Thus, if this right has existed under the act of 1869, the The Demoracy in the next Congress will have a clear majority in both quiring notice, might have kept this houses, but that majority will not be large enough, of itself, to overthrow whom the other side had not seen nor any veto of the President. In those cases where the Republicans were successful by a plurality vote, it is plain that they would have dispatch from Madrid which contrabeen defeated had there been one op- dicts the statement of the Journal Des position. The Nationals are made up of malcontents from both the Democratic and Republican parties. Those from the former party have felt discouraged as the adoption by it of what they conceive to be adequate corrections of existing evils. They were discouraged by the differences they discovered in the views held as to the evils, and as to the correctives, by leading Democrats. This discouragement was the foundation of the National party. It received accessions from the Republican party in those malcontents who, while they had no affinity for Democratic doctrine, believed the existing financial policy to be the cause of the present distress, and that the interests of the whole country, and especially of those persons who were not capitalists, demanded that it should not be perpetuated. As there were no commanding questions before the country in the recent canvass other than those of finance, it may be safely assumed that, had there been no division of the opposition, the Democrats, would have received the votes of the malcontents referred to from both parties, and so have achieved a decided and overwhelming victory. The existence of the national party, then, is naturally regarded as a misfortune by those who sincerely desired a decided modification, if not destruction, of the Republican system of finance. The lesson which the Democratic party may learn from the partial reverse it has sustained is not a new one-but it is one that in the heat engendered of the pride of opinion is continually being forgotten. It is that unity is atrength. Had the Democratic leaders had this unity, there would probably have been no national party. The moral force that a solid front would have commanded would have aroused enthusiasm and drawn recruits. And there would have been no temptation to fulminate ambiguous platforms intended to suit either wing of their own party, but which further excited the distrust of those already discouraged: In the recent canvass, no doubt, the idea of a solid South had great weight at the North in neutralizing the efforts of the opposition. That the South is solid can, not be denied, and such was the effect ness. It is unfortunate, with reference to the interests of the nation, and with reference to the interests of the country; because once identified with institutions which have perished should find itself of logical necessity arrayed in solid phalanx against a party which claims perpetual supremacy from the mere fact of having had its origin in a revolutionary movement for the overthrow of those institutions. If this state of things did not exist at the South, the Democratic party would be stronger at

It is practicable, though, for the South-

The New Stock Speculations.

The combination method of operating in stocks which Messrs. Lawrence & Co., Bankers, N. Y., which Messrs. Lawrence & Co., Bankers, N. Y., have inaugurated, is attracting unusual attention in financial circles, by reason of its remarkable success. B. F. Comstock, of Providence, invested nine times, and made over \$5,000 in three months, by using from \$50 to \$500 capital. By this system, orders from thousands of customers, in various sums, are pooled into one immense capital, and operated as a mighty whole, thus giving to each shareholder all the capital and shrewdest skill. Profits are divided every 30 days, Any amount from \$10 to \$75,000 can be used in Messrs. Lawrence & Co's combinations with equal proportionate from \$10 to \$75,000 can be used in Messrs. Lawrence & Co's combinations with equal proportionate
success. \$15 will make \$75 profit in the month.
\$200 will return \$1,600, or 8 per cent. on the
stock, and so on as the market varies. The new
circular gives "two unerring rules for success," and
shows how any one can operate profitably. Mailed
free. Stocks and bonds wanted. Government
bonds supplied. Apply to Lawrence & Co., bankers, 57 Exchange Place, N. Y.

Ease Attainable by the Rheumatic. Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—the acrid element to which pathologists the most eminent attribute the painful pathologists the most eminent attribute the painful symptoms—a theory completely borne out by urinary analysis. The name of this grand depurent is Hostetters, a preparation likewise celebrated as a remedy for constipation, which causer contamination of the blood with the bile—and a certain means of relief in dyspepsia, fever and ague, and nervous ailments: It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysts who pronounce it to be eminently pure and very beneficial. The press also endorses it.

RENSON'S CAPCINE POROUS PLASTER.

A WONDERFUL REMEDY.

There is no comparison between it and the common slow-acting porous plaster. It is in every way superior to all other external remedies including liniments and the so-called electrical appliances. It contains new inedicinal elements which in combination with rubber, possess the most extraordinary pain relieving, strengthening and curative properties. Any Physician in your own locality will confirm the above statement. For Lame Back, Rhenmatism, Female Weakness, Stubborn and Neglected Colds and Coughs, diseased Kidneys, Whooping cough, affections of the heart, and all ills for which porous plasters are used, it is simply the best known remedy.
