Waiting for the Frost.
(Harper's Weekly.)
Still lifts the lily in the mid, still air its cup of perfumed snow.

A Little "Blatant Kindness."
When, many years ago, an eccentric New England merchant sent a lot of copper warming pans to Jamaica on speculation, the folly of the act, which everybody laughed at, was turned into a profitable venture.

A Reminiscence of 1843.
[Rock Hill (S. C.) Herald.]
In order that the present price of cotton and the "hard times," of which we hear frequent mention, may not bear too heavily on the spirits of farmers, we will give them the benefit of a bit of experience which was related to us a few days ago by a highly respectable farmer who lives but a few miles from here.

Music Taken Out of a Song.
[Durham Herald.]
The latest sentimental ballad is entitled "Give me the Home of my Childhood." Bless your soul, we'd do it in a minute, but—why, haven't you heard? Old Tadjers closed out three mortgages on 4th 1867 and '68, and the next year the heirs' title house was seized for debt in the summer following, then your oldest brother claimed that it belonged to his wife and brought suit in her name to recover, and before that was through they found a lawyer in the title and in trying to straighten that out it transpired that your grandfather had no government patent on it at all, but had stolen it bodily from the Indians; and now two half-bred lawyers brought suit to recover the property as their heirs. The house was burned down about two years ago, and the neighbors have used the fences for kindling wood; your wife's cousin is trying to get hold of the lot, and your half-brother jumped the property one night, and hid the title deed in the alley corner, and is now in possession. There doesn't seem to be much show for you, but you might file your papers, buy a lawyer and sail for Philadelphia.

At a meeting of the Campaign Committee of the fourth Congressional District, held in the city of Raleigh on Wednesday evening October 23, 1878, to take into consideration the refusal of Hon. Edwin G. Reade to allow his name to be used as a candidate for Congress in said district, on motion it was unanimously Resolved, That Hon. Wiley D. Jones, of Wake, be recommended to the Republicans of said district as a suitable candidate to represent them in the House of Representatives of the United States, and all good Republicans are earnestly requested and urged to rally to his support.

An educated Chinaman, Kwang Chang Ling, is writing letters to California journals in which he contradicts many current ideas about China. He says that the population is only 100,000,000 or 120,000,000, instead of 450,000,000; that the country has reached the limit of agricultural development; that the population and prosperity have been decreasing since 1761; that unless improved machinery and methods are adopted, the people will not be able to support themselves; that the wealth of the empire is in the hands of the few, and that with a diminishing population and increasing wages at home, there can be no great emigrations to this country.

Well-Timed Systems.
Systems toned and renovated with Hostetter's Stomach Bitters are most effectually defended from disease. That supreme invigorant soon overcomes that distressing febrile condition upon which the frame, and every physical faculty gains greater activity through its benign influence.

An Astonishing Fact.
A large proportion of the American people are suffering from the effects of dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be.
