### NEW DEPARTURE.

On the 22d of September last, in putting on a new dress, THE DAILY OBSERVER adopted the rule to exclude all double column advertisements and all cuts. After five months of experience, we have decided to eancel the rule. Double column advertisements necessitate the cutting of column rules, and these will be charged twenty-five per cent. more than our regular rates, and will only be inserted on the first and fourth pages of the paper. The recent changes in the arrival and departure of mails, make it necessary that changes in contract advertisements be sent in by three o'clock in the afternoon.

## HOME PENCILINGS.

The Inferior Court is drawing its work rapidly to a close. It will adjourn to-day. The mountains are still covered with snow and it is still lying on the ground

at Morganton. A policeman reports this week as

having been more prolific of drunks than any other of the new year The 17th of March is the anni-

versary of St. Patrick-Ireland's patron saint. It has never been observed in Charlotte by our Irish citizens, because they have no regular organization.

Two countrymen were up before the mayor, yesterday morning—Charley Maxwell, for drunkenness and disorderly conduct, was fined \$10 and cost, and Cross Manager 10 and cost, and Green Macaulay for plain drunkenness, was lifted for \$2 and cost.

The clerk of the board of aldermen gave notice, yesterday, to the railroad companies of the ordinance recently passed requiring flagmen at the crossings of Trade street. The ordinance goes into effect on the 1st of March.

A telegram received in the city last night from Adjutant General Jones announced that he had changed the place for the election of the officers of the second regiment from Wadesboro to Wilmington. The time remains unchanged -next Tuesday.

By reference to our advertising col-umns it will be seen that Mr. R. S. Col-lins will begin a writing school over the Traders' National Bank Tuesday evening next. Mr. Collins stands very high in this community as a penman, and we wish his enterprise that success which his merits deserve.

To our young friend Ross, at Tiddy's book store, we are indebted for a number of illustrated papers, among them Frank Leslie's Illustrated Newspaper for March 1st, which contains engrav-ings of Senators Vance and Voorhees, with sketches of their lives. The picture of Senator Vance is very excellent. Voorhees looks like Gen. Leach.

The treasurer of the relief association, in response to the appeal made in vesterday morning's paper, received three contributions and desires that three contributions and desires that they may be publicly acknowledged in the paper that it may induce others to follow their example. The contri-butions were \$5 each from Messrs. A. P. Newheart and E. S. Burwell, and \$2 from Mrs. Rufus M. Johnston.

Town Officers of Bavidson College. Davidson College has been incorporated by the General Assembly now in session. The following named persons are those named in the act of incorporation as the town officers, and these, as we learn from The Daily Phonograph, have assumed the reins of government:
Mayor, W. P. Williams; Marshal, John
R. Johnston; Commissioners—F. J.
Knox, H. P. Helper, Sam'l Thompson,
R. L. Query and W. T. Martin.

G. W.'s Hemedy. On this the 147th anniversary of the death of George Washington, and during this the season when colds are most prevalent, there is something of the eternal fitness of things in recalling the remedy of the father of his country for colds, given by him to an old lady in Newport, when a very young girl, in 1781. He was lodged in her father's house—the old Vernon Mansion—and as she was seat early to bed, with a bad cold, he remarked to Mrs. Vernon: "My own remedy, my dear madam, is always to eat, just before I step into bed, a hot roasted onion, if I have a cold."

Yesterday, while the pay train on the Charlotte, Columbia & Augusta Railroad was shifting at Winnsboro, a brakeman, Marion Wood, colored, in endeavoring to couple a car to the engine, failed to guide the draw-bar properly and was mashed to death between the tender and the car. The train with those in charge was detained until the inquest could be held. Though there was no sign of a bruise upon the man's body death was almost instantaneous.

### The Big Orphan Heard From.

Three is no doubt about it; the big orphan has been heard from. A Charlottean who is at present in Jacksonlottean who is at present in Jackson-ville Fla., writes under date of Feb-ruary 17th: "I met Whitley, the big orphan, here a few days since. He was not looking quite so spruce as when in Charlotte. He says he is in the coun-try growing oranges now for a living, but he would not tell me where he lives." And so he is strolling among orange blossoms and his adamantine cheek is fanned by the softest and gentlest of zephyrs. Gone to meet gentlest of zephyrs. Gone to meet Littlefield, in

\* \* the land where the cypress and myrtle are emblems of deeds that are done in their clime.

### The German Last Night.

The largest, and by far the most brilliant german of the season, was given at the Central Hotel last night. Twenty-three couples were on the floor, and a large company of invited guests were present. Among the dancers were three or four visiting young ladies, and a half dozen young gentlemen from neighbor-ing towns and cities. The dance was gracefully led by Messrs. W. R. John-ston and R. M. Miller, Jr., the dressing was unusually elegant, and altogether the affair was the most delightful of the kind ever given in Charlotte. The festivities were kept up till quite a late hour, and many and flattering were the compliments bestowed upon the two young men to whom the company were indebted for so elegant and enjoyable an entertainment. ...

