

RAILROAD DIRECTORY.

The following table shows the running of passenger trains to and from Charlotte, on all the railroads (Washington time):

Table with columns for destination (Richmond and Goldsboro, Atlanta, Columbia and Augusta, etc.) and arrival/departure times.

CHARLOTTE POST OFFICE.

OFFICE HOURS. Money Order Department, 8:00 a. m. to 5:00 p. m. Delivery of Mail, 8:00 a. m. to 4:00 p. m.

THE CHURCHES TO-DAY.

YOUNG MEN'S CHRISTIAN ASSOCIATION HALL.—Devotional exercises this afternoon at 4:45 o'clock. ST. PETER'S (CATHOLIC) CHURCH.—Services in the morning at 11 o'clock and in the afternoon at 5 o'clock by Rev. J. D. Doty.

INDICATIONS.

WAR DEPARTMENT. OFFICE CHIEF SIGNAL OFFICER, WASHINGTON, Mar. 22, 7:30 P. M. For the South Atlantic and East Gulf States, cloudy and rainy followed by clearing weather.

Local Report for Yesterday.

Table with columns for Barometer, Thermometer, Relative Humidity, Wind-Direction, Wind-Force, and Weather.

Meteorological Record.

Table with columns for Stations, Barom, Th, Wind, Vel, and Weather.

Index to New Advertisements.

P. L. Seigel—New Goods. Telegram & Co.—Spring, 1879.

HOME PENCILS.

It was the equinoctial storm and not a lead specimen of one that we had yesterday afternoon.

It is getting so that a man daren't light a match in Charlotte for fear somebody will raise the alarm of fire.

New moon yesterday afternoon at 2:50 o'clock; this is the fourth Sunday in Lent, and the length of to-day is 12 h. 2 m. [Almanac items.]

The street commissioner has recently received a number of the stepping stones across the main streets, in the hope that by next winter there places can be supplied by substantial rock crossings.

Scribner's Monthly says the new opera "H. M. S. Pinafore," is admirably suited to amateurs, there being only seven parts, and one scene, and the costumes being modern. Let the Goumad club undertake it.

Merchants have been notified to cease the custom of sweeping paper from their front doors into the street, complaint having been made that horses were frequently frightened by pieces of paper blowing about their feet.

Our Columbia correspondent says an invitation has been sent to the Hon. Gen. West to deliver a lecture at Columbia on the 10th of May. They will be very likely to accept, but it is a pity that this will necessitate their absence from Charlotte on Memorial Day.

During the hard rain yesterday afternoon, a prudent citizen very wisely burnt out his chimney, but the appearance of the flames caused an alarm of fire and many of the firemen ran three or four blocks to find that they had gotten wet for nothing.

The first gun in the municipal campaign is fired this morning. "Citizen" comes to the front and nominates Mayor Smith for a second term. The firing will soon become general all along the lines and "Many Citizens" will have their (his?) little say, as usual.

A large real estate owner, who rents many houses to negroes, says he hopes there will be many candidates out for mayor, and that the campaign will be a hot one. Many of his tenants, he says, are badly behind in their rents. See the point?

Forest Fire.

A forest fire broke out in Mallard Creek, in the vicinity of the residence of Mr. Blam, about two days ago, and created a good deal of excitement. It spread very rapidly and it was with difficulty that a quantity of wood could be saved. It burnt over several hundred acres of land and destroyed about a hundred cords of wood, which belonged to Mr. Robinson.

A New Paper by a Former Resident of Charlotte.

Mrs. M. E. Britton, formerly of this city, has just issued the first copy of her paper, The Home Circle, in Charlotte. It was announced to appear some time ago, but has been delayed by the accidents incident to the beginning of all journalistic enterprises. The News Courier says of the paper on its first appearance: "The first number never affords a just criterion of the probable merit of a publication of this nature. The 'set-up' is good, and the paper is free from typographical errors. It is intended especially as a medium for the development of local literary talent, and as there is plenty of material to be developed, success in that direction would be a public benefit."

