

"Free from the dotting scruples that fetter our free-born reason."

SATURDAY, MARCH 22, 1879.

There is something touchingly sublime in the child-like confidence of the Republicans of Georgia who, it is said, contemplate a re-organization of the party in that State.

Our State taxes this year will be lighter than they were last. They will be lighter than they were last. They will be lighter than they were last.

After all the work of the political economists; after all the plans which have been devised by the States, counties and municipal organizations, the city of Charlotte is the first to find a solution of the tramp problem. Fine them \$30!

The California papers assert that the trouble with the Alaska Indians grew out of the free introduction of whiskey. The Russians never had any trouble with the Indians, but then they had no peace commissioners and no post traders.

TENNESSEE'S DEBT.—The Tennessee Legislature will adjourn on the 31st inst., and still no provision has been made for the compromise or payment of the State debt. The papers intimate that there has been some degree of crookedness in manipulation of Tennessee bonds, and that certain prominent persons will probably find themselves smirched when full report is made.

THE CAMERON-OLIVER CASE.—A sweet mess is this trial of ex-Senator Simon Cameron for trifling with the affections of the Widow Oliver. The trial is now in progress in Washington, and it is there any difference between it and the Beecher-Tilton trial, the odds are in favor of the latter. The widow's testimony against Simon is just about as obscene as anything that the strong-stomached newspaper has ever made up its mind to print.

A PROPOSED NEW STATE.—We see it stated in the newspapers "that it is proposed to form the State of 'East Tennessee' out of thirty counties east of the Cumberland Mountains, in Tennessee, then one or two counties are to be borrowed from Kentucky and four from North Carolina and two from Georgia."

North Carolina could and would with great sincerity say of such of her western counties as might be wanted for this new State, "Let the wayward sisters go in peace." We could spare them—year, yearly, we could.

THE TILDEN MOVEMENT BOOMING.—The recent sudden and exciting changes in certain of the State officers in New York city are claimed to be the work of Mr. Tilden, and one account says that "this coup d'etat, coupled with the success of Randall at Washington, fills the air with predictions of Tilden's nomination in 1880." Further, it is said that New York politicians on all sides declare that, by the middle of next month, Tilden will be in control of Tammany Hall itself, and therefore master of the whole Democratic party of the State.

THE SOUTH AND THE PRESIDENCY.—The Savannah News does not regard Mr. Tilden as the strongest candidate the Democracy could put forward for the presidency, but says, if he is nominated, "the South will accord him once more an undivided support." Which is all very true, the South having seen that her only salvation is in the supremacy of Democratic principles. The thing said of Mr. Tilden might with perfect truth be said of any other true Democrat, but says, if he is nominated, "the South will accord him once more an undivided support." Which is all very true, the South having seen that her only salvation is in the supremacy of Democratic principles.

PERIODICALS.

Scrappers for April has arrived, and its pages present a most delightful treat. It is so beautiful a specimen of the typographical art, and the illustrations which ornament it are always so apt and so handsomely executed that the reader is drawn toward it at first sight, and the better one knows it the fonder one becomes of it. We cannot undertake here to give a list of the contents of the current number; that is not the purpose here; only desire to refer in general terms to the merits of this publication and to tell the reader that he can get it for \$4 per annum, or a single number for 35 cents by addressing Scribner & Co., New York.

St. Nicholas.—With the above comes St. Nicholas, published by the same firm and conducted by Mary Mapes Dodge. Though young in years, this excellent and highly ornamented monthly has acquired an unprecedented popularity. It is par excellence the children's journal; they cry for it, and from its pages learn much that interests them and is of profit to them. No child but is delighted with it; and none that has ever had it will consent to do without it. Its terms are 25 cents a single number or \$3 per annum, and it may be had of Scribner & Co., New York.

Potter's American Monthly is an illustrated magazine of history, science, literature and art. It possesses many points of real excellence and some of its illustrations are very striking and attractive. Its reading matter is well prepared and of a live and interesting character, and there are few handsome periodicals. John Potter & Co., of Philadelphia, are the publishers, and the terms of subscription are \$3 per annum.

Resignation of an Ambassador.

BERLIN, March 21.—The Tagesblatt says it is rumored that Count de Saint Valler, French ambassador, has tendered his resignation in consequence of a difference with Prince Bismarck.

CITIES WITH OVER 20,000 INHABITANTS.

Commenting upon the Federal supervisor and marshal law, the New York World has been at the pains to prepare a table showing the number of cities in the United States which have a population in excess of 20,000. The number is smaller than one would suppose. The immediate purpose of this table is to show that the supervisor and marshal law bears more heavily upon the North than upon the South, since these officers cannot be appointed to control elections elsewhere than in places of 20,000 inhabitants and upwards. As a matter of interest we print this table:

Table with 2 columns: Northern States and Southern States. Lists cities and their populations.

Thus it will be seen that Vermont, Nebraska, Nevada, Oregon, Colorado and Kansas, of the North and West; Arkansas, Texas, North Carolina, Mississippi and Florida, of the South, are States in which no appointments of the character indicated, and for the purpose indicated, can be made. These marshals and supervisors may be appointed in 55 cities of the North while they may be appointed in but 14 of the South.

A circular from the treasury department at Washington suggests that persons desiring to invest in the four per cent. loan had better do so at an early day, as when the amount of 5-20 six per cent. bonds that have been called under present contracts is fully covered by subscriptions, new and less favorable terms to purchasers will be adopted for the refunding of the 10-40 five per cents.

FOREIGN CLEANINGS.

