OBSERVATIONS.

It has been warm enough in the west recently to make cucumbers perspire.

Mysterious and sudden disappearances of young Americans from Paris still continue. General conclusion and verdict: "Busted and gone home in the steamer."

The P. cayenne man, who perhaps knows how 'tis himself, says that drinking liquor to drown sorrow is all nonsense. Water, which is much less expensive, is good enough for all drowning purposes.

Little Johnny ran into the house the other day while the mercury was hugging '95," with the perspiration streaming from every pore, and shouted, "Mamma! mamma! fix me; I'm laking all over!"—Cincinnati Breakfast Table.

A Philadelphia man has discovered the way to get rid of flies. He says if you will circulate a paper asking them to contribute to the Republican campaign fund the flies will immediately leave in disgust.

James Lally, of New York, was young, a bachelor, rich, had plenty of friends, no enemies to speak of, didn't drink enough to make him see things—he drowned himself in the Hudson, proving what a hard man to satisfy he was.

Young mother, deeply interested in a novel, but preserving some idea of her duties as a mother, to her eldest born: Henrietta, where is your little sister? Henrietta: In the next room, ma. Young mother, turning over page: Go and see what she's doing and tell her to stop it this minute.

The Rev Mr Twichell, of Hartford, is lucky enough to have Mark Twain among his parishioners, and to have been invited by that genial gentleman to join him in a summer tramp in Switzerland at Mr Clemens' expense. Mr Twichell did not wait to be asked twice.

A neighbor wants to know, "What could be smaller than the lining of a thistle seed?" Well, we suppose if you really wanted to draw things to a finer focus you might call a convention of the men who have drawn prizes in Kentucky and Louisiana lotteries.—Lynchburg News.

The Republican Managers Brag High.

[Richmond Whig.]

When the Republican managers at Washington send out their leading journals special to the effect, that from information received from reliable sources their prospect of gaining the next House is most encouraging, it is done for several purposes. The first object they have in view is to make the clerks in the departments and other officials ante up liberally, and their ultimate purpose is to inspire confidence in the ranks of the dispirited Republicans of the country. They now say in these specials that one independent will be elected in each of the States of Virginia, North Carolina, Texas and Mississippi, and that the Republicans will carry one district in Virginia, two in North Carolina and two in Tennessee, and possibly one in Maryland. They brag high over Louisiana, where they expect to gain three or four. But they admit they will lose heavily in Ohio, and are silent about their anticipated gains in New York, now that Lord Roscoe is in arms, breathing deadly hate against the administration. They say nothing, however, about Missouri, where the Democrats have a right to expect a solid delegation. When asked about Indiana their consoling reply is that the "Nationals" will hurt the Democrats about as much as they will the Republicans.

Agricultural Campaign in the West.

Commissioner Polk is to make an agricultural campaign in the western part of the State, commencing on August 10th and embracing the counties of Cherokee, Clay, Macon, Swain, Jackson, Haywood, Buncombe and Henderson. The Raleigh News says "Commissioner Polk will talk to the people about internal improvements, of the necessities for lines of quick communication and rapid transportation. He will speak to them of the causes which compel their magnificent fruits to go to decay in their orchards while the markets of the world are hungering and thirsting for their products. He will show how and why it is that apples from Western Carolina cannot be eaten in Raleigh, while our market is flooded with the produce of New England orchards. He will show that the system of North Carolina Railroad management places the Blue Ridge further from the capital of the State than the Rocky Mountains, that Asheville is further away from Raleigh than San Francisco, and the Cherokee country than the Pacific slope. He will show that our State legislation is responsible for these things; that a road discrimination against the local interests of the people of North Carolina, which amounts to prohibition on business, exists, through the fault of the Legislature, and he will be glad to talk to members elect about these things."

Japanese Ladies Bathing in Public.

[From the Philadelphia Press.]

