NEW DEPARTURE.

On the 22d of September last, in putting on a new dress, THE DAILY OBSERVER adopted the rule to exclude all double column advertisements and all cuts. After five months of experience, we have decided to cancel the rule. Double column advertisements necessitute the cutting of column rules, and these will be charged twenty-five per cent. more than our regular rates, and will only be inserted on the first and fourth rages of the paper. The recent changes in the arrival and departure of mails, make it necessary that changes in contract advertisements be sent in by three o'clock in the afternoon.

Of Interest to the Mexican Veterans. As there are a good many veterans of the Mexican war residing in this city and vicinity, it may be of interest to them to know that the United States senate has passed the House bill providing for the payment to the officers and soldiers of the Mexican war of the three months' extra pay provided for by the act of July 19, 1848, which was amended so as to provide that the act shall include "officers and soldiers of the United States Army, officers, petty officers, seamen and marines of the United States Navy, and officers and

For some weeks past scarcely a single drummer could be seen on the railroads or in the hotels, and people had begun to wonder if they were all dead. Two days ago they began to pour into the city in squads; there has scarcely been a time when we had so many of them at once, notwithstanding Charlotte is drummers' headquarters. They first stop here and branch out to neighboring towns, managing, if possible to return at night. They are a jovial set of fellows, spend their money freely and help to keek up the railroads and hotely to keek up the railroads. tels; and it is a pleasure to see them i straktur kesa konfelas 20

Knights of Honor. At the last meeting of the Charlotte Lodge Knights of Honor, wreport was read showing the number of deaths in the organization during the six months ending December 31st. From this it appears that 191 members died in the United States of yellow fever, and the families of 181 of these have received the \$2,000 insurance which the organization carries for each member, making the total paid out to the widows and orphans or heirs of deceased members, \$362,000. This has cost the surviving members of the organization in assessmenta, about \$6 each. The advantages which the members enjoy therefore apabout \$12 annually, each less an insurance on his life of \$2,000, and in a company that is as reliable as it is possible for anything to be in the world of busi-

Meeting of the Mining Board Last

At the meeting of the mining board last night the report of the committee on mining laws was received, and approved and Maj. Flemming was directed o prepare a memorial to the Legislature embodying some changes, chiefly in the law relative to corporations. Steps were also taken to secure the appointment of a mining commissioner for the South Atlantic States. The following officers were elected for the en-

Mr. Ardrey, of Mecklenburg. There was somewhat of a "spat" in the lower house of the Legislature, the other day, between the farmers and the lawyers, over the bill to abolish the criminal court of Wake county. A number of members took part in the discussion and there were lots of pros and cons. The editor of the Reidsville Times, Capt. Tom Evans, was in the hall of the House at the time and heard the debate, and he says "Mr. Ardrey, from Mecklenburg, quieted the fuss with a very sensible talk. He said he was a farmer, but was opposed to any-thing like class legislation cropping out. The lawyers were as good as the farmers and the farmers as the lawyers, and he wanted all to legislate for the good of the State and not to the prejudice of any avocation or calling. Mr.

Ardrey was applauded." From what THE OBSERVER can understand he generally is, when he says anything. He is a quiet man, but a thoroughly sensible and practical one withal and one who commands the respect of all who are thrown in contact with him.

"Has the pool busted?" was what they were asking railroad men yesterday and they were as wise before asking the question as afterwards. Ever since THE OBSERVER'S announcement that the differences between the Carolina Central and Raleigh and Augusta Air-Line railroads had been adjusted, by which the Seaboard Inland route had been reopened, and that the line had put a soliciting agent in the field, it has been generally agreed that the pool would pass away, but the cause of the special inquiry yesterday was the appearance of two general freight agents in the city. These gentlemen declined to say anything about the matter, and the clearing house agent says he has re-ceived no notice to suspend operations. The pool still exists, and will doubtless continue to exist until some one of the lines withdraws from it by cutting rates. As one of the lines has a soliciting agent out, it is presumed that this will occur shortly—possibly as early as to-day. We therefore conclude that the pool has but a small lease upon life; that it will soon pass peacefully and quietly out of existence.

The Jennie Hughes troupe is the name of a company which has been disporting itself upon the stage in different parts of the South during the present the pre ent season, and which has a pretty fair name among the newspapers. bed in the Streets. Greenshoro was the scene, Thursday night of a tragedy, similar all in respect to the deplorable affair which occurre at Mooresville a week before Christ mas. Between 8 and 9 o'clock day before yesterday evening, Mr. John W. S. Parker, a merchant of Greensboro, closfire in the building later than 8 o'clock on Thursday evening, it is presumed that the building must have been set on fire of the building must have been set on fire of the building must have been set on fire. It is the building must have been set on fire of the building must have been set on fire. It is the building must have been set on the pavement, thirty yards from his house, in a pool of blood, altogether unconscious. Friends and neighbors carried him into his house, when it was discovered that he had been struck upon three several charges: assault, drunkenness and disorderly conduct the skull and into the brain. His pools the skull and into the brain. His pockets were found turned and his keys and money gone. It is not known how much money he had with him, but his pockets had been rifled of all their contents. Mr. Parker continued insensible throughout the night, and died at 10 o'clock" yesterday morning. A negro named Jo. Mendenhall has been arrest ed on suspicion of being the guilty party, but so far as can be learned there is no positive evidence against him. Naturally there is a great deal of excitement and indignation in the community on account of the faul and cold-blooded

murder. The deceased was a man of character and standing at his home, and by honesty, industry and frugality had acquired a competency. He was a brother-inlaw of our townsman, Mr. A. L. Clark, of the Western Union Telegraph office.

