THE SOUTH CAROLINA CASES.

W. E. Earle, of Greenville, the special counsel of the imprisoned revenue officers in South Carolina has written to the commissioner of internal revenue that he may be expected in Washington in the course of a very few days.

The Washington correspondent of the Baltimore Sun says he (Earle) "has had a letter from Judge Kershaw, who expresses a desire to have the case taken up to the Supreme Court of the State, and hopes to see this done. He also expresses an entire willingness, if that course is pursued, to have the parties admitted to bail. It is understood that the President and the Attorney General both favor this course, for which Judge Kershaw also expresses a preference."

Then right here is an end of all the trouble of which we have so abundantly predicted would grow another war. Of course the court room is the only place where such a case as that of these revenue officers could properly be carried for settlement, and it was foolish to have ever supposed that any grave trouble would arise out of it. Judge Kershaw is willing to have the constitutionality of his opinion put to the proper test, the government is willing for this course and from what source, therefore, is the trouble to arise?

WHAT IS BEING DONE.—Still more interesting and important details of the manner in which the Pompano was counted for Hayes, are being dragged out of the unwilling witnesses before the Potter committee at Atlantic City, and the sub-committee in session at New Orleans. Day before yesterday before the Potter committee ex-Representative Morey testified directly and unequivocally that on the face of the returns the Tilden and Nicholls electors were elected in Louisiana and that enough Democratic votes were thrown out to give the State to Hayes. Thursday, in New Orleans, Major Burke, one of Hayes' "best men" and his chief spokesman, unfolded before the committee the whole infamous secret of the manner in which the State was stolen, corroborating his statement by letters, telegrams and memoranda. In the light of all these developments there is a sublimity in the cheek which enabled Hayes to hold onto his fraudulent success.

The South Atlantic. August is on our table. It improves with each number. Mrs Harris is doing herself and the State great credit. Constant additions are being made to the list of contributors, which embraces some of the most famous of the literati of the South. The price of this magazine is but 40 cents per year. Published at Wilmington by Mrs C. W. Harris.

Col Mosby has said, in an interview with the Washington Post, that he believes that Grant will be nominated by acclamation as the next Republican candidate for President and that he will be overwhelmingly elected. "This is another case in which the wish is father to the thought, and the opinion, therefore, doesn't amount to anything worth mentioning."

True-blue Democrats do not allow themselves to be beguiled away from their party line. They are not by mere side issues which are sprung as hobby-horses for the use of fortune-hope candidates. Is he the nominee is the only question which a good party man need ask himself. If he is, vote for him.

THIS WEEK.

Before another Sabbath sun rises, the battle will have been fought. Next Thursday occurs a election which is fraught with vast consequences to the State. The integrity of our party is threatened from within, and with it is threatened the well being of the State. It has been shown that the Democratic party is the only organization, as political parties now stand, which can be trusted with the reins of government. It has brought honesty out of corruption, order out of chaos and good government out of oppression. How important, then, it is that the supremacy of this party be maintained, and that any attempts looking to its overthrow be promptly met and suppressed.

"In this election we are confronted by a state of affairs different from any that has met us before or since the war. The Republican party, crippled and weakened by the overthrow of '76, though not yet entirely lifeless, has determined to conduct this campaign upon grounds different from any ever before taken by a political party in this State, viz: by encouraging and supporting the disaffected elements of the party in power, instead of opposing it directly with men of their own political party. This is their general policy in the heavy Democratic counties, and the wide-spread independence which may be charged as much to Radical influence as to the personal ambition of the individual independents.

In some counties, however, the case is different. You hear of no independent Democrats being promised Radical votes in the largely Radical counties. Here they take no risks at all, but stand by the Radical nominees to a man; and in still other cases Radical candidates pop up in Democratic counties, and trust to capture by the solid Republican vote and by availing themselves of such local issues as they can use in seducing Democrats from their party faith. This is the case in Mecklenburg. Finding no Democrat willing to sacrifice his party or to bring upon himself the odium of independence, a couple of Radicals have set themselves up as "The People's Ticket," and fondly hope for election by the Radical vote, with the aid of such Democrats as are opposed to the fence law. This is the "base" upon which they hope for success. Let our people look the matter fairly in the face. These Radical candidates will get the solid negro vote; there are a number of white men and Democrats who are opposed to the stock law. Will they vote for Kerr and Taylor? Will they decline to vote for Alexander, Brown and Andrey? We fear there are some of them who will, upon this issue, go over to the enemy. With these we ask a single word: Do you suppose that Kerr and Taylor, if in the Legislature, could secure a repeal of the stock law? In a Legislature largely Democratic, such as the next is bound to be, they would not have the weight of the whispering wind. With neither ability nor any other quality which could give them influence, a word from any Democratic member would upset all their schemes. It could not be conceded that they did not represent Mecklenburg sentiment on this question, neither would they, and a Democratic Legislature would not uphold the Heliberto act of the people of this county upon the mere say-so of Messrs Kerr and Taylor. We repeat that they would be utterly powerless, if in the Legislature, to annul the stock law, and any Democrat who votes for them in the belief that their election will secure this end, will find himself sold out for not even the poor equivalent of a mess of pottage. Under these circumstances, then, can any Democrat vote to cast two of Mecklenburg's votes in the Legislature against Governor Vance for the Senate? Anti-fence Democrats should reflect upon the consequences of the step which they may be contemplating. However they may stand upon the fence question, they are all for Vance for the Senate. If they cast a vote against Alexander, Andrey and Brown, in the vain hope of thus securing a repeal of the stock law, they cast a vote for Merrimon and against Vance. Are they willing to do this? No! Then vote the straight ticket.

