OBSERVATIONS.

During all the musical excitement at Cincinnati last week nobody thought to give the first tune on the local instrument, the organ. -Rochester Express.

The plan to start for Paris a congressional party in the United States government ship is earnestly advocated by all who realize the true rottenness of our navy. -Hartford Courant.

A number of States have passed bankrupt laws to take effect when the national bankrupt act by repeal shall cease to operate. This, of course, will cause trouble, and make people more about from State to State. If a man cannot be a national bankrupt he might as well continue in business.

Solomon's Temple is generally supposed to have been of vast dimensions. The account given in the Bible, however, shows that it did not exceed many private houses of the present time. Length sixty cubits, breadth twenty cubits, height thirty cubits. The porch was twenty cubits long and ten cubits broad. The cubit of the Jews was about twenty-two inches in length.

Did you ever notice what a different aspect everything wears in the sunshine from what it does in the shadow? -Exchange. Indeed we have. Particularly in the case of a pair of black pants, somewhat aged, which will look as clean as a whistle indoors, but out in the sunshine spots will show up as frightfully conspicuous as a piece of custard in a moustache. -Danbury News.

There is a certain resemblance in Anderson's style. As when he talks alludes to the position of representative of the United States at Funchal: "A few months ago Erastus gave me a little fifteen hundred dollar consuls away off howlands, where it would take half of my salary to get there."

THE NORMAL SCHOOL. The Programme of Exercises - Professor Ladd and Miss Coe.

[Correspondence of the Observer.] CHARLOTTE, N. C., June 21.

Perhaps a short synopsis of the daily programme of the Normal School might not be uninteresting to your readers. The studies pursued are embraced in two grand divisions: the public school course and the special course. The first is divided into two classes. At 8:30 a. m. all assemble in the chapel, when half an hour is given to devotional exercises, special announcements, etc. The hours intervening between 9 and 12 are devoted to recitations; 40 minutes being given to each recitation in the public school course, and various periods to those in the special course. If you were standing near the chapel door when the college bell rang out the hour of 12, the sprightly step and radiant face of each Normalite might excite your wonder.

However, had you been present on yesterday at this time, the solution would readily appear. The hour from 12 to 1 belongs exclusively to Professor Ladd, the superintendent, who then gives us a daily lecture on school organization, etc. The professor gave us a rare treat on yesterday. He commended by saying that his efforts, instead of being termed lectures, should be called familiar talks, or reminiscences during a school life of thirty-six years.

I wish I could reproduce the remainder of his "reminiscences" entire. He gave a graphic description of the circumstances which induced him to assume the role of a pedagogue, the vivid recital of the varying events of the first day, and the results of the first term. His recital of the efforts of the boys to "put him out," brought a ringing laugh from the entire audience. But when he told us how, in the domain of mind, he achieved a signal victory over the evil propensities of his pupils, we saw at least a slight foreshadowing of the eminent educator of to-day. No doubt every teacher drew fresh inspiration from this lecture.

Professor Ladd is 52 years old, about six feet in height, of medium build, and of commanding and impressive mien. His magnetism is truly wonderful. A success is well assured under his management. Unconsciously I have made a prolonged digression. I informed you of the arrival of Miss E. M. Coe, the kindergarten teacher and lecturer. This lady begins her work daily at 3 p. m. All Chapel Hill was on the qui vive last evening to know something of this system, especially as the lady then made her first appearance.

I must content myself with a short notice. This was her explanation of the word: it is a compound German word: "Kinder" meaning children, and "garten" a garden; hence, a garden of children. In my next I will give her beautiful illustration, and something further concerning her.

THE SWEET SINGER. City of Charlotte vs Mosquitoes - A Complaint.

Editor Charlotte Observer: - I was glad when I saw in a late number of the Observer your suggestions about mosquitoes. They are a most intolerable pest, and especially to poor people, who cannot afford to protect themselves and their families with nets. In the day days one will meet on the streets of Charlotte, every few steps some poor little child, often an infant, with an inflamed and swollen face and hands, that tell of days and nights of torment and unrest. These helpless little ones are the main sufferers. We can do much to protect them and ourselves, and the very plainest doses of humanity require that we who sleep under nets should not maintain on our premises hatches of myriads of mosquitoes to prey upon the unprotected people who live around us. Carelessness in this respect is almost equivalent to wilful malignity. How can we prevent it? By simply bearing in mind that without constant water there can be no mosquitoes. But many people who know this fact are not aware that it requires a mar-

CHARLEY ROSS' FATHER PROVIDED FOR.

Gov Hartranft of Pennsylvania, has appointed Christian K Ross, father of the long-lost Charlie, a harbor master at Philadelphia. This was done out of sympathy with Mr Ross, as he has been very unfortunate in business since the boy has disappeared. The report of his commission was the first intimation that Mr Ross had received that Gov Hartranft had ever considered his name in connection with the position. He accepts it as an expression of the sympathy felt for him in the terrible ordeal he has borne so long and the sacrifice of his entire property in his efforts to recover his stolen boy.

Every one speaks well of it, and those who have been there once, patronize the place ever afterwards. It is necessary to add that we refer to the Colonnade Hotel on Chestnut Street, Philadelphia, Pa.

BEFORE AND AFTER ANTI-FAT THE GREAT REMEDY FOR CORPULENCE.

ALLAN'S ANTI-FAT is purely vegetable and perfectly harmless. It acts upon the food in the stomach, preventing its being converted into fat. Taken in accordance with directions, it will reduce a fat person from two to five pounds per week.

CorpuLENCE is not only a disease itself, but the harbinger of other diseases. It is a disease of two thousand years ago, and what was true then is none the less so today.

Sold by druggists, or sent, by express, upon receipt of the price, to any address.

BOTANIC MEDICINE CO., Proprietors, Buffalo, N. Y.

INVALIDS' HOTEL. The only large and comfortable hotel in the United States and Canada, that has been built by a physician, and the widely celebrated Faculty of Specialists in Medicine and Surgery associated with him, rendered it necessary that the furniture of this institution should provide a place on a grand and commodious scale for the entertainment and comfort.

ADVANTAGES OFFERED - The Invalids' Hotel is a most complete and modern institution in the world. The building is located in one of the most beautiful and desirable portions of the City of Buffalo, and commands a view of Lake Erie, Niagara River, and the surrounding country, being situated in the midst of an extensive system of beautiful parks and gardens, and is supplied with all the modern conveniences and appliances.

CHRONIC DISEASES OF ALL FORMS, whether requiring medical, surgical, or mechanical treatment, come within the province of our several specialists.

NEURALGIC AFFECTIONS - Especially are the facilities of this infirmary of a superior order as regards the treatment of neuralgic affections, and all the latest and most successful methods of treatment are employed.

NEURALGIC AFFECTIONS - Paralysis, Epilepsy (Fits), Chronic Venereal Disease, and other nervous affections, receive the attention of an expert in this specialty, by the most successful and latest methods of treatment.

LEPROUS AFFECTIONS - This division of the practice in the Invalids' Hotel is very ably managed by a physician of mature judgment and skill. Bronchitis, Cholera, and Lung Disease, and all the latest and most successful methods of treatment are employed.

PHILADELPHIA always had a good name as a place to purchase
