

SATURDAY, JANUARY 11, 1879.

INDICATIONS. WAR DEPARTMENT. OFFICE CHIEF SIGNAL OFFICER, WASHINGTON, Jan. 10, 1879. For the South Atlantic States, falling barometer, easterly winds, warmer, partly cloudy weather.

Local Report for Yesterday. Barometer 30.205, 30.450/30.475. Thermometer 22, 34, 43. Wind - Direction, N. E. E. E. Velocity, 5 Miles. Weather, Clear. Fair. Fair.

Index to New Advertisements. Perry - Big sale of cigars. Fayetteville Gazette for sale. Mrs. J. W. Saunders - Banders wanted.

ROADS AND BRIDGES.

"Ah, yes, delightful weather," that it was, yesterday. Trade is beginning to look up. The streets were full of life yesterday.

The Charlotte Institute for Young Ladies now has 102 pupils, of whom 12 are boarders in the institution.

A few intrepid spirits skated on the upper part of the ponds yesterday, but it was too dangerous to be pleasant.

The dramatic club rehearsed "The Hidden Hand" at the opera house last night. They are going to make a good thing of it.

Street Commissioner Hunter is "sanding the track" to assist locomotion over the sidewalks. It is a decided improvement.

The Metropolitan Hotel will be fixed up as headquarters of delegates to the Southern Convention, by the proprietor of the Central, who is the lessee.

The Fayetteville Gazette, the ablest and most influential paper of the upper Cape Fear country, has suspended and is offered at private sale. See advertisement.

A false alarm of fire was sounded last night about 8 o'clock and all the companies responded promptly. It was caused by the burning out of a four chimney.

The Pioneer fire company meets Tuesday night to re-organize and re-elect. Mr. F. A. McNinch has resigned the foremanship and Mr. H. J. Elam been elected in his stead.

Committees of ladies of the Episcopal church aid society made a tour of the city yesterday and we are informed found many people suffering from the late necessities of life. It is noble work they are engaged in.

There are a half dozen citizens in Charlotte who pay between a half and two-thirds as much State tax as the whole of Polk county. The sheriff of Polk settled with the State treasurer yesterday through one of our banks, returning \$1,100.

Sam Fullenwider and Alex. Rosboro, two negroes, were committed to jail yesterday, charged with the theft of one bale of cotton which was stolen from Mr. J. W. Brigman, several miles south of the city, a few days since. They will be tried at the next term of the Inferior Court.

In order that no misunderstanding may arise we are authorized to say that the taxes on the Richmond and Danville, the North Carolina, the Charlotte, Columbia and Augusta and the Atlanta and Charlotte Air Line Railways will pay fare to Charlotte and be returned free on certificate of N. Dumont.

Agents along the line of these roads will please state this to applicants for delegates' tickets.

There is to be an important meeting of the Southern and South-western Railroad and Steamship Association (the pool) in Atlanta, next Monday, at which the representatives of through lines running into Charlotte will be present. The object of the meeting is not known.

We can't look for the beginning of the work on the union depot till spring. The railroad boys in the city will thus be allowed an opportunity of standing around during the summer evenings and superintending the work.

Five cars of a freight train on the Richmond and Danville Railroad were thrown from the track between China Grove and Concord by a broken rail. Fortunately little damage was done, as the train was moving slowly at the time, and no one was hurt. The passenger train was delayed by the accident and missed one of its connections here.

There is a subject of congratulation among railroad men that they have passed through the cold weather with only one accident, from a broken rail. This is a danger greatly dreaded and one which is usually attended with serious results.

The remains of Congressman Hart-ridge Passed Through. The remains of Hon. Julian Hart-ridge, member of Congress from the first district of Georgia, who died in Washington City Wednesday morning, passed through this city yesterday, via Richmond and Danville and Charlotte, Columbia and Augusta railroads, en route to the late home of the deceased, at Savannah, Ga. The remains were accompanied by the congressional committee, appointed to escort them to Georgia, Messrs. Gordon, of Georgia, Booth, of California, and Beck, of Ky., of the Senate, and Representatives Cook, of Ga., Frye, of Maine, Cabell, of Virginia, Stone, of Iowa, Davidson, of Indiana, and Indiana, and others, making the party number eighteen in all. Mr. Cox, of New York, of the House committee, was unavoidably detained in Washington. The remains were doubtless met last evening at Columbia, where they were found, and started to Washington via the Coast Line upon learning of her husband's dangerous illness, and was intercepted as she passed through Wilmington Wednesday by telegrams announcing her death.

The remains were transferred from one train to the other upon arrival here, and passed on through without delay.

Capture of Two Thieves in Lincoln-ton. For several months past numerous robberies on small scale have been perpetrated in Lincoln-ton, not only to the loss but to the great annoyance of the citizens. The last was the theft, last Tuesday or Wednesday night, of some ten bushels of peas from M. J. C. The thieves came by these peas that the thieves came to grief. They were found in the house of a negro named Anderson Phifer, and it was subsequently ascertained, with a considerable degree of certainty, that it was he, aided and abetted by two Charlotte negroes, Henry Johnson and Calvin Maxwell alias Gibson alias Greenlee, who had been operating so extensively in the community. The three men were associated as well-diggers and all made their home at Phifer's house, in which were found, upon search, numerous articles of jewelry, etc., all of which had evidently been stolen, and among other things a silver cake basket which, Phifer's wife said, had been brought from Charlotte by Johnston and Maxwell.