We do not wish to be understood as predicting the success of this so-called "People's Ticket." We are simply warning our friends against a step which, if taken, will bring nothing but regret, and present the case thus fairly for the purpose of arousing the Democratic people of Mecklenburg to a sense of their duty. The odds are heavily in our favor, but to gather the fruits of victory we must at least stretch out our hands. This if all that is required. Will we do it? Even Sampson became weak and as other men when he slept. Let us also to it that in an evil moment we are not short of our strength. We have but to go to the polls and vote, but this we must do. The friends of Kerr and Taylor will be there—we may depend upon that—and if we lie idly by, imagining that all will be well, whether we are ourselves or no, the victory will be the enemy's. This is a contest in which we can afford to take no risk. Go W. H. P. yourself, take your friends and neighbors with you, vote the straight Democratic ticket, and all will be well.

Smith, Biffard, Ashe, Graves, Avery, Gidger, Montgomery, Alexander, Brown, Andrey, Erwin, Bell, Maxwell, Biggers, and Alexander are the names of the "People's Ticket" in Mecklenburg. See to it that every one of these names and none other is on the ticket which you put in the ballot-box next Thursday.

ANOTHER RAP FOR GEN CLINGMAN.

The Asheville Citizen is very and justly severe upon its fellow-townsmen, Gen Thos L. Clingman. After stating that his late letters attacking Governor Vance and urging insubordination in the ranks of the Democratic party, have been struck off in circular form and are being distributed broadcast throughout that section by independent and Radical candidates, it says: "After thus teaching insubordination—a disregard of party organization—will Gen. Clingman be a candidate before the Democratic caucus or party for election to the United States Senate? This denouncing a caucus or convention because it may be believed a majority thereof may be for another, thus urging a violation of expressions of preference by representatives, this urging or tolerating a coalescence of a few unfaithful and undemocratic Democrats with the enemy to secure the defeat of the choice of the Democratic party and promotion of one's self, is disgraceful and disreputable, and the Democratic party, in the face of such a contingency, have a right to know where men stand who seek to honor and confidence at its hands, and punish all efforts at insubordination and disloyalty."

Do you know that your name is properly recorded on the registration books? You should know that until you register you cannot vote, and that there are left but three days during which you can do this. The registrar's books are not open for the addition of names on election day.

The negroes and Radicals are never idle on election day. If we stay away from the polls next Thursday they will elect Grandma Kerr and his unknown partner and they will cast two votes against Vance for United States Senator. We can beat them with the greatest ease; only we will have to vote.

THE INVESTIGATION.

The testimony of Morey and Trumbull—Adjourned to New York, then Sine Die.

ATLANTIC CITY, July 27.—Frank Morey resumed the stand and testified that he had one or two interviews with the President at great length, during which the witness agreed that the withdrawal of the troops from New Orleans and not maintaining the Packard government would be destructive of the Republican party in the South. The President took the position that the Republican party could no longer maintain that policy which had lost New York to the Republicans, and the party had become weaker by consequence thereof. The good of the Republican party demanded a change. The President treated the subject as of national concern.

Ex-Senator Trumbull was called. He went to New Orleans on the invitation of Hewitt; he related the mode of proceeding adopted by the board and said he did not see the compilation of the returns by which the board arrived at the result.

The committee closed its session here this afternoon, and will examine Governor Palmer in New York Monday, when they will adjourn subject to the call of the chairman.

SURET FRANKLIN OF THE NERVE.

The suret-franklin of the nerve is a medicine which relieves the symptoms of nervousness by invigorating them. Over-tension of the nerve always weakens them. What they need, then, is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain: Hostetter's Stomach Bitters restores tranquility of the nerve by endeavoring them with the requisite to bear, without being jarred or disturbed unhealthfully, the ordinary impressions produced through the media of sight, hearing and feeling. It does more than this—it enables them to sustain a degree of tension from mental application which they would be totally unable to endure without its assistance. Such at least is the irrefragable conclusion drawn from the testimony of business and professional men, literateurs, clergymen, and others who have tested the fortifying and reparative influence of this celebrated tonic and nerve.

Where to Spend the Summer.

What man with a family having once been crowded into some small "sky parlor" in the hottest of all known places—Baltimore, or had been crowded into a "sky parlor" by the Metropolitan along that rollo alternately in dust and surf at Long Branch, but that has vowed never again to repair to summer resorts? And yet with each returning season, he asks the query, where shall we go? Since last season a new, commodious and elegant Hotel has been completed and furnished by Dr R V Pierce, in Buffalo, N. Y., at a cost of nearly half a million dollars. No place on this continent possesses more advantages for the tourist, pleasure-seeker, of those in search of rest and relaxation from the cares of business, than this. Its accessibility, and its cool, bracing and salubrious climate; its thermometer ranging in summer from 65 to 75 degrees Fahrenheit. 33. The attractions of the Hotel and its environs. All these combine to render it the most desirable resort for those in search of relaxation and rest. Located on a bluff overlooking the city of Buffalo, Lake Erie, Buffalo Bay, and Niagara River as it rapidly flows its way between island and villa to the great Cataract just beyond, it affords one of the unexcelled American scenes.