As we were about to leave, a lady of elegant attire and attended by a female servant bearing her toilet apparatus, and another, with other luxuries of the bath, entered. Our new arrival, after giving some directions, with the assistance of her maid began to arrange herself for the bath. With her maid she neatly folded, and laid away on a cloth in a clean place, each particle of her apparel as it was removed. First the silken robe, then the flowing gown-like robe of purple, then the nether garments of white, until we reached nature's own. As gently as a zephyr playing upon the foliage of the trees she stepped along toward the water. Her beautifully-rounded form and poetry of motion would have been worthy of the sculptor's chisel. A beautifully-rounded ankle and a pretty foot, vaguely visible beneath the laminated folds of a dozen skirts would set the whole community agog at home while a whole form, nude as nature and more beautiful than an angel, would not so much attract a passing glance in Japan.

STATE POLITICAL ITEMS.

There are eight candidates for the House in Stanley.

The Democrats of Gates have John J Gatliff up for the House.

Transylvania county has a Merrimon and a Vance candidate in the field.

The Greenback Labor party has been organized in Pasquotank, and a full ticket placed in the field.

An attempt to organize a National Workingmen's party in Newbern, last Wednesday night, was a failure. Too strongly tainted with Radicalism.

The Hendersonville Courier, independent, says that if General Clingman writes a few more letters, Vance will become President of the United States.

Two other citizens of Buncombe have come out as independent candidates—Captain Marcellus Fagg for the Senate, and Mr Thomas J Candler for the House—leaving three citizens of the county yet to be heard from.

Dr Montgomery, of Alamance, is an independent candidate for the Senate in Guilford and Alamance. He and Frank Caldwell are running together against Messrs Thos M Holt and J I Scales.

The Concord Sun suggests that the members of the "National Party" in Cabarrus hold their conventions in a low tree near Mill Hill. It will hold only two men, but is large enough to accommodate the "Nationals."

The Raleigh Observer says Hugh B Guthrie, white, one of the most obnoxious men in Orange county during the war and since, and Louis Jenkins, negro, have declared themselves Radical candidates for the House of Representatives in that county.

Col John D Taylor, the present clerk of New Hanover Superior Court, has announced himself a candidate for reelection. The Wilmington Review says he makes the third Republican Richmond in the field for this office to the Democrats' none.

Wilmington Review: We are happy to announce that our friends in Sampson are doing well. The Review says that at one time threatened to split the Democratic vote of that noble old county, and that now all opposition to the regular nominee for the Senate, Captain N H Fennell, has been withdrawn.

The candidates in Cabarrus are speaking at a vigorous rate. Dr Richard Anderson, of Stanley, and Mr J M Redwine are the candidates for the Senate, the latter being independent. Mr Odell, the Democratic nominee for the House, has an opponent in the person of Captain W H Orchard, who is the nominee of the National party.

The following notice appears in the Concord Sun: Judge Fowle, Hon W M Robbins, Col Bennett and other prominent gentlemen, will address our people in Concord on Tuesday, the 30th inst, upon the current politics of the day. Preparations will be made for a large crowd, and everybody, irrespective of party, is cordially invited to attend. A grand treat is in store. Come everyone and hear.

Delicious Cookery.

Light, white, wholesome biscuits, rolls, bread, and elegant cake, crullers, waffles, doughnuts, muffins, and griddle cakes of every kind, are always possible to every table by using Dooley's Yeast Powder.

Good Digestion.

"Give us this day our daily bread" and good medicine to digest it, is both a prudent and a human. The human stomach and liver are fruitful sources of life's comforts; or disordered and diseased, they tingle misery along every nerve and through every artery. Men or women with good digestion see beauty as they walk, and overcome obstacles they meet in the routine of life, where the dyspeptic sees only gloom and stumbles and grows at even imaginary objects. The world needs two or three new kinds of medicine before death can be perfectly abolished; but that many lives have been prolonged, and many sufferers from Liver disease, Dyspepsia and Headache, have been cured by Merrell's Hepatine, is no longer a doubt. It cures Headache in twenty minutes, and there is no question but what it is the most wonderful discovery yet made in medical science. Those afflicted with biliousness and Liver Complaint should use Merrell's Hepatine. It can be had at Dr J H McAden's, Wilson & Burwell's, and Dr T C Smith's.