The Churches and the Preachers.

Rev. Theo. Whitfield, of this city, has been selected to preach the annual sermon before the pupils of Denver Seminary this summer.

The General Assembly of the Presbyterian Church, meets in Louisville, May 29th; Fayetteville Presbytery meets at St. Andrew's church, Moore county, April 24th, at noon; Wilmington Presbytery in Second church, Wilmington, April 2d, p. m.; Concord Presbytery, Bethel church, April 23, at noon; Orange Presbytery, Eno church, same date.

The Abduction Case.

Tom Jackson, who was arrested night before last at the Air-Line depot, charged with an attempt to abduct from her home (Mrs. Milley), had a hearing before Justice Davidson yesterday morning. It seems that Jackson and his wife have been looking at the house of Mrs. Milley since they came here. Jackson testified, and there was no evidence to rebut it, that when they entered the determination to leave, Mrs. Milley, like Ruth, said that whatever the Jacksons went, there she would go also. Her husband is not in the city; in fact, left to avoid paying a fine to the mayor's court, and there was no one to detain her. She expected to pay her own legal bill, and had bought her ticket with her own money. Very little could be made out of the case, and Jackson was dismissed with the cost and a small fine, amounting to about \$8 in all, a part of which Mrs. Milley paid.

Revenue Facts.

There are 187 government distilleries in this (the sixth) collection district—more than in any other district in the United States, with one exception, and that in Kentucky. There is a little activity in whiskey now. While large quantities are being made, but little is being hauled here and little North Carolina whiskey is being shipped through here in any direction. The tax collector has a suspicion that a wagon load came in a few nights ago and was "shucked" (that is to say the barrel heads taken out and the barrels destroyed) but, then, he doesn't know.

The tobacco manufacturers are resting upon their oars. They hardly know whether to make more or sell out what they have. This embarrassment is caused by their not knowing whether the tax on hand on the 1st of May will fall under the reduction which will be made in the tax on and after that date, or whether it will be only the tobacco manufactured after that date which will get the benefit of the reduced tax.

Theatrical People.

Blind Tom is the only negro pianist on the stage. Miss Louise Pomeroy so pleased the people of Jackson, Miss, by her acting that they immediately subscribed \$100 to induce her to play another night.

Poor Kate Claxton is in trouble again. In Louisville last Wednesday night some one stole her satchel containing four hundred dollars worth of jewelry. It is said that Mr. J. T. Raymond has surprised and delighted everybody by his acting of the old shoemaker, in the drama of My Son. His make-up in the last act was wonderfully fine, and his acting was very tender, truthful and beautiful.

The Holmans seem to be meeting with fair success with the opera H. M. S. Pinafore. It is a noticeable fact that the opera generally disconcerts many audiences on its first presentation, but rarely fails in the end to become very popular. Is this because expectations have been raised too high?

Andrew Jackson, the "home man" of the Georgia people, has been arrested in Oswego for stealing a gold watch from a young man of Pittston, Pa. It appears from his statement that the watch was stolen by another person and he was used as a cat's paw in disposing of it at a pawn-shop.

Maurice Barrymore who was recently shot in Marshall, Texas, by a ruffian is, we believe, the same who played Orlando with Fanny Davenport in "As You Like It" when she was in Charlotte over a year ago. Remember him? A handsome fellow and a first-rate actor. "He has been playing in Diplomacy" this year.

Among the Farmers.

There were a good many farmers in the city yesterday and they all speak encouragingly of the preparation for corn and cotton crops. Only a few have as yet begun to plant corn, but it is believed that more will be planted in Mecklenburg this year than for several years past.

Nothing so improves the agriculture of a neighborhood as to have the improvement fever break out there in spots. It is sure to spread, and the chaps who take it quickest will have it easiest and feel the best after it is over. It has broken out in several parts of Mecklenburg.

