

FRIDAY, JANUARY 3, 1919.

RAILROAD DIRECTORY.

Table showing train schedules for various lines including Richmond and Danville, Atlanta and Charlotte Air-Line, and Carolina Central.

CHARLOTTE POST OFFICE.

Table of office hours for the Charlotte Post Office, including opening and closing times for various departments.

INDEX TO NEW ADVERTISEMENTS.

Table listing various advertisements and their locations within the paper.

INDICATIONS.

WAR DEPARTMENT. OFFICE CHIEF SIGNAL OFFICER, WASHINGTON, Jan. 2, 1919 P. M.

LOCAL REPORT FOR YESTERDAY.

Table of weather data for yesterday, including barometer, thermometer, and wind direction.

HOME PENCILS.

This winter's weather baffles the most gifted prophets.

Important business meeting of the Hornets' Nest Riflemen this evening.

The colored Odd Fellows of this city will make one of those excursions to Wilmington on the 20th.

There were nine interments in Elmwood cemetery in December. Of these, five died within the city limits.

Charlotte, Boise City, Denver and Helena, Montana, are the only places in the United States where gold is bought from the mines by the government.

The sheriff makes his last touching appeal to delinquent taxpayers. The decree has gone forth and cannot be violated.

Maxwell and Harrison, auctioneers, will tomorrow sell a quantity of furniture, to which the attention of those who contemplate purchases in this line is directed.

How completely has the large orphan been forgotten! No one ever thinks of him unless it is when the small comes to town from his country place and appears on the streets.

Peachtree and Hanging Dog are the names of two postoffices established in Cherokee county since the last report published. Guess the latter must be in the territory belonging to the Indians.

Deputy Sheriff Mose Smith, brought Henry Clark, colored, from Rowan county, yesterday, and he was confined in Mecklenburg jail for having stolen a Mecklenburg negro's highly respectable coat.

The spring session of Davidson College opened yesterday morning with fair prospects. Two-thirds of the students remained at the college during the ten days' vacation, and enjoyed a round of social pleasures.

Mr. A. B. Davidson brought suit against Mr. Tom Black, before Justice Waring, yesterday, to compel the latter to vacate the business known as "Our House." Black testified that he had already made the bargain with the plaintiff before the place was rented to another. The decision was favorable to the plaintiff. There was talk of an appeal.

As frequent recurrences to first principles are enjoined upon us by our bill of rights, we embrace the opportunity to remark that this is the anniversary of the day when Noah made wine 2347 B. C., and to remark parenthetically that of wine has been going right straight along ever since.

Thermometer Record. The following will show the state of the thermometer, at the stations mentioned, at 4:35 yesterday afternoon.

Table of thermometer readings for various locations including Atlanta, Augusta, Charleston, and others.

Installation of Officers. At a regular meeting of Catawba River Encampment, No. 21, I. O. O. F., held at Odd Fellows' Hall, last night, the following officers were duly installed.

The Calvary Concert. The change in the weather has brought about a change in the arrangements of the manager of the Methodist children's concert, and it will be held to-night at Calvary Mission church instead of to-morrow night, as was published in yesterday's paper.

The Calvary Concert. The change in the weather has brought about a change in the arrangements of the manager of the Methodist children's concert, and it will be held to-night at Calvary Mission church instead of to-morrow night, as was published in yesterday's paper.

Unclaimed Letters.

The list of letters remaining in the postoffice unclaimed for is as follows: Joe Beckham, Mrs. Blackburn, Wm. Cherry, Col. D. A. Glover, W. C. Gorman, J. T. Holton, Anthony Houston, A. J. Johnson, J. C. Moore, Henry McAlister, Nathan Roseman, Wm. Smith, Tom Thompson, Jacob Thein, J. J. Wagner, Jr., Martha O. Walker, J. P. Watts, Lee Williams, and Belle White.

Marriage Last Night.

