"Free from the dosing scruples that fetter our free-ten reason."

THURSDAY, JANUARY 16, 1879.

GOV. VANCE OUR NEXT SENATOR.

The news from Raleigh is gratifying if not surprising, and the gratification attending the intelligence that Gov. Vance was last night nominated by the Democratic caucus for United States Senator, is increased by the knowledge of the unanimity of the action. This is glory enough for one day, and there is no danger in this case of the recurrence of a former mishap. The Democratic party has declared its will in the premises and that will will be enforced.

We are glad indeed that Gov. Vance is to be our next Senator; we are glad still that the party has reasserted its integrity.

SENATOR MERRIMON'S DECLINATION.

Our readers have already been informed of Senator Merrimon's declination as a candidate for the United States senatorship, before the Legislature, but we present below the letter which was read before the caucus of the Democratic members of that body, announcing the fact:

RALEIGH, Jan. 13, 1879.

To the Democratic Caucus:

My friends have ascertained that whatever may be the popular desire for my re-election to the Senate of the United States, causes and influences have been brought to bear that will prevent my re-election. I have no desire to disturb the quiet of the Democratic party by further contest over the senatorship, and, hence, beg my friends not to mention my name further now in that connection. I beg to express my most grateful thanks to friends in and out of the Legislature who so generously and earnestly manifested interest in my behalf. I can never cease to remember them with feelings of pleasure and deepest gratitude, and I venture to trust that they will not have occasion to regret the confidence that they have reposed in me.

A. S. MERRIMON.

If, as stated in the letter, Senator Merrimon's actual desire was "not to disturb" the quiet and harmony of the Democratic party by further contest over the senatorship, his course is patriotic, and deserves to be mentioned in terms of praise, and if there were other reasons, Gov. Vance's friends in their hour of triumph, cannot afford to boast over the discomfiture of Senator Merrimon's friends. We have said, and we believe that the failure to elect Vance to the Senate would disrupt and disorganize the Democratic party, but now that Senator Merrimon and his friends have done so much to avoid the impending evil, Gov. Vance's friends can do no less than recognize the fact, and by letting the dead pass, bury its own dead, all re-united and re-encouraged, work for the success of the vital principles of our party, which means wholesome and just laws for the people; the re-activation of that prosperity through out the State which is the hope and aim of all, and the rehabilitation of the old commonwealth, in all the powers and prerogatives, which belong properly to one of the original thirteen American colonies, which spent the blood and treasure of its people, to establish and perpetuate this great American Union of co-equal and co-ordinate States.

CAUCUS.

The Democratic members of the Senate held a caucus this morning with a view of determining what course of action should be adopted in regard to the resolution recently submitted by Mr. Edmunds, which in substance declares that the three last constitutional amendments were not ratified, that the laws already enacted for their enforcement should be faithfully executed, and that Congress should further provide for their enforcement by additional legislation. The following members of the committee last Monday decided to recommend changes in the sugar tariff, but the motion was lost—five in the affirmative to six in the negative.

BY ACCLAMATION.

THE WAY IN WHICH GOV. VANCE WAS NOMINATED.

This Done by the Caucus Last Night—His Speech in Recognition of the Compliment.

[Special to the Observer.]

RALEIGH, N. C., January 15.—In the Democratic caucus to-night Senator Dorchester nominated Gov. Vance for United States Senator. Speaker Moring, as a constant friend and supporter of Senator Merrimon, seconded the nomination, which was unanimously made by acclamation. The Governor by invitation addressed the caucus in a broad, stirring Democratic speech. He thanked the people of the State through their representatives for the many high honors conferred upon him, and congratulated the Democracy of the State on the perfection of the solid organization for 1880, and that it numbered in its ranks men from the height of Senators in Congress down to the humblest citizen who could lay their ambition and aspirations on the altar of the party and labor for unity and harmony in the Democratic ranks.

The House to-day by an almost unanimous vote abolished the office of State Geologist, to leave that work in the province of the agricultural department. The other legislative proceedings were not important.

FORTY-FIFTH CONGRESS.

PROCEEDINGS OF THE HOUSES AND COMMITTEES.

SENATE.—Mr. Voorhees, of Indiana, submitted a resolution instructing the committee on Indian affairs to inquire into the circumstances which led to the recent escape of the Cheyenne Indians from Fort Sill, Texas, and the subsequent slaughter by United States forces.

Agreed to. Iowa, from the conference committee on the military academy appropriation bill, submitted a report which was agreed to. Having been agreed to in the House of Representatives yesterday, the bill now goes to the Senate for its signature.

During the morning hour the Senate proceeded to consider the bills on the calendar not objected to under the five minutes rule.

