DOG FIGHTING IN NEW ORLEANS.

The First of the Contests Between New York and Boston Animals

[Dispatch in the New York Sun.

NEW ORLEANS, March 2.- After much tribulation yesterday it was determined that the first of the dog fights between Harry Jennings's stock of New York ter investigating them they decided from the Superior Court a writ of that the remains were those of Indians. habeas corpus. On the trial the judge decided the law prohibiting such sports

unconstitutional and the fight could go on. Last evening, according to notice, there assembled at Murphy's cock-pit in the upper limits of the city one of the most heterogeneous crowds ever under one roof. Sporting men, 'longshoremen, and some gentlemen to the number of about 250 took their places and awaited the arrival of the dogs. It was exactly 9 o'clock when the fight was begun. Boston brought out a brindle and white dog, weighing twenty-eight pounds current throughout the State, and gen- with a most vicious head, and New York a white and yellow named Croppy, that Representative Nat Atkinson, of Buncombe, would, during the present was the favorite before the dogs were let go, but Jennings' friends soon rallied and betting became even.

After the owners of the dogs had definitely ascertained that the hide of neither contained no poison, the dogs went at it with a will. Jennings's dog made a desperate rush, and, seizing his opponent with a throat hold, complete westled him, and threw him neavily. Both dogs from the start showed remarkable pluck, and were fearfully punished. Their heads and sides were covered with blood, and from their mouths blood flowed copiously. For two hours and seventeen minutes this was kept up, and no one could say which would win. At two hours and eighteen minutes Peter, the first entry get Croppy's head in his jaws, and, although he was given up once for dead, he made New York yell with pain and run around the pit.

referee's decision. He ordered Jennings to put his dog head to head with the other in the centre of the pit, which he refused to do. Accordingly the \$200 on the fight was turned over to Thornton. This afternoon some three hundred persons assembled at Murphy's cockpit to see the second dog fight between Massachusetts and New York. The former State had entered Spot, a yellow and white 28-pound dog, and Lowell, Mass., a dog of the same color and weight named Dan. Just before the dogs were to be placed in the pit a sergeant of the same time, threatening the arrest of the parties interested if it was begun. He alleged that he had orders from one

Mr H R Stevens --

Baltimore, Md., Feb. 13, 1877.

Mr. H. R. Stevens:—

Dear Sir—Since several years I have got a sore and very painful foot. I had some physicians, but they couldn't cure me. Now I have heard of your Vegetine from a lady who was sick for a long time, and became all well from your Vegetine, and I went and bought me one bottle of Vegetine; and after I had used one bottle, the pain left me, and it began to heal, and then I bought one other bottle, and so I take it yet. I thank God for this remedy and yourself; and wishing every sufferer may pay attention to it.

PATAPSCO

BAKING POWDER.

The Patapsco Baking Powder is unquestionably healthful, and is in daily use in the families of the proprietors and by every employe in the factory. This simple fact will be a sufficient answer to every fair-minded person on this point. When manufactured the sufficient answer to every fair-minded person on this point. facturers use daily on their own table the same ar-ticle they commend to the public, they give the strongest and most unequivocal opinion of its mer-its. But to place the healthfulness of our Baking Powder beyond question, read the clear and en phatic testimonials of the following distinguished chemists and physicians on this point, and also as to its practical utility.

BALTIMORE, Nov. 30, 1878. Messrs. Smith, Hanway & Co., Messrs. Smith, Hanway & Co.,

Clents—The Patapseo Baking Powder is a theroughly scientific combination, and great skill has been shown in devising it. It particularly commends itself by the slowness in which the carbonic acid is generated. It requires heat for the complete evolution of the gas; hence in baking, the bread must become lighter than when ordinary powders are used. I use it in preference to all others in my own family, which emphatically expresses my opinion of its healthfulness.

Respectfully,

P. B. WILSON.

P. B. WILSON,
Analytical and Consulting Chemist,
No. 30 Second St., Baltimore. UNIVERSITY OF MARYLAND January 8, 1879.

Messrs, Smith, Hanway & Co., Gentlemen—I have examined the composition of your Patapaseo Baking Powder, and can certify that it contains nothing that can be in the least degree objectionable or injurious to health. I consider it a judicious and valuable preparation, and when used according to directions it must be considered perfectly sets and wholesome. Since all the active perfectly safe and wholesome. Since all the active constituents undergo important chemical changes, when the Baking Powder is used, it is absurd to suppose that any of these can be transferred unchanged to the food prepared with it. The whole value of the preparation depends on this chemical action which liberates the carbonic acid gas remarked and its resulted walks and the control of the preparation of the preparation of the preparation of the preparation depends on this chemical action, which liberates the carbonic acid gas remarked and its resulted and the carbonic acid gas reaction which inderates the carbonic acid gas re-quired; and its peculiar value depends on the slow and gradual manner in which this action goes on. It is simply impossible to detect the slightest trace of alum or any other deleterious substance in bread or any other article of food prepared with the Patapsco Baking Powder, Respectfully, &c., WILLIAM E. A. AIKIN. M. D., &c.,

Prof. Chem & Pharm. BALTIMORE, Jan. 11, 1879. Messrs. Smith, Hanway & Co.,
Gentlemen—I do not see how I can add anything on the subject-question, to the full and explicit opinions of Profs. Wilson and Aikin, except to express my surprise that any chemist or other educated person could find anything injurious in the powder to which you refer, or in its effects and results as used.

ST. NICHOLAS.

SCRIBNER'S ILLUSTRATED MAGAZINE FOR GIRLS AND BOYS. AN_IDEAL CHILDREN'S MAGAZINE

Messrs. Scribner & Co., in 1873, began the publication of Sr. Nicholas, an illustrated Magazine for Girls and Boys, with Mrs. Mary Mapes Dodge at editor. Five years have passed since the first number was issued, and the magazine has won the highest position. It has a monthly circulation of

OVER 50,000 COPIES.

It is published simultaneously in London New York, and the transatiantic recognition most as general and hearty as the American. And though the progress of the magazine has been steady advance, it has not reached its editor's idea of best, because her ideal continually outruits it and the magazine as swiftly follows after. Today ST. NICHOLAS stands

The arrangements for literary and art contribu-tions for the new volume—the sixth—are complex drawing from already favorite sources, as well a from promising new enes. Mr. Frank R. Stoq. ton's new serial story for boys, "A JOLLY FELLOWSHIP."

Will run through the twelve monthly parts,ginning with the number for November, 1878, he first of the volume,—and will be illustrated by Jac E. Kelly. The story is one of travel and adventure in Florida and the Bahamas. For the girls, a con-

"HALF A DOZEN HOUSEKEEPERS." By Katharine D. Smith, with illustrations by Fred. erick Dielman, begins in the same number; and a fresh serial by Susan Coolidge, entitled "Bre-

bright," with pienty of pictures, will be commenced early in the volume. There will also be a commenced used fairy-tale called

"RUMPTY DODGET'S TOWER." Written by Julian Hawthorne, and illustrated by Written by Julian Hawthorne, and mustrated by Alfred Fredericks. About the other familiar features of St. Nicholas, the editor preserves a good-humored silence, content, perhaps, to let her five volumes already issued, prophesy concerning the sixth, in respect to short stories, pictures pooms, the transfer extends, and the line and her humor, instructive sketches, and the lure and for of "Jack-in-the-Pulpit," the "Very Little Folks department, and the "Letter-obx," and "Right"