At the residence of the bride's brother, Mr. C. T. Walker, last evening at 8 o'clock, Rev. Dr. Theo. Whitfield united Mr. E. N. Hart, of Chester, S. C., and Miss E. O. Walker, of this city, in the holy bonds of matrimony.

Polygamists.

The postmaster has received a copy of the address of the women of Utah to Mrs. President Hayes praying her influence and that of all good women in the United States in inducing Congress to pass laws adequate to the suppression of polygamy in Utah.

Going from the Funeral of Her Husband to That of Her Father.

All who saw them had the sympathies of their hearts to go out toward another bereaved city, from the South, accompanied by eight children, one of them an infant, during the bitter cold weather of the day after Christmas. The oldest of the children was hardly more than a year old, the youngest, the lady was Mrs. John Boone, a daughter of Dr. Jas. Calloway, of Wilkesboro.

Postoffice Business.

The following shows the business done in the Charlotte postoffice during the past quarter ending December 31st: Number of money orders issued, 851; aggregate of same, \$9,086.60.

Number of money orders paid, 1,100; aggregate of same, \$21,864.13.

Letters and postal cards delivered, 880; number registered, 240.

Letters and postal cards received (estimated), 180,000; number received, the same.

Taking this as an average of three months' business—and it is almost the correct average—the year's business can be readily calculated.

The Weather for December.

From the monthly meteorological report made by the signal office in this city the following facts concerning the weather in December are gleaned: Mean daily barometer, 30.055; highest, 30.7; lowest, 29.7; monthly range of barometer, 1.0; highest temperature, (24th), 61; lowest, (28th), 17; monthly range of temperature, 44; greatest daily range of temperature, 23; least daily range of temperature, 1; mean daily range, 14.5; total rain fall of melted snow, 6.55 inches; prevailing wind, northeast; maximum velocity of wind and direction, 25 miles an hour, east, on the 1st; number of clear days, 14; number of fair days, 6; number of cloudy days, 10; number of days on which rain or snow fell, 8; frost fell every day during the month, except 1st, 9th, 10th, 13th, 14th and 15th.

City Economies.

Among the suggestions for the better government of cities urged by the writer of an article in the January number of the North American Review, are a more rigid professional superintendence of all public works, greater economy in the internal administration of the city's systems and waste, and the adoption of a system by which compensation for the city shall be taken for every kind of street occupation; railroads, telegraph poles, gas pipes, news and business stands and all ambulatory vocations. No privilege should be granted to any business, professional or otherwise, if American cities would follow the example of Paris in this respect it is thought that an income would be secured which would, by reasonable investment, be sufficient to pay the return of prosperity, either provide for local debts within the period of their maturity or relieve a larger burden of the annual taxes. Another source of income suggested is the sale of city waste to the highest bidder for fertilizing or filling purposes.

Society Personals.

It is conceded on all hands and recommended by all who are in the pleasure that notwithstanding the fact wife was handed around in the greatest abundance in almost every house that the new year's callers visited, the day passed without a single young man succumbing. It is estimated, too, that there were about forty gentlemen out of Mr. Jno. D. Williams was the only non-resident among the new year's callers.

One party presented Mr. George Sanders, colored, but regretted that he was compelled to return to Raleigh before the calling began.

Miss Sadie Bailey, of Alabama, is visiting the family of Mr. W. H. Bailey in this city.

A young lady of Greensboro, well known in Charlotte was to a young salesman from Richmond.

It is said that almost any crowd of gentlemen can enter a room with a show of grace, but only a few leave gracefully. Did you notice it new year's day?

They didn't do much calling in Wilmington. The Review says: There were some New Year's callers in the city to-day. Some went on foot, and some in carriages. But the day was not generally overcast in this way.

The number of pieces of mail deposited in the post-offices for dispatch during the year was about 1,200,000,000, nine-tenths of which passes over some railroad route before it reaches its destination.

The number of pieces of mail deposited in the post-offices for dispatch during the year was about 1,200,000,000, nine-tenths of which passes over some railroad route before it reaches its destination.