LONDON, March 21.—Professor Anderson, the celebrated chess player, died on the 14th at Breston, Silesia. A conference of the representatives of the German shipping trade was held at Bonn, Germany, recently. It was universally agreed that the shipping trade was more depressed in 1878 than for a generation. A large number of owners of wooden sailing vessels have announced the intention to keep their ships in port this spring.

Curing a Panic in New Orleans.

NEW ORLEANS, March 20.—To stop a growing panic following the late suspension of the Southern Bank of New Orleans, the Mechanics and Traders' Bank and two savings banks, all the other banks, thirteen in number, composing the Clearing House Association, have agreed to make certification of checks drawn against them on the basis of business between themselves and with depositors. Collections for distant customers, however, will be remitted for as heretofore in currency checks on New York. In effect, this action by the banks here and elsewhere has checked the panic, the price for which will be entirely removed in a day or two, when currency arrives, which is already ordered from New York and the banks held this morning about \$2,200,000 in legal tender bank notes, and \$300,000 sight exchange on New York, exclusive of their portfolios, with which to meet about ten millions due depositors. Most of the banks today received more currency from depositors than they paid out.

Intimation of an Impending Crash in London.

LONDON, March 21.—The Pall Mall Gazette says: "It would be useless to remain silent longer respecting the uneasy feeling that exists in the city. The names of institutions of high standing have been made free with in a manner to alarm those who easily lose their heads. We do not mean to deny that there may be grounds for some uneasiness. Trade generally is notoriously depressed; but we would remind those who may be discomposed by the rumors now in general to be any longer disregarded, with what facility in the present temper of the public mind a scare can be got up. Only two months ago a few people stopping to talk at the door of one of the greatest London joint stock banks actually caused a run upon it. Another point that should be borne in mind is that disasters that do happen are scarcely ever foreseen. How many persons heard anything to the detriment of the City of Glasgow Bank before it closed doors?"

One of the Imperial Russian Guard Imprisoned for Picking a Lady's Pocket.

BERLIN, March 21.—Col. Baselwitsch, of the Imperial Russian Guard, visiting this city, has been sentenced to three months imprisonment on the charge of picking a lady's pocket. The verdict is generally deemed outrageously unjust on the evidence. Colonel Baselwitsch, who is supposed to have been a victim of conspiring circumstances, has gone to St. Petersburg to lay his case before the Czar, having been liberated on an appeal, after giving his personal security for 300,000 marks.

Got More Than He Went After.

CINCINNATI, March 21.—At 2 o'clock yesterday morning, Matthew Creel, proprietor of a dry goods store at Jamestown, Ky., was aroused by a noise in the store, found a burglar behind the counter and shot him dead, fifteen buckshot penetrating his body.

One of the Handsomest in Congress.

[New York World.] Governor Vance of North Carolina is one of the handsomest men of Congress. He has a bright black eye, gray hair and moustache, a fine presence, and the Southern manner and speech.

VIRGINIA VARIETIES.

Disgraced Proceedings in the Senate.—The Debt.—The Poindeexter-Curtis Case.

RICHMOND, Va., March 21.—In the Senate today Senator Massey, of Albemarle, rose to a question of privilege and proceeded to read a paper severely reflecting on Senator C. T. Smith, of Nelson, for publishing a speech which reflected on Massey. The language of the latter was to the effect that the speech alluded to for unrefinement, indelicacy, coarseness, misrepresentations, defamation and vindictiveness, surpassed anything he had ever heard in the halls of the Legislature. Proceeding with similar severe language he was several times called to order. Smith, during Massey's remarks, denounced the latter as a liar, scoundrel and dog. A scene ensued, several propositions to reprimand the offending Senators and requiring apologies being made, but after the debate the matter was referred to the committee on privileges and elections to report what they thought the Senate should take.

The House today decided to take the vote Monday at 3 p.m. on the passage of the Wallace bill providing for the settlement of the State debt. Two more persons were obtained today in the Poindeexter-Curtis murder trial now progressing in the Hustings Court. Another batch of two hundred was ordered for to-morrow.

Vessel Sunk and Forty-Seven Drowned.

TOTLON, March 22.—The French floating battery Arrogante foundered off Hyeres in a gale on Wednesday. Forty-seven men were drowned out of a crew of 122. The storm arose during the firing practice and the Arrogante sprung a leak. The vessel was so badly damaged by the waves that she was unable to render any assistance. An effort was made to beach the Arrogante but she sank about a kilometre from the Isle of Hyeres. The Arrogante's armor was five inches thick at the water line. She carried nine six-ton guns and was of 1,338 tons burthen. Her engines were of 500 horse power.

O'Leary Yields the Cestus—Another Match Arranged.

NEW YORK, March 21.—O'Leary has handed over the champion belt to Rowell, though he has not received back the \$500 which he deposited in London before the belt was taken by him. The next contest for the title will be between O'Leary and John S. Atterley, presented by the London Athletic Club, commencing June 10th. Articles of agreement to that effect were signed yesterday between Rowell and Kniss, the latter depositing \$500 with Mr. Geo. W. Atkinson, St. John's City, as referee. The match is to be subject to the same conditions as those which governed the recent contest.

Forgery on a Columbia Bank and a Flight.

COLUMBIA, S. C., March 21.—Jas. E. Kingsley, alias Kinky, passed on the Central National Bank, of this city, yesterday a forged check for \$500. The check was for the account of J. Paul, against the Metropolitan National Bank, of New York, and escaped by the north bound train before the fraud was discovered. He is traveling with a young lady represented as his daughter, and is supposed to have made a most accomplished scoundrel.
