washington correspondence of Richmond Dispatch, 12: Among the most earnest of those at work to reduce the tax [en tebacco] is Mr Robbins, of North Carolina, who is always at his post, ready to do his whole duty. No constituency, in fact, has a better representative.

Ahead where they losn you a dollar and chalk it down till to-morrow, for a bottle of Merreil's Hepatine for the Liver. The enormous expense of importing the ingredients of this great liver medicine into the country, is why our Druggists, Dr J H McAden, Wilson & Burwell and T C Smith & Co., sell but one sample bottle to the same person for ten cents; but as there are fifty doses in the large size bottles, it is cheap enough after cents; but as there are lifty doses in the large size bottles, it is cheap enough after all at two cents per dose, for a medicine that has never been known to fail in the cure of dyspepsia and all diseases of the liver. It has never failed in the cure of liver complaint when taken as directed, no matter perfectly free from the charge of nasality or stridor in the climacteric finale."

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or erownsing generate organism of woman, singled it out as the climax or erownsing generate of my medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act tindy and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, as confident an I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the aiments for which I recommend it, that I offer and sell it under a POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the bentients of the bottle are used, I will, an return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions but having witnessed its truly minerallous cures in thousands of cases, I feel warranted and perfectly safe in risking both my reputation and my money on its merits.

merits.

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic and with a cartainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Falintal Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Informal Heat, Nervous Depression, Debility, Despondency, Threatened, Misparriaga, Chronic Congastion, Inflammation and Uterration of the Uterus, Impotency, Barrenness, or Steeliky, Female Weakness, and very many other physnic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—the marvel of the world. This medicine I do not extol as a cure all, but it admirably fulfills a single-ness of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman. It will not diseappoint, nor will it do harm, in any state or condition. Those who desire further information on these subjects can obtain it in THE PROPLE'S COMMON SENSE MEDICAL ADVISER, a book

Granules. THE "LITTLE GIANT"
CATHARTIC, or Multum in Parve

The novelty of modern Medical, Chemical, and Pharmaceutical Science. No use of any longer taking the large, repulsive, and nauseous pills, composed of cheap, crude, and bulky ingredients, when we can, by a careful application of chemical science, extract all the dathartic an other medicinal properties from the most valuable roots and herbs, and concentrate them into a minute Granule, scarcely larger than a mustard seed, that can be readily swallowed by those of the most sensitive stomachs and fastidious tastes. Each little Purgative Pellorepresents, in a most concentrated form, as much cathartic power as is embodied in any of the large pills found for sale in drug-sliops. From their wonderful cathartic power, in comparison to their size, people who have not tried them are apt to suppose that they are harsh or drastic interest: but such is not at all the case, the different active medicinal principles of which they are composed being so harmonized and modified, one by the others, as to produce a most searching and thorough, yet gently and kindly operating, cathartic.