Intelligence and Advancement in Mecklenburg Farming.

We believe the farmers of Mecklenburg to be the most intelligent and the most prosperous farmers in North Carolina. In everything calculated to advance agriculture in this county they are always found in the lead and with a fresh energy in this growing spirit of intelligence and progressiveness among them is found in the fact that those of the Sugar Creek neighborhood have just organized themselves into a class for the study and practice of agricultural chemistry.

Rev. Dr. Davis, the lecturer of the State Grange, a man of learning and a chemist of practical experience, has been engaged to instruct the Sugar Creek farmers in this branch of their business, and arrangements are on foot for the formation of similar classes in Mallard Creek and Sharon townships.

We cannot express too warmly our sense of gratification in learning of this advanced step on the part of so large and respectable a portion of our farming community. To farm successfully requires intelligence and thought, as much so as any other business in life, and it will be a good day for agriculturists generally when they come to realize the fact and get out of the old grooves.

Convention of Northern Settlers—A Suggestion.

It is suggested that Northern men who have settled in the South since the war, who have seen the call for a convention of this class of citizens in Charlotte on the 15th inst., whether they reside in the country or in the city, Mr. N. Dumont, of this city, to whom all correspondence in reference to the subject should be addressed, giving their views upon the matters which it is proposed to bring before the convention, at the same time furnishing such facts and statistics as bear upon the conditions of their several counties, socially, morally, politically, religiously or otherwise, leaving an eye mainly to agricultural statistics. It is only by this means that the facts can be put as it is proposed they shall, since the letters, or the substance thereof, will be given to the press of the country and thus gain general dissemination.

We are requested by Mr. Dumont to say, and do so in this connection, that those who propose to attend the convention will apply to him, as early as practicable, for transportation tickets, so that he may make arrangements for them according to the rates given by the several railroads.

Case Attainable by the Rheumatic.

Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—the toxic element to which pathologists the most eminent attribute the painful and distressing symptoms which attend this disease. The name of this grand discovery is Hostetter's. A preparation likewise celebrated as a remedy for constipation, indigestion, and biliousness, and a certain means of relief in dyspepsia, fever and ague, and nervous ailments. It is perhaps the finest tonic extant, and is highly recommended as a medicinal agent for the relief of rheumatism, and any ailment which is due to impure blood.

An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or indigestion. The result of these diseases upon the system is a gradual but certain destruction of the most valuable organs of the body, making life actually a burden instead of a pleasure. The cause of this is the impure blood which is the result of indigestion and is the cause of all the ailments which are due to impure blood.

Mr. Fischeiser attended the Paris Exposition last week.

Mr. Fischeiser attended the Paris Exposition last week. He was accompanied by his wife and children. He was very successful in his business transactions and was highly praised for his conduct.

Meeting of the Chamber of Commerce.

As provided for in the rules and regulations of the Charlotte chamber of commerce, the regular annual meeting for the election of officers was held at their rooms in the Observer building yesterday. It has been one of the customs of this body to have a dinner on the occasion of the anniversary meetings, but this pleasant feature of the organization was dispensed with on this occasion. After the transaction of some routine business, the body proceeded to the election of officers for the ensuing year. It is only just and fair to both the president and the secretary to say that they declined to write to Mr. N. Dumont, of this city, to whom all correspondence in reference to the subject should be addressed, giving their views upon the matters which it is proposed to bring before the convention, at the same time furnishing such facts and statistics as bear upon the conditions of their several counties, socially, morally, politically, religiously or otherwise, leaving an eye mainly to agricultural statistics. It is only by this means that the facts can be put as it is proposed they shall, since the letters, or the substance thereof, will be given to the press of the country and thus gain general dissemination.

We are requested by Mr. Dumont to say, and do so in this connection, that those who propose to attend the convention will apply to him, as early as practicable, for transportation tickets, so that he may make arrangements for them according to the rates given by the several railroads.
