On the Fast Train Between New York and Phila-

[From the Philadelphia Times.] In this neighborhood Conductor Silance, with watch in hand, carefully timed the train for three miles. The first was passed in fifty-four seconds, the second in fifty-two and the third in

fifty. The puffs from the engine had become a continuous, shuddering roar; the driving-wheels were spinning arond four hundred a times a minute a half a dozen times a second-with a centrifugal force that, it would seem, ought to shatter their whizzing peripheries to atoms. The day was a flot one, and the air was at a dead calm, but it rushed through the narrow door in front of the engine like a tornado. Small bridges were thundered over so quickly that they gave a single rumble as they whisked out of sight behind, posite direction flashed like a meteor Deadwood last week in a pair of white pants and yet he would only see your lips He was promptly escorted to the cars, put on | move without hearing anything but board of them and an injunction placed on the dreadful roar of the engine, which him never to revisit the place. "We can drowns everything excepting the stand a biled shirt, you know," a miner ex- shriek of the whistle. All the time plained, "but when it comes to wearing the fireman steadily shovels in coal or climbs around the engine with oil can in hand, his clothing fluttering so fiercely in the wind that it seems in danger of being blown off. The engineer, with his hand upon the lever. watches with a cat-like vigilance the rails sweeping under his wheels. The whole train is constantly under his eye, and he never allows his attention to be

divided for an instant. Yellow Fever and its Symptoms.

In view of the great interest now taken in the ravages of this dreaded disease in the Southern cities, the fol-The Seventh District-Col Armfield and the Sallowing description of its symptoms is

"About the fourth or fifth day the eyes turn yellow. The skis, also, assumes a yellowness like that of a bruise, or a bright jaundice yellow. However, that I will leave Charlotte on the 23rd June ome time read in silence the attacks the patient does not turn yellow in upon him in a paper published in Sal-isbury called the Watchman, thinking more than one case in six. As to the that a few issues of that paper would exhaust the spleen of its editor, and that this Democratic paper might again pursue the noiseless tenor of its settled down to the belief that the poisest the spleen of its settled down to the belief that the poisest settled down to the belief that the poisest settled down to the belief that the poise settled down to the belief that the poise spleen is of animalcular origin—these animalcular original or causes of the scourge, the old atmosson is of animalcular origin—these ani-malcules generating and speading over way. But the many friends of the dis-tinguished gentleman above named are becoming annoyed at this conduct on the part of a paper pretending to be Democratic. The question is, Who writes these articles? Who is this dison the part of a paper pretending to be Democratic. The question is, Who writes these articles? Who is this disinable to discover them. One fact organizer?
The Watchman was represented at that seems to point to their existence is that the same extremes of heat and the Wilkesboro convention; and, how-ever dissatisfied with the result it may cold that kill other insects also kill yellow fever, whose contagion cannot be, it cannot, in good faith and "with-out fear of successful contradiction," exist and becomes innocuous at 33 deout fear of successful contradiction," say that everything was not conducted with the utmost fairness. The Rowan delegation numbered eleven, and the vote cast by them cannot this early have passed from the memory of the Watenman. It is fresh in the mind of the writer that the Rowan delegation nine days, though persons have been known to carry it their system twenty-three days, and then take it. Without treatment seventy five out of every hundred will die. With treatment and good nursing, however, about one in three is the average mortality. In the great epidemic of 1867, in some Texas towns one-half died who took the fever. the Watchman continue to attempt the production of disunity in the party? Would it, as it seems, prefer to witness the election of a Republican over As to the cure, no remedy has yet been found, and all treatment so far, even by the best physicians, is as empirical as the causes of yellow fever are unknown and beyond conjecture." our nominee? Recent events render its course suspicious. It is hard to understand why the wise choice of the congressional convention of the sev-