#### The Recklessness of a Little Girl.

Yesterday, at the intersection of Ninth street and the North Carolina Railroad, a little girl, a pupil of the Institute for Young Ladies, got on the track in front of a shifting train which was approaching the crossing at a pret-ty swift rate, and stood there. A number of her companions, and several male passers-by noticed her and saw that she did not move as the engine neared her. The engineer blew brakes as he neared her, and her companions and the men near by begged her to quit the track. She remained immovable, however, and at the last moment the engineer reversed his engine. The momentum of the train kept it in motion, and against the entreaties of all in hearing, the girl stood upon the track until the pilot was in two feet of her, when she jumped aside and es-

It was a most foolish venture, all for an emminent success, for all who saw her imminent peril were white with He was for a number of years professor fear, expecting every second to see her crushed and mangled beneath the massive wheels of the locomotive. As it was their expectations were disappointed by hardly more than a hair's breadth.

### Footlight Notes.

Still the opera house books are not marred by a single engagement for the present season.

Charleston critics praised Kate Claxton and her company. An Augusta paper agrees with our estimate of both. says: "Kate Claxton's company is the poorest that has been to Augusta in a long time. Kate, herself, is far from being a star, notwithstanding the fact that she has had some bright experiences.'

The Diplomacy Combination is said to be the best company that has visited the South this year. We trust that it may yet visit Charlotte.

An Atlanta military company also paid its respects to Mrs. Knowles, of the Mendelssohn Quintette Club, when the company was in that city.

Billy Emerson's Minstrels are again
in the South. One of the features of their programme is to present each person in the audience with a sheet of

music. The curtain, in its descent at the close of the last scene of the "Double Marriage," in Augusta, Tuesday night, struck Miss Maggie Harold, the Jacintha of the play, on the head, knocking her senseless for a time.

The Soirce Musicale Last Night. The chapel of the Institute for Young Ladies was crowded last night, and quite a number of persons were compelled to turn away from the door being unable to find standing room. The occasion was the first soiree musicale by the young ladies under the new regime, and it was in all respects a highly enjoyable entertainment. The music was under the direction of Prof. Bidez, assisted by Mrs. Dewey, and was alike a credit to teachers and pupils. The programme, opening with a song by the whole singing class rendered with excellent time and spirit, was pleasantly interspersed with vocal and instrumental music. The audience showed its appreciation by frequent and hearty applause. Many of the young ladies appeared in public for the first time, but acquitted themselves handsomely and with self-possession and grace. The singing was excellent, and showed that the vocal talent for which Charlotte has been distinguished is by no means declining. We refrain from mentioning ames.

It is somewhat humiliating to state thnt Prof. Bidez was unable to carry out the entire programme on account of the noise kept up by a portion of the audi-

#### That Lump of Gold-The Metal in Cabarrus County.

Dr. D. W. Flow yesterday brought to the city the lump of gold weighing four-teen ounces, recently picked up on the plantation of Mr. James Ervin, in township No. 1, Cabarrus county. The lump is oblong in shape, and is perfectly pure.
At the usual price for gold it is worth
\$252, but will of course bring more than this as a specimen, being the largest lump found in North Carolina for many years. Cabarrus county stands out prominently in the history of gold mines in this country. Wheeler's history of North Carolina asserts that this was the North Carolina asserts that this was the first place where gold was found in the United States. The same authority gives the history of the finding of the solid lump weighing twenty-eight pounds, in the year 1803, by a company composed of John Reid, Frederick Kisor, James Love, and Margaret Phifer. This was on the property afterwards known as the Reed Gold Hill mine. From the same place in the following year, were gathered pieces weighing nine, seven, three, two and one and three quarters pounds, respectively. In 1824 three lumps were found whose combined wights were thirty-three pounds and a half, and in 1835 five pieces were found, which aggregated thirty and the same thirty thirty and three quarter pounds. The total weight-of fourteen lumps found

between 1803 and 1836 was one hundred and fifteen pounds. These are facts which are familiar to many North Carolinians, but not generally known. Let these North Carolinians tell them to people who are looking for investments and have the money to operate mines in this and adjoining counties.

The remains of Gen. R. H. Chilton, president of the Columbus (Ga.) manufacturing company, and during the war assistant adjutant-general on the staff of Gen. R. E. Lee, who fell dead in Columbus last Tuesday, passed through Charlotte this morning en route to Virginia, the former home of the deceased, for burial. The military of the gity had for burial. The military of the city had under consideration, yesterday, the idea of turning out in a body this morning, and as a mark of respect meeting the remains at the depot, but it was decided, owing to the unseasonable hour at which the Air-Line train passes, and to the further fact that there is no transto the further fact that there is no transfer to be made at the depot here, to abandon the idea.

