THE GREENBACK PARTY. Declaration of Principal Adopted at the Conference in Washington. WASHINGTON, Aug. 7.—The following is the declaration of principles adopted by the members of the greenback party...

WASHINGTON, Aug. 7.—The following is the declaration of principles adopted by the members of the greenback party who assembled in this city on Tuesday night. We believe the two great political parties as now constituted to be so completely under the control of office seekers, professional politicians, bankers, and money mongers...

While we favor the immediate and unconditional repeal of the so-called Resumption act, the lawful liberation of the coin hoarded in the Treasury, and the removal of all restrictions to the coinage of silver. While we favor the circulation of gold and silver as money, yet realizing that specie never has been and never can be sufficient to supply the commercial demands of the country...

We demand the immediate and unconditional repeal of the so-called Resumption act, the lawful liberation of the coin hoarded in the Treasury, and the removal of all restrictions to the coinage of silver. While we favor the circulation of gold and silver as money, yet realizing that specie never has been and never can be sufficient to supply the commercial demands of the country...

While we favor the circulation of gold and silver as money, yet realizing that specie never has been and never can be sufficient to supply the commercial demands of the country, we therefore favor the issue of Treasury notes to such extent as will fully satisfy the requirements of trade, and that such notes be made a full legal-tender. We believe that the national bank system is oppressive to the people, and therefore demand the retirement of bank currency and the substitution of greenbacks therefor...

We believe that the public lands are the common property of the whole people, and should not be sold to speculators nor granted to railroads or other corporations, but should be donated to actual settlers in limited quantities. We believe the interest of the industrial, wealth-producing classes is the paramount interest of the people of the United States. Those whose labor and enterprise produce wealth should be secure in its enjoyment. Our warmest sympathy is with the laboring classes who have been thrown out of employment by the ruinous financial policy and unjust legislation of the Republican party...

There is one disease the inhabitants of Washington are largely subject to, which is comparatively unknown in other cities, i. e. dismissal from office. It is epidemic, and returns like the cholera at fixed periods, yet is ever lurking around or suspended over the heads of the hard-worked, nervous employes like the sword of Damocles. Since the adjournment of Congress the short appropriations for certain bureaus have created quite a consternation. The heads of these bureaus are having hearts, often sorely tried to chose between their clerks—where as a rule all are worthy—so they sometimes go carefully through their list and "dock the pay" of some to keep all employed. Last week this process was being gone through with in some section of the Treasury Department. One poor man was a helpless family whose \$1,600 was to be cut down, was quite distressed, but to his delight he was paid as usual, and his surprise was very great when he was told that one of the ladies, whom he hardly knew, requested his reduction to be placed on her \$1,200 salary; she could better live on what was left than he could care for a delicate wife and little ones. She had requested her name not to be known and was greatly surprised when the grateful fellow-clerk came to thank her. I am sorry I do not know it; I would write it in italics.

Right here is a good time to say that the ladies in department life, taken as a class, are very superior women. Frequently of most portentous families, nearly all well educated, their pleasing and costumes are exceptional. Every thing and gesture. The many jeers arising from a narrow view of life and political jealousy fall unheeded at their feet. They are worked very hard, and though comparatively well paid, a large majority have dependents upon their earnings, which, sub-divided, leave only a pittance. Every year some of them step out of the dull, vexatious routine of department life, to the artist's studio, the green room, or become independent by authorship, and not a few have married into wealth and official position.

Kearney is an ungrateful wretch. Had it not been for the advertising given him by the newspapers, there would not have been fifty persons to hear him in Boston. Dennis is rather a small potato for the pot in which he is trying to boil, and he owes his notoriety almost entirely to the press.

Superintendent The Lunatic Asylum Issues Warrants Independent Candidates.

THIS is a free country and any one who desires to be a candidate has a right to run on an independent ticket. The regular nominee, however, will take the lead, just as Perry's cigars are leading the trade in Charlotte. Don't fail to try his 5 and 10 centers. The "Jewel" Chewing Tobacco is new in this market, but for the price is the best known (10c for 2 of a pug). Those wishing to buy at wholesale should call at Perry's. Cigars from \$5 per thousand and upwards.