Johnston and Phifer were arrested Thursday, were tried before a magistrate and in default of bail were committed. Maxwell escaped, though fired upon by the officer, and has not been taken into custody. The description of him comes from Lincoln-ton: He is a dark mulatto, 25 or 30 years old, 6 feet high, weighs about 160 lbs, has no beard on his face, wears check pants and stammers a little when first spoken to.

Sparks from the Wires. Madame Anderson, the Brooklyn post-mistress, has had three men more to take care of in a good condition. The work of hatching codfish progresses favorably at the headquarters of the Massachusetts fish commission. About a million young cod fish were put into the ocean in the course of the investigation at New Orleans was continued yesterday, the testimony referring to the outrage upon blacks, with statements of violent interruptions of Republican speakers at meetings, characterized by forced divisions of time.

Postal Changes.

The following postal changes have recently been made in North Carolina, in addition to those already noted. Office established - Red Oak, Nash County.

Discontinued - Hopewell postoffice, Mecklenburg county. Service between Franklin, N. C., and Walthalla, S. C., has been increased to six times per week, greatly advancing mails for both places. Graham, Jackson and Macon counties.

Relief Committee. The special committee of the board of county commissioners to provide for urgent cases of suffering among the poor will meet at the office of the register of deeds this morning. It would be well for persons who know of any family specially needing assistance to make application to the committee, either by letter or in person, stating fully the circumstances of those for whom assistance is asked. The committee are in all the facts to prevent imposition. It is composed of T. L. Vail, R. M. White and Wm. Maxwell.

A Voice from the County Jail. Clark Hall, the same old Clarke, has addressed a letter to the editor, apparently quite a witty and sarcastic letter, from the portion of it that can be deciphered, it is to be regretted that his begging that his compliments be presented to his honor the mayor and to the city marshal, and that they be informed that he is greatly pleased with the dull monotony of prison life, falsely so called, which he occasionally varies by drinking the best of whiskey and smoking the finest cigars at the expense of the county. He refers in touching terms to the fact that he has during his years of captivity been the recipient of a handsome sum of \$1,849.50 (in fines) to maintain the city officers, at whose hands he, poor Clark Hall, has never received other than the roughest treatment. He closes by saying that it would not go so hard with him if it weren't for the fact that the mayor and the marshal disliked so much to take \$5 or \$10 from him because he simply takes one or two drinks of good old brandy.

Verily, there is but one Clark Hall. He is the Rip Van Winkle of Charlotte, and will long be remembered as such.

A BREAK FOR THE PRAIRIE.

Hostile Cheyennes Escape from Prison and Kill Two Guards - Forty of the Savages Slain. FORT ROBINSON, NEB., January 10. - The hostile Cheyennes, confined here since October, having been informed by the commanding officer that they were to be taken back to their agency in Indian Territory, became very sullen and expressed a determination to die before consenting to such a hearing. A strong guard was placed over the prisoners last night. When nearly every one was in bed the savages jumped from the windows of the room and made for the prairie, which is coated with frozen snow. They were armed with revolvers which they had concealed since their capture, wounding four, one of whom died, and another of whom will not survive the day. The main guard rushed out, opened fire, and shot and killed the Indians. A hundred and sixty cavalry, mounted and dismounted, are pursuing the fleeing savages.

The Senate committee of commerce this morning considered the bill which proposes to authorize the purchase and registry of foreign ships by citizens of the United States, and made an order to continue its consideration by the full committee on Friday, 17th, at which time an opportunity will be afforded the friends and opponents of the measure to be heard.

Day-Crowder also briefly heard to-day in favor of his proposed plan for the improvement of the Mississippi river.

The Senate committee on finance today heard Gen. Baum, commissioner of internal revenue, in opposition to the pending House bill for the reduction of the tobacco tax. He asserted that the enactment of the bill would be the cause of an annual loss to the revenues of not less than nine million dollars in the receipts from the taxation of tobacco, and of at least two millions in the revenue from cigars. He argued that the proposed reduction would not benefit the consumer of tobacco, it being held in very small parcels, the cost of one of which to the manufacturer would be reduced thereby only to the extent of a certain fraction of one cent, and the consumer would be charged the same price as now so far as the rate of tax is concerned.

Senator Withers, who was present to look after the interests of the Virginia tobacco producers, suggested that this fractional difficulty "might be obviated by increasing the size of the plug."

Langley Butler, secretary of the committee in order to yield as much revenue under the reduced tax as the government obtains now, the annual consumption of tobacco would have to be increased from the present amount of 105,000,000 pounds to 120,000,000, and he does not consider at all probable to occur. The committee will consider the bill at another meeting to-morrow.