The Senate resumed consideration of the bill to amend the patent laws and adjourned without action.

HOUSE.—The House has under consideration the bill reported from the committee on ways and means for the issue of certificates of deposit of the denomination of \$10, bearing interest of 3 per cent, and convertible at any time into 4 per cent, bonds, establishing in brief a national savings bank.

An interesting debate followed. Speeches were made against the bill by Banks, Butler, Hewitt, and others, and favorably by Wood, Garfield and Clitenden. All amendments were rejected and the House took a recess with the main question on the bill still pending.

Kelly submitted an amendment to make the certificate convertible with accrued interest after six months into lawful money, and at any time into 4 per cent, bonds.

EXCESSIVE SESSION.—The House resumed the consideration of the bill authorizing the issue of certificates of deposit, the first vote being on a motion to table the bill, which was defeated. The bill then passed—yeas 117, nays 72.

COMMITTEE BUSINESS.

The House committee on banking and currency to-day authorized Representative Ewing to offer the following amendment to the bill now pending on the calendar of the House, providing for the repeal of the resumption act:

"Provided, that the money hereafter received from any sale of bonds of the United States shall be applied only to the redemption of other bonds bearing the highest rate of interest and subject to call; and provided further, that when 100 stock of the same issue exceeds the sales of bonds shall aggregate \$3,000,000, the secretary of the treasury shall issue a call for that amount of bonds to be redeemed and interest on bonds called for. Redemption shall cease in thirty days from date of such call; and provided further, that all United States notes received at the treasury shall be re-issued and kept in circulation without change in the aggregate amount of the several denominations existing on the 31st day of May, 1878; and it shall not be lawful to issue legal tender notes of larger denominations than one thousand dollars.

The vote of the committee on the amendment was: Ayes—Buckner, of Missouri; Ewing, of Ohio; Yeates, of North Carolina; Hartzell, of Illinois; Fort, of Illinois—5. Nays—Hardenberg, of New Jersey; James, of Rhode Island—2. Bed of Georgia; Hart, of New York; Chittenden, of New York, and Phillips, of Kansas, were absent.

At the meeting of the committee of ways and means to-day, Gibson moved to reconsider the vote by which the committee last Monday decided to recommend changes in the sugar tariff, but the motion was lost—five in the affirmative to six in the negative.

SUFFERING FOR A LIME FEVER.

Persons afflicted with Rheumatism often suffer a life time, their tortures being almost without cessation. The joints and muscles of such unfortunate are in most cases shockingly contracted and drawn out of shape. To afford them even temporary relief, the ordinary remedies often prove utterly useless. Hostetter's Stomach Sticks, on the other hand, is speedily and permanently cured. It is a genuine source of relief. It keeps the blood cool by promoting a regular habit of body, and removes from it impurities which, in the opinion of all rational physicians, originate this agonizing complaint and its kindred affections. The sticks thus the Bilious remedy disorders of the stomach, liver and nerves, prevent and eradicate intermittent and remittent fevers, promote appetite and sleep, and are highly recommended by physicians as a desirable medicinal stimulant and tonic.

Success in the Stock Market.

Few people understand how large fortunes are amassed so rapidly in stock operations. Messrs. Lawrence & Co. Boston, have just published a book, "Two Unerring Rules for Success," and full details so that any one can operate. Mailed free. This wonderful system of dealing in stocks is wonderfully profitable. By this method thousands of orders, in various speculations, are made in the most judicious manner. From a divided every 30 days, \$15 would make \$75 profit, \$100 would return \$1,000, or 10 per cent on the stock in a month, and so on, according to the market. A New York fashion editor and prominent business man, who has invested \$100,000 in the market, writes as follows: "I have made \$15,000 profit on an investment, October 5th, 1878. Many others are doing as well or better. Large or small amounts can be used with equal success by this system. All kinds of stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchange Place, N. Y. City."

Race Attainable by the Rheumatic.

Yes, although they may despair of relief, it is attainable by the rheumatic sufferer, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—the toxic element to which pathologists the most eminent attribute the painful symptoms—a theory completely borne out by analysis. The name of this grand depurative is Hostetter's Preparation likewise celebrated as a means for constituting a healthy habit of body. It is a blood purifier, and a certain means of relief in dyspepsia, fever and ague, and nervous ailments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal agent in all cases of Rheumatism, Gout, and Gravel, which it is to eminently pure and very beneficial. The press also endorses it.

Every Moment's Wonderful Work.

Every moment that we live the work of destruction never ceases. The body is continually being renewed. The "tissues" of which our bodies are composed. Every moment, if we are in health, the work of rebuilding is going on. The body is continually being renewed. The "tissues" of which our bodies are composed.
