WEDNESDAY, FEBRUARY 19, 1879. THE INSANE ASYLUM AND THE RETRENCHERS

lum, from 25 to 38 per cent. annually have been returned to their homes recovered and a very large additional number much improved. During the past year the per centage of cures upon admissions was 331/2 per cent., and including the much improved, 59 per cent. "The death rate annually has never reached the average mortality of the asylums in the United States, while in some years it has been with a bare exception, the most favorable in the Union, and approvingly quoted, as a model to be esteemed. It has varied from 2% to 61/4 per cent. at the highest."

on "retrenchment and reform," in which the management of this asylum is rather severely dealt with, Dr. Gris- ride as that represented on the page ovsom cites the treasurer's recent report, | er which the youthful eye so much deshowing that the expenditures of the lights to linger. asylum for the fiscal year ending December 1st, 1878, were \$63,538.06. He itemizes the expenses, and adds:

If the whole amount be divided by the daily average of patients, viz: 278, it will be seen that the per capita cost monthly \$5.12½, daily 16% cents, to each patient. But as we actually feed 74 employees in addition, the actual expenditure for 352 persons has been \$48.65 each annually, or \$4.05½ per month, or 13½ cents per day. It will be seen that this is far below the allowance often made for convicts in jails.

The report shows that while the annually expenses for provisions were \$17,126.21, the salaries and wages of superintendent and other employes for the same time were \$20,232.87. Dr. Grissom points out that the care of the insane is always more costly than their food since this requires perfect intelligence and regularity by trained and faithful employes, who must receive adequate compensation for their ser-

He invites attention to the vouchers on file with the treasurer of the insane asylum, and states that all of the accounts of the institution, carefully itemized, were examined and approved by the executive committee before payment.

The report of the joint committee on Next. retrenchment and reform attacked the management of this institution on the ground that purchases for it have been made during the past year by the steward, the matron, the engineer and the superintendent, where as only one person should have been allowed to buy supplies. As to this complaint the superintendent says:

This policy I am convinced subserves the best interests of the institution and the State: for who is so well qualified to purchase articles of female apparel, and to determine their fitness for the need. ed purposes, as the matron? Who is as well qualified to purchase pipes and fittings, gas retorts and articles pertaining to machinery, requiring the knowledge of an expert, as the engineer? Who is better qualified to purchase medicines and drugs, and to judge of their purity and value, than the physi-

In the face of this very elaborate, explicit and apparently unreserved report, the thinking members of the General Assembly will hesitate a long while, we opine, before they materially reduce the appropriation for this important institution which is already deliver the desired address on the conducted, as is shown, at an annual expense of \$10,000 less than the average of similar institutions throughout the United States. This is our greatest public charity and God forbid that its usefulness should ever be destroyed by the insane ravings of clap-trap politicians in whose profane eyes nothing is ploy of Mr. Miles Fry, in Catawba county, has mysteriously disappeared, sacred that stands between them and popular applause.

"H. M. S. PINAFORE."-This must be a very remarkable production. It has set wild London, New York, Boston, Philadelphia and all the principal cities. Its run is immense and last week it was given to immense crowds in five different theatres of New York city at the same time. It is comic opera, a burlesque, a travesty of the most extravagant kind. It is described as foolishness of the most delicious order, and the most insufferably funny thing that was ever put upon the stage. Nothing at all like it was ever seen before. The music is strikingly fine, and the language and situations ludicrous beyond anything. "H. M. S. Pinafore" is one of the war-ships of her majesty the queen of England, and the opera (of English origin) is in ridicule of the Lord of the English Admiralty, but so well adapted that its somewhat local character does not detract from its general interest. It promises to become a world-wide celebrity. American newspapers already abound with quotations from it, and gressing. A large company of hands every day now one sees, used to make some hit or other:

"JAPTAIN-Never.

THE FIGHT FOR THE PRESIDENCY. It is said by a well informed newspaper that every move made in the Senate now by either Thurman or Bayard, has a bearing, direct or indirect, upon the next presidency; and it is further said that the caucus contest over the proposed repeal of the Federal supervisor and test oath laws, has been waged not upon its merits but by Thurman and Bayard, each with the Dr. Eugene Grissom, superintendent view of defeating the peculiar plans of migration of colored people. FORTY-FIETH CONGRESS

Hoar called up a resolution to pay Jos. Segar \$5,000 in full compensation for his expenses in prosecuting his claim to a seat in the Senate as Senator from the State of Virginia in 1863.