PERSONAL.

The condition of Representative Schleicher changed slightly for the worse during the night and he is expected to die this morning. His physicians can offer but slight hope of his recovery.

THE LEGISLATURE.

(Raleigh News Report Condensed.) SENATE.

At 12 o'clock the Senate was called to order by the President, Lieut. Gov. Jarvis. In a few words he expressed to the body his gratification that their assembly, and stated his determination to conduct the business of the Senate, with their assistance, with dispatch and in harmony of action.

The roll was then called, which showed that the following senators were in their seats: Messrs. Alexander, Alston, Austin, Brower, Bryan of Duplin, Bryan of Pender, Bynum, Caldwell, Evans, Davidson, Dillard, Dorth, Eaves, Eppes, Everett, Graham, Lincoln, Harris, Henderson, Hoyle, King, Leach, Lyon, Matheson, McEachern, Merritt, Moxe, Nicholson, Ormand, Redwine, Robinson, Respass, Scales, Shackelford, Snow, Stewart, Taylor, Waddell, Waldo, Ward, Williamson.

The Senators, as their districts were called, came forward and were sworn in by Judge A. C. Avery.

The election of officers was then held. [The result has already been given.] No other business was presented and at 1 p. m. the Senate adjourned until to-morrow at 11 o'clock.

HOUSE OF REPRESENTATIVES.

At 12 o'clock Mr. John D. Cameron, clerk of the last House, called the House to order. The roll of counties was then called, and as each was named the delegates advanced and presented their certificates of election. Each was sworn by Justice C. B. Root. When Brunswick county was reached a protest was presented as Mr. Meares stepped to the desk. It was stated that the question was in controversy in the county, to be decided next week, each candidate having a certificate. Meares was sworn.

The clerk announced that the following members were present: Messrs. J. M. Anderson, Angier, Andrey, Armstrong, Atkinson, Bar-

FOURTY-FIFTH CONGRESS.

THE TAIL WAGGING THE DOG.

More Committee than Congressional Proceedings - The House Doing Uninteresting - The Ciphers to be Investigated - Sugar, Tobacco, Territories, Ships, and the Mississippi Before the Committees.

WASHINGTON, Jan. 10. - SENATE. - Messrs. Conkling and Kernan, of New York, presented a resolution of the New York State Senate, remonstrating against the passage of the bill to reorganize the army or at least that portion of it prohibiting the manufacture of arms at the United States arsenals. Laid on the table, the bill having been reported to the Senate.

Mr. Anthony submitted a resolution directing an attempt be made to inquire into the policy of providing by law that the selection of chiefs of the bureaus of steam engineering, provisions and clothing and medicine and surgery at the Navy Department, be left to the officers, not to the rank of captain. Agreed to.

The Senate passed the Indian appropriation bill.

House. - The House was in committee of the whole on the private calendar. The bill for an amendment to the act relating to William and Mary College bill, which was finally rejected.

COMMITTEE PROCEEDINGS. The Potter committee to-day adopted the resolution offered by McMahony providing for an investigation of the cipher telegrams and embodying the request that the House grant an additional appropriation to defray the expense of the investigation.

The hearing of the sugar representatives was resumed before the committee of ways and means this morning. Haver-meyer, of New York, argued that the duty on sugar should be collected on the gross principle, and not on the net. Discrimination should be made against any class of citizens. Legislation should encourage labor and capital to afford the people sugar at the lowest price. The consumer would be best protected by a tariff which would approximate to free trade and leaves undisturbed the relative value of sugar, as when purchased at the places of production. He opposed one rate duty as it would annihilate the refining interest, and the sugar refiners, in favor of one rate duty, have been disapproved. Wm. T. Booth, of New York, commended his remarks by declaring his belief that the sugar refiner should be protected. He then spoke of the polariscope, saying its value depends on the accuracy of the reports of the samplers, and that the sugars are not sold owing to the results of the polariscope, but on the basis of color.

At a meeting of the Senate committee on territories this morning, the recommendations of the sub-committee who have been investigating the question of the advisability of providing a territorial form of government for the Indian Territory, were discussed, opening it to general settlement, were laid before the committee, but it was decided that before taking any action on the subject a hearing shall be given to the committee next week to the representatives of the various Indian nations affected.

Case Attainable by the Rheumatic. Yes, although they may despair of relief, it is attainable by the use of Dr. Williams' Pink Pills for Pale People. It is a remedy which carries off, by means of increased action of the kidneys - important channels for blood purification - the impurities which pathologists the most eminent attribute the painful symptoms of rheumatism to. It is a scientific analysis. The name of this grand purgative is Hostetter's, a preparation likewise celebrated as a rest for constipated and bilious, and a certain means of relief in dyspepsia, fever and ague, and in all ailments of the bowels, and is highly recommended as a medicinal agent in all cases of indigestion, flatulence, or any other ailment which pronounces it to be eminently pure and very beneficial. The press also endorses it.

TELEGRAPHIC MARKET REPORTS. JANUARY 10, 1879. PRODUCE.
