HOME PENCILINGS.

The Superior Court of Cabarrus begins Monday.

Horse swpaping and horse trading is still the popular diversion.

Butter and eggs are both very cheap and plentiful in this market just now, especially the latter.

Within the last few days, the peach trees have burst into full bloom, and the elms are budding rapidly.

The meeting of the reading club was not held last night on account of the weather, and was postponed till tonight.

The visiting attorneys interested in the capital cases, which were to have been tried at the late term of Mecklenburg court, have all departed.

It is Davis & Wolfe who have bought the Smith compost grinder and distrib-ator and cotton planter and not Smith & Davis.

Five bales of Peeler cotton of excellent grades and staple, were sold on this market yesterday by Mr. E. B. Stowe, of Gaston, to B. R. Smith, at 1056.

A genuine thunder storm in March is something unusual; but we had one vesterday, and it behaved in every way like one of August's production.

Wise and prudent citizens will burn out their chimneys the first rainy day we have. The foul chimney is almost as powerful an enemy as the unsuspected ash-box.

The expense of the Pethel case to Rowan county may be imagined from the fact that the witnesses' tickets alone at this term of Mecklenburg court amounted to about \$350, and the case is not yet tried. 12 1.1.

Mr. L. Berwanger, of Berwanger &. Bro. goes North to-day to buy his stock of spring goods, due notice of the arrival of which will be made through the advertising columns of THE OB-SERVER.

This warm, comfortable, lounging weather is too much for the local poliicians. It is too suggestive of the first Monday in May not to say just a little about the next mayor, and hence the talk has been begun. 114 11 111

Good cheer for Consumptives.

Good cheer for Consumptives. There is a form of consumption which was better indicated by the old fashioned name of "decline." It is the dreaded scourge of some parts of the Southern States, elaining more vicilities every year than are swept away by the most terrifile visitations of the yellow fever. The malady arises from the inability of the patients' system to take up and as-similate the nourishing ingredients of the food that is order. Some years ago the medical profes-sion with remarkable unanimity, agreed that Cod Liver Oil contained the most concentrated and easily absorbed elements of nutrition. If the nau-seous taste and smell of the oil could be avoided it would unquestionably be the most sovereign remeforth like a strong man rejoicing to run a race. They are painted green; the fire of youth gleams from the eye of the untamed steed which furnishes the motive power, and the manly pride which sits upon the brow of the gen-tleman on the box as his eye takes in the get-up of the lay-out, is too plain to be concealed. The entire turn-out is just too nobby for anything.
