Body Snatching in Union County. (Monroe Express)

A few days ago some negroes living on the old Sykes place, four miles east of town, noticed marks about the grave of Mr. Sykes, a gentleman who had been dead for thirty years, which seemed to indicate that the grave had recently been opened for some purpose.

Mr. John Sykes, a well known citizen of the county, and son of the deceased gentleman, was apprised of the discovery, when he went to the grave to investigate, and found indications which satisfied him that such was the fact.

He immediately proceeded to open the grave. Indications, convincing in their character, were found; large roots were found to have been cut in two, and a portion of one side of the coffin, which was nearly perfectly sound, was broken off. The reason for this act of vandalism is unknown.

The only circumstance which throws any light upon the mystery, is the remark made by the negroes, that a negro who was recently in the neighborhood, that if he possessed the bone of a dead person anything which he desired.

Quicken the circulation. Don't let the blood stagnate in your veins. You can prevent this by increasing its volume and purity, by stimulating the digestive organs, and by using the only medicine which matches vitalizing action, Hostetter's Stomach Bitters.

People not afflicted with any organic or inorganic disease, grow wan and haggard simply because their blood is thin, watery, deficient in nourishing properties and so on.

Consumption Cured. An old physician, retired from practice, having had placed in his hands by a friend, a small bottle of Dr. Williams' Pink Pills for Pale People, he was induced to give it a trial.

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin.

There is a dearth of consumption which is better indicated by the old fashioned name of "diphtheria." It is the dreaded scourge of some parts of the Southern States, claiming more victims every year than any other disease.