Agreed to—yeas 34, nays 26.
The Senate resumed the discussion of the bill to amend the revenue laws, the pending question being on the amendment to tax tea 10 cents per pound and coffee 2½ cents per pound. A division of the question was ordered, and the vote was first taken on taxing tea 10 cents per pound. It was rejected—yeas 4, nays 57. The amendment to tax coffee 2½ cents per pound was rejected without a division. The amendment increasing the tax on tobacco from 16 to 20 cents per pound was rejected—yeas 21, nays 42. An amendment to exempt from certain provisions of the existing law small distilleries whose daily capacity does not exceed 30 gallons, was agreed to. An amendment allowing a drawback all manufactured tobacco upon on which the tax of 24 cents per pound has been paid by suitable revenue stamps, equal in amount to the difference between the value of such stamps at 24 cents per pound and the value of such stamps at any reduced rate fixed by act of Congress, was rejected. The Senate agreed to an amendment that the act take effect 1st of May instead of the 1st of April as proposed by the committee. After other amendments

the bill passed. The postal appropriation bill comes up as unfinished business to-morrow. Resolutions of respect to the memory of the late Representatives Schleicher and Quinn were adopted and the Senate adjourned. House.-The House refused to con-

sider the reports from the committee on ways and means or to proceed with the legislative appropriation bill and is now in committee of the whole for the consideration of the census bill.

The first amendment, transferring the power of appointing supervisors from the secretary of the interior to the governors of the several States, with an amendment so as to provide that if any governor shall fail to make the nominations of supervisors before the 1st of April, 1880, the secretary of the interior shall make such appointments, was

From parties just in from Neosho

we get brief particulars of an adjustment of personal difference between Mr. P. Donan, of the Bentonville Advance, and L. P. Cunningham, a leading attorney of this city. The matter proved quite a sensation for that quiet village. Mr. Cunningham has been in Neosho since Tuesday on railroad business. On Tuesday night Mr. Donan came to Neosho to deliver a lecture on

"Woman." Yesterday morning at the hotel Cunningham called Donan to account for certain scandalous statements made about him, charging certain things as occurring while he was President of the M. C. and N. W. Railroad Company. The result of the conference was that Donan signed an important paper, of which the following is a copy:

NEOSHO, Mo., Feb. 7, 1879.—I, Co. Р. Donan, do hereby state that I know nothing against the character of L. P. and malicious, and was induced by a feeling of ill-will on my part, because I was not included as a member of the Kansas City, Joplin and Little Rock Railroad Company; and what I have said against him was to injure that company in constructing its railroad, and at the instance of persons interested in preventing the building of that railroad, and I hereby retract all that I have said and written against said P. DONAN. Cunningham.

After Donan signed the above, Cunningham ordered him out of the room, and facilitated his journey down stairs with a vigorous application of his boot. With this striking tableau the war

Nerve Inquietude and Its Remedy. Restless nerves, at least those that are constan ly so, are weak ones as well. The true way to tranquilize them thoroughly is to strengthen them. It may be, nay, it very often is necessary to have recourse to a sedative or even an opiate, in dangerous cases of nervous inquietude, but the continued use of such unnatural palliatives, is greatly Cunningham; that all I have said or to be deprecated. Though not, in a restricted written against him I knew to be false sense, a specific for nervousness, Hostetter's Stomach Bitters is eminently calculated to allay and eventually overcome it, a fact which the recorded experience of many goes to substantiate This inestimable tonic, by promoting digestion, assimilation and secretion, touches the three key notes upon which the harmony of all the bodily organs depends, and the result is that fresh stores of stallty are diffused through the system, of which the nerves receive their due apportionment, and

Quicken the Circulation.

Don't let the blood stagnate in your veins. You can prevent its doing so by increasing its volume and purity, by stimulating the digestive organs, and raging assimilation, with that matchless vitalizing agent, Hoste 's Stomach Bitters. Peo-ple not afflicted with any organic or inorganic disease, grow wair and haggard simply because their blood is thin, watery, deficient in neurishing properties and so meager in quantity that the ex-tremities are very imperfectly supplied with it, and the superficial circulation extremely feeble. Hence the bloodless appearance of the con when the Bitters are used to enrich and quicken the blood, the rosy hue of health returns to the cheek, the frame acquires substance as well as vigor, the appetite improves, and no digestive qualum interfere either with its gratification or the subsequent tranquility of the stomach.