Inferior Court. The case of the State vs. Isaac Phifer. Wyatt McMaster, William Springs and Columbus Moore, all colored, for lar-ceny of cotton from the platform, begun day before yesterday evening, was not concluded until 11 o'clock at night, the jury returning a verdict at that time of guilty as to Springs and McMaster, and not guilty as to the others. The guilty

The court spent all of yesterday in the trial of Gilbert Harris and Wm. McNeely for larceny of cotton. The jury had returned no verdict several hours after the time for the court to ad-

parties were sentenced to two years in

the county jail; appeal to the Superior

The trains on the through lines were perhaps never before so regular during winter season as they have been durng that now about ended.

The Charlotte, Columbia & Augusta pay-train is expected in this morning.

The talk among railroad men is about he manner in which Mr. Dortch, of Wayne, warmed the Carolina Central in the Senate the other day.

They say that the first five miles of the Winston and Salem & Mooresville

Railroad from Mooresville, has been graded and is ready for the track.

Mr. James Murphy, famed as a runner, is the oldest engineer on the North Carolina Railroad. He has seen twenty-one consecutive years' service on it. He worked on it under the first administration, and has been working on it ever since and out of the twenty-one ever since, and out of the twenty-one years he has not lost, altogether, one month's time.

## The Dallas Academy and Its Princi-

It happens that there are two teachers in this section of the State named T. B. Bailey, and in speaking of the opening of the male academy in Dallas yesterday, we got hold of the wrong man. Prof. T. B. Bailey, a brother of Mr. W. H. Bailey, of this city, is the one who is to take charge of the school. This gentleman graduated at the University of North Carolina in 1845, studied law under his father, the late Judge J. L. Bailey, and began the practice in 1846. In the following year he removed the purpose of frightening the behold- to the Southwest, and having abaners. In this sense the girl's prank was | doned his profession, engaged in teachin the Female Institute in Columbus. Miss., and afterwards an assistant in the Lovejoy Academy in Raleigh. He has the reputation of being a very fine teacher.

#### Next Superior Court-Change in Order of Business.

Solicitor Montgomery asks that it be published for the information of the par and civil suitors that Tuesday and Wednesday of the first week of the ensuing term of the Superior Court can be devoted to the trial of civil cases. The reason of this is that at the last term. owing to the very large civil docket, he did not send any bills except for those offenses of which the Superior Court had exclusive jurisdiction, all of which were tried at the last court. The Pethel case, moved from Iredell, is set for trial, he understands on Thursday. Those parties in jail, charged with capital felonies, will be tried at a later day of the term. It would be impossible to try them before Thursday as the bills have not been passed on by the grand jury. Other city papers are asked to give this matter publicity, as it is one of considerable importance to those interested. Another Version,

Considerable comment was excited in this city a few days since by the publication in The Observer of an article from the Joplin (Mo.) Herald detailing the circumstances attending the eating of a large quantity of dirt on the part of Col. P. Donan, who is quite well known here as indeed throughout all parts of the State. It had not been supposed that the colonel was the kind of cat that the Missouri paper represents him, and Mr. J. F. Dotson, of Iredell county, who was in Charlotte a few nights ago on his return from a trip to Missouri, during which he visited both Joplin and Neosho, at the latter of which places the incident referred to is said to have taken place, gives another version of the affair. He says that Col. Donan went to Neosho, as stated, to deliver his lecture on "Woman," and that on the morning after his arrival he was invited by Mr. Cunningham, the lawyer, to go with him to his office; that Donan went, and that no sooner had they entered the office than Cunningham closed the door, placed a pistol at the head of his guest, and told him to sign a paper which lay on the table. Donan signed with the necessary alacrity, and after having been released proclaimed generally that he had in fact signed the paper, but that it was a lie, and that he had signed it under pressure of the revolver. Furthermore, that for the undue advantage taken of him he would yet make things lively for Mr. Cunningham, etc., &c.,

## Ease Attainable by the Rheumatic.

Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys—important channels for blood purification—the acrid element to which pathologists the most eminent attribute the painful symptoms—a theory completely borne out by urin aty analysis. The name of this grand depurent is Hostetters, a preparation likewise celebrated as a remedy for constipation, which causer contamination of the blood with the bile—and a certain means of relief in dyspepsia, fever and ague, and nervous ailments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysts who pronounce it to be eminently pure and very beneficial. The press also endorses it.

## Remarkable Result.

It makes no difference how many physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives try just one bottle. Regular size 75 cents. Sold by all druggists in America.
