

The proceedings of the very important body which held its session in this city Wednesday, excluded from our columns, yesterday, anything in the nature of comment except what was incidentally thrown into the report itself.

Comment, however, to use the hackneyed phrase, "is unnecessary," or almost so, in the face of the proceedings as published.

The work of this convention is pregnant with results. Its utterances bear the impress of truth upon their face; its deliberations must needs carry conviction with them.

At once the most striking and the most gratifying feature noticeable in the proceedings of the convention was the entire harmony and singleness of purpose which obtained among its members.

The person of this body is a strong wall of defence standing between those findings and any person or persons, anywhere, who for any reason might attempt to controvert them.

We have no desire to withhold expression of our gratification upon the result of the labors of the convention. It furnishes just such a document as it is needful to our welfare to have generally disseminated; and it emanates from just such a source as could give to it the greatest weight.

A day or two ago our special correspondent telegraphed us from Raleigh in regard to the repeal of the privilege tax paid by merchants under the present revenue law.

One of our members, writing from Raleigh under date of January 14th, says: "The Legislature only repealed the privilege tax of five dollars."

We had no desire or inclination to mislead anybody in regard to this matter, and take pleasure in explaining the situation as it is.

Now let the upper house of the Legislature follow the good example of the lower house and pass the bill abolishing the office of State Geologist.

THE STATE DEBT.—The Raleigh Observer of the 15th contains the following:

Mr. Brown, of Mecklenburg, on the subject, introduced a resolution on the State debt question. It has appeared in several exchanges in several forms, more or less, unlike the true one, and in order to put him correctly on the record we print the resolution.

It is worthy of remark, as indicating that the dark horses have abandoned all hope, that Gen. Clingman has quit Raleigh, where he had been spending several weeks, and has gone on to Washington.

Mr. Blaine reported favorably Mr. Thurman's resolution to admit Hon. Geo. Bancroft to the privileges of the floor.

Mr. Thurman, from the judiciary committee, reported with amendment the Senate bill to extend the operation of the act of February 27th, 1875, to provide for settlements with certain railway companies for one year.

THE FRENCH HUBBUB.

About the Ministry of War—English Press Opinions—Interest on the Subject in London.

LONDON, Jan. 16.—The political situation in France is the leading topic discussed by the morning papers. A special from Paris to the Daily News says: "The ministerial situation is full of difficulties but I need not repeat the conflicting rumors which will lose their interest after the declaration which Dufaure, president of the ministry, is expected to make in Parliament to-morrow (to-day)."

The Daily Telegraph's Paris dispatch says: "The extreme Left object to the ministry has not shaken off the shackles of unconstitutionality and irresponsibility."

The Standard's Paris correspondent telegraphs the following as the opinion of a French military contributor: "The Left have fully made up their minds to have the ministers and are determined to remove all that Republicans on office to carry out the wishes of their electoral body, especially as regards the ministry of war."

Has Doubts on the Subject.

CINCINNATI, January 16.—The Catholic Telegraph doubts the truth of the report of Archbishop Purcell's resignation, because Rome would not consider the question of a successor until it sent official word of its acceptance of his resignation to Archbishop Purcell, and consulted him and the other archbishops of the country.

A Triangular Tragedy.

ALEXA CRAIG, ONT., January 15.—Yesterday morning Mrs. Walker, residing at Brecon Mills, suddenly dropped dead, and her betrothed, Edward Cousins, hearing of her death, cut his throat. Miss Walker's mother, seeing her daughter's corpse, also dropped dead.

Anti-Sellum Moonshine.

[Wash. Cor. Baltimore Sun.] The lamentations and regrets of many people in the South over the good old times "before the war" have been the subject of numerous stories and jests. The last is related by New York just from Charleston. A few nights since he was promulgating the battery in company with a well-known citizen of Charleston, and remarked on the beautiful play of the moonlight on the water. "Ah, yes," the Charleston gentleman sadly replied; "but, my dear sir, you should have been here and seen that moon before the war."