A farmer gives the following as an easy method of measuring corn in the ear: Multiply the length by the breadth and this product by the depth of the corn in the pen. Multiply this again by 48, and the result will be the bushels. For instance: we have a pen of corn 48 feet long, 7 1/2 feet wide and 8 1/2 feet high. Multiplying these three dimensions together, we have 3,000 cubic feet. It is sure to yield 45, we have 13,770. Pointing off the one decimal, we have as the contents of the pen 1,377.

Yesterday a farmer brought a wagon load of sweet to the city. His wife betted him to bring in a small bucket of butter and several dozens of eggs, and when he counted up the proceeds of her dairy and coop, he had barely doubled the price of the sweet. The cow and the hen are immense factors in our productive wealth. It will astonish some people to know that the value of the annual product of butter and cheese in the United States is \$50,000,000.

It is a fact that the wheat crop, yet such is the fact, the former being \$350,000,000, and the latter about \$300,000,000.

Death from Lock-Jaw.

A colored man named Rankin, whose home was in the southern section of the city, stuck a pitchfork into one of his legs, last Wednesday night. Lock-jaw ensued and he died day before yesterday. It has been a long while since there has been a case of lock-jaw in Charlotte. A physician, who has at different times seen fifteen cases of it, has never known but one to recover, and that was the case of a colored woman. It is said that owing to some constitutional peculiarity negroes are much more susceptible to it than whites.

A Nuisance to be Abated.

Notice was yesterday served upon some of the fertilizer agents that they must remove their fertilizers beyond the city limits between the present time and next Saturday, and it is fair to presume that all the others will be likewise instructed. Certainly it is to be hoped so. The citizens have already borne this infliction too long. These orders had been previously issued a month ago, but it is much better that it should be done even at this late day than not at all.

Personal.

Judge Kerr's condition was not materially changed yesterday. We regret to state that Mrs. W. H. H. Gregory is still very ill.

Columbia Register: Col. Wm. Johnson, of Charlotte, favored us with a visit yesterday. We were as much pleased to see his cheerful face as we were in the morning, when, on opening our exchanges, we saw a production from his pen, giving cheering statistics as to the future prospects of the country. We were much impressed with the article that we give it entire in another column. Mr. Johnson returned to Charlotte last night.

Consumption cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a single vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and nervous complaints after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-countrymen. By this motive, and a desire to relieve human suffering, I will send you, free of charge, any quantity of his recipe, with full directions for preparing and using in German, French or English. Sent by mail in sealed packages, containing the name of W. Shear, 144 Powers' Block, Rochester, New York, Oct 9 '47.

Holiday Goods.

GREAT BARGAINS FOR THE HOLIDAYS.

J. T. BUTLER'S. J. T. BUTLER'S.

WATCHES. CLOCKS. JEWELRY.

Our Australian Trade. Since the establishment of the Pacific line of steamers, the trade between the United States and Australia has increased wonderfully, and Health's Balsam, for coughs, colds and all lung diseases, is now a regular article of export to that country, and one of their staple medicines.

A Remedy that has been Remedied.

The inevitable resurgence of bad cold every one to the small and favor of God Liver Oil, has prevented tens of thousands of the victims of deficiency from testing a certain peculiar healing and nutritive properties. The almost hopeless consumption, the marasmus, the emaciation, the living shadow of men, women and children that emerge from the clutches of malarial fevers, all of these know or at least their doctors know, that of all discovered remedies, this oil is the best, and often the only one that will build up their wasted bodies and restore their shattered nerves, and far more effective than the oil by itself is Scott's Emulsion of the Hypophosphates of Lime and Soda. This is the best and most natural food and medicine in the world, and wholly deprived of disagreeable qualities.

Consumption cured.

An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a single vegetable remedy, for the speedy and permanent cure for consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive and radical cure for nervous debility and nervous complaints after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellow-countrymen. By this motive, and a desire to relieve human suffering, I will send you, free of charge, any quantity of his recipe, with full directions for preparing and using in German, French or English. Sent by mail in sealed packages, containing the name of W. Shear, 144 Powers' Block, Rochester, New York, Oct 9 '47.

Consumption cured.