The Fair Grounds—Meeting of Stock-

By reference to our advertising columns it will be seen that a meeting of the stockholders of the old Fair of the Carolinas is called to meet this morning at the Traders' National Bank, to take some steps towards the lease of the fair grounds to the new fair association, for the purpose of holding the annual

fair next November.
It is hoped and believed that such an arrangement can be agreed upon as will be satisfactory to both the old and the new associations, and that we may be able to have such a fair next fall as will be a credit to Western Carolina.

A Serious Stabbing Affray. Night before last Gray Toole, the

colored barber and a negro who is known in the city by no other name than "Cuffy," had a desperate encounter in John Schenck's bar room. The origin of the difficulty is not yet known but during the progress of it Cuffy plunged a knife, into Toole's head, inflicting what was at first believed to be a fatal wound. He also cut Toole on the wrist, after which he left the house and started in a rapid walk towards the square. He was followed Railroad. Cowpens is the name of a station on that road, but Hurricane Shoals is the postoffice. There is a found Policeman Hill and pointed out Cowpens postoffice, but the mail for it Cuffy to him; telling the policeman that goes up the Carolina Central Railroad. he had stabbed Toole. By this time Cuffy was going up Tryon street at a rapid walk, and Hill started in pursuit. He came up with him just at the gate above Seigle's store, and, stepping in front of him, was in the act of fastening his hand in the negro's collar when his eye caught the glance of a knife in the negro's hand. The policeman pushed him off, and Cuffy, seeing his advantage, darted through the gate. Hill fired at him at fifteen paces, but the ball falled to take effect and the negro succeeded in making good his escape. A party of negroes took out a warrant for him yesterday afternoon and were in search of him last night, but a last accounts he had not been captured. Gray Toole's condition was somewhat improved yesterday, but he is still not out of danger. The affair has created a considerable stir among the colored people.

> Railroad Notes. Mr. W. J. Houston, the general freight and passenger agent of the Air-Line, who has just returned from a two weeks trip in Texas, informs an Atlanta reporter that he has perfected an arrangement for the transportation of immigrants who are to become actual settlers in the southeast at rates less than the average rates given to Texas heretofore, and says that all the railroad and steamboat lines between the important points in Texas have authority to carry the new rates into effect. He, however, doesn't expect many persons to return until the coming crop is made.

A Salisbury man named Woodson, has also recently patented a car coupler. The Watchman says: "It is a self-acting coupler, that also uncouples without going between the cars or leaving the platform. It is a good thing beyond a doubt, very simple and can be made as cheaply as the present link and pin."
Mr. Robt. Lindsay, one of the oldest men in the employ of the Richmond and Danville railroad, and for many years agent at Greensboro, was knocked down by a car a few days ago and narrowly escaped being killed. He is quite deaf and did not hear the approaching train which was running backwards.

The Statesville American learns that the legislative committee appointed to investigate the affairs of the Western North Carolina railroad, completed their labors and are perfectly satisfied that the insinuations and charges of improper management are entirely without any foundation in fact, and altogether erron-eous, and will so report to the Legislature. The American adds: "The load was never in better hands than the present management, at the head of which is that sterling railroad official, Major James W. Wilson, president."

The Grand Central Hotel on Broadway, N. Y., is a big house, and it takes a great many people to fill it. In order to do the latter, and to please everybody, the hotel is now kept on the both plans the American at \$2.50 to \$8.00, and the European \$1.00, and upwards per day. An elegant restaurant at moderate prices, is conducted by the hotel. TOBACCO SOCIETA OF THE PROPERTY NAVY

BENSON'S CAPCINE POROUS PLASTER. FOR WOMEN AND CHILDREN

Females suffering from pain and weakness will derive great comfort and strength from the use of Benson's Capcine Porous Plaster. Where children are affected with whooping cough, ordinary coughs or colds or weak lungs, it is the one and only treatment they should receive. This article contains new medicinal elements such as is found in no other remedy in the same form. It is far superior to common porous plasters, liniments, electrical appliances and other external remedies. It relieves pain at once, strengthens and cures where other plasters will not even relieve. For Lame and Weak Back, Rheumatism, Kidney disease and all local aches and pains, it is also the best known remedy. Ask for Benson's Capcine Plaster and take no other. Sold by all Druggists. Price 25 cents.
