Persons continue to take coins with holes in them to the post-office, and these coins are, of course, continually refused. They are taken by no department of the government. Those who have them should bear their loss meekly, and remember that the hole was punched to please some sweet child, whose parents were perhaps unfamiliar with the fact that it is wrong to debase the money of their country.

Mr Francis Parkman says, in the North American Review, that we have fought the battle with crowns and sceptres, and won it; and that the danger now is "not from organized ignorance, led by unscrupulous craft, marching, amid the applause of fools, under the flag of equal rights." That is at least epigrammatic.

Transportation of Silver in the Mails,

Special Dispatch to the Baltimore Sun.] WASHINGTON, July 23 .- The Postmaster General has not yet replied to the communication of the Secretary of the Treasury with reference to the practicability of transporting the gov-ernment silver through the mails as third class matter. It is understood, however, that arrangements will be made to that effect. The great point has been to devise some method by which the silver can be transported without fear of thieves making way

silver through the mail will not, however, be perfected for some time, but the government will probably undertake to transport its own gold in a very short time. The express companies appear to be alarmed as they have the most wonderful disease. short time. The express companies appear to be alarmed, as they have made offers of lower rates. If the government should transport all its own currency it would save a very large utes, and there is no question but what it is the most wonderful discovery yet made in medical science. THE RESULTS OF THE INVESTIGATION. What Has Been Proved So Far By the Potter

[Washington Post.]

The Potter committee have proved, beyond successful rebuttal, things believed to be true, but not absolutely proven to be true before, to-wit: That the electoral votes of Florida and Louisiana, which were given to Hayes, belonged to Tilden. Leaving out of consideration the State of Florida, which no honest man will deny to have

been stolen, we will take up Louisiana. As to this State the Potter committee

That affidavits bearing fictitious

names, and the names of dead men, were manufactured in the custom house, and upon such affidavits various Democratic polls were thrown 10. That the acts above recited were

known to some of the visiting states-men and received their approval. 11. That the electoral vote of the State as counted before the two houses of Congress was a forgery. 12. That John Sherman, now Secre-

tary of the Treasury, and at the time the personal representative of Mr Hayes, was guilty of subornation of perjury.

13. That the leading parties necessary to a completion of the fraud were promised by him protection and re-

14. That the fraudulent President, in fulfillment of Sherman's and Noyes' promises, has rewarded with office every scoundrel connected with the great crime in both Florida and Louis-

15. That Stanly Matthews, a Republican Senator from Ohio, and Justice Harlan, a judge of the Supreme Court, had guilty knowledge of the fraudulent transactions by which the vote of Louisiana was stolen, and personally interested themselves to reward and protect the criminals.

16. That Senator Morton and General Garfield, both members of the electoral commission, knew when they voted to count the vote of Louisiana for Hayes that it was both fraudulent and a forgery.

17. That Senator Kellogg, who assisted at the forgery of the Louisiana returns, has since been guilty of secreting the witnesses.

18. That not one of the criminals who assisted to perpetrate the colossal above, but below, where the real tyrant is crime of the age has been punished, but that all but two-numbering over a hundred—have been provided with office by Mr Hayes' direct order or request, and in some cases by and through his continued and persistent

Good Digestion.

"Give us this day our daily bread" and good medicine to digest it, is both reverent and human. The human stomach and liver are fruitful sources of life's comforts; or disordered and diseased, they tingle misery along every nerve and through every artery. The man or woman with good digestion see beauty as they walk, and overcome obsta-cles they meet in the routine of life, where with it. This, it is thought, can be accomplished by carrying it in safes in the dyspeptic sees only gloom and stumbles and growls at even imaginary objects. The world still needs two or three new kinds of medicine before death can be perfectly silved that many lives have been & Burwell's and Dr TC Smith's.

been stolen, we will take up Louisiana. As to this State the Potter committee has clearly proved:

1. That a conspiracy was entered into by certain Republican leaders, the object being to hold no election in East Feliciana, Grant and other Democratic parishes.

2. That the fact that no Republican votes were cast in East Feliciana was not due to intimidation, as alleged, but was owing to Anderson's advice to the Republican leaders not to vote, as it would have a better effect than all the affidavits that could be produced.

3. That for a period of two days after the election the Republican leaders admitted that Tilden and Nicholls had carried the State by a heavy majority.

4. That when it became evident that the election of Hayes depended upon the result of the State, deliberate pre-

the election of Hayes depended upon the result of the State, deliberate preparations were made for the purpose of defeating the will of the people as expressed at the polls.

5. That in pursuance of this plan, protests, forged and altered to suit the occasion, were made for the parishes of East and West Feliciana, whereby a Democratic majority of over 2,800 was changed to a Republican majority of 500.

6. That the supervisors of the above named parishes were prevented by promises of reward made by John Sherman and others from exposing such forgeries.

7. That on the 27th day of Novemsuch forgeries.

7. That on the 27th day of November, when the returning board proceeded to sum up the result of their labors, it was discovered that while Packard and a Republican Legislature were elected, Hayes was defeated.

period of years, having within that time treated many thousand cases of those diseases peculiar to woman, I have been enabled to perfect a most potent and agreeable medicine that meets the indications presented by that class of dis-eases with positive certainty and exactness. To designate this natural specific compound, I have named it

Dr. Pierce's Favorite Prescription.

The term, however, is but a feeble expression of my high appreciation of its value, based upon my own personal observation. As a close observer, I have, while witnessing its positive results in the few special diseases incident to the separate organism of woman, singled it out as the climax or crowning gem of uny medical career. On its merits, as a positive, safe, and effectual remedy for this class of diseases, and one that will, at all times and under all circumstances, act kindly and in harmony with the laws which govern the female system, I am willing to stake my reputation as a physician. Nay, even more, so confident am I that it will not disappoint the most sanguine expectations of a single invalid lady who uses it for any of the ailments for which I recommend it, that I offer and sell it under A POSITIVE GUARANTEE. If a beneficial effect is not experienced by the time two-thirds of the contents of the bottle are used, I will, on return of the bottle, two-thirds of the medicine having been taken according to directions, and the case being one for which I recommend it, promptly refund the money paid for it. Had I not the most perfect confidence in its virtues, I could not offer it as I do under these conditions; but having witnessed its truly miraculous cures in thousands of cases, I feel warranted and perfectly safe in risking both my reputation and my money on its which my Favorite Preservation has

The following are among those diseases in which my Favorite Prescription has worked cures, as if by magic, and with a certainty never before attained by any medicine: Leucorrhea, Excessive Flowing, Painful Monthly Periods, Suppressions when from unnatural causes, Irregularities, Weak Back, Prolapsus, or falling of the Uterus, Anteversion and Retroversion, Bearing Down Sensations, Internal Heat, Nervous Depression, Debility, Despondency, Threatened Miscarriage, Chronic Congestion, Inflammation and Ulceration of the Uterus, Impotency, Barrenness, or Starility, Female Weakness, and very many other chronic diseases incident to woman not mentioned here. In all affections of this nature, my Favorite Prescription works cures—the marvel of the world. This medicine I do not extol as a cure-all, but it admirably futilis a singlemess of purpose, being a most perfect specific in all chronic diseases of the sexual system of woman, It will not disappoint, nor will it do harm, in any state or condition.

Those who desire further information on these subjects can obtain it in THE PROPLE'S COMMON SENSE MEDICAL ADVISER, a book of over 900 pages, sent, post-paid, on receipt of \$1.50. It treats minutely of those diseases peculiar to Females, and gives much valuable advice in regard to the management of those
