THE NEW YORK WALKING MATCH. 'Tis singular what things will stir a nation up. America is now agog over the walking match in Gilmore's Garden, New York City. Before the second day of the match was half over \$11,000 had been taken in at the gate, and during the third day there was a riot among ten thousand people who besieged the door unable to get inside. An idea of the excitement in New York over the match may be gathered from the above statements and from the further statement that the Sun's report of Wednesday's walking occupied five columns in the fine type of that enterprising journal. It may be said that this argues nothing, but it argues everything. Such prominence would not be given such foolishness in a discerning journal if the people did not demand and did not having refused to impeach the incrimidevour every word of the report.

THE COMING CONTEST .- The Washington National Republican of Wednesday, in a lengthy double-leaded article, makes the announcement that the President will approve of the repeal of the jurors' test oath law and of the statute authorizing the use of troops at elections, but that he will veto the repeal of the election supervisors' law The Republican says its statements are not made with the President's knowledge or consent, but "are nevertheless as reliable as they would be if he were permitted, under the proprieties or courtesies of public position, to authorize their publication." The Washington Star says the statement is reliable, and calls attention to the fact that the same thing was stated by it last Friday.

A TRIBUTE TO COL. ALSTON.-One of the finest pieces of word-painting, we have seen in many a day has been drawn from Col. Henry W. Grady, of Atlanta, by the tragic death of his devoted friend, Col. Robt. A. Alston. It appears in the Atlanta Constitution of Thursday, and its genuine eloquence 000 to £160,000. and its deep and thrilling pathos, lays the temptation strongly upon us to reproduce it entire; for no matter who the subject might have been, such a tribute as is paid him, such writing as that of Col. Grady's, can claim no merely local interest.

In the House, Wednesday, Lir. Ardrey, of Mecklenburg, dealt the "castiron retrencher" a severe blow between the eyes, and one which is bound to

diocese, which condemns the Irish World, published in New York, as being antagonistic to true Catholic principles; condemns labor unions for their secrecy; forbids Catholic parents under threats of ex-communication from sending their children to the public schools where Catholic parochial schools are easy of access, and gives the Hibernians a severe reprimand for not allowing the priests to act as their spiritual advisers. The bishop urges upon Catholics the necessity of subscribing to the diocesan Catholic journal in preference to all others, and

repeats his order to young Catholics not to marry outside of their religious faith. His letter concludes with important suggestions as to funerals,

. The Contending Factions in France.

LUNDON, March 14 .- The Paris correspondent of the Times says: "The chief interest of yesterday's vote in the Chamber of Deputies was whether the government would be supported by a majority of the Left. On this point all reasonable expectations have been fulfilled. The government, in the projection of the impeachment, obtained a majority of 40 in the moderate Left against the extreme Left. Such a majority leaves the ministry open to defeat by a coalition between the extreme Left and Right. The order of the day, pure and simple, moved by M. Clemencean, on the ground that the Chamber nated ministers had no right to censure them, was rejected by 224 votes of the

Left to 187 of the extreme Left and the right.

Proposed Retirement of Army Officers.

WASHINGTON, March 14 .- It has been erroneously stated that the Secretary of War will retire all officers reported for retirement by the army examining board and fill the vacancies so created by promotions without awaiting congressional action. It is not the intention of the Secretary to carry any promotions into effect without the sanction of the Senate. About thirty officers are to be retired, including several of high rank, but the names of their successors will be submitted to the Senate as soon as it re-assembles, for confirmations. The list of officers retired and the candidates for promotion will be made public as soon as they are made up by the Secretary of War. -----

It would seem to be a truth apprecia and especially by professors of the healin to remove the disease, not to alleviate toms, should be the chief aim of medica in how many instances, do we see this mitted in theory, ignored in practice. The reason I M P E B I A L S A L O O IN that Hostetter's Stomach Bitters is successful in so many cases, with which remedies previously tried were inadequate to cope, is attributable to the fact that it is a medicine which reaches and removes the causes of the various maladies to which it is adapted.
