THE POOLING OF FREIGHTS AND THE GIV. ING AND TAKING OF REBATES.

The General Assembly at its recent session passed a bill entitled "an act to prevent discrimination in freight tariffs | Representatives. by railroad companies operating in this State." The bill as it became a law has never been published in full and there has been much anxiety to learn its provisions. In response to a letter on the subject, Mr. Orchard, of Cabarrus, who introduced the original bill on the subject, has kindly furnished us with the text of his bill; but for his bill the Senate substituted the following, which was subsequently concurred in by the House; and the following, therefore, we take to be, if not the text, at least the essence, of the bill as it became a law: AN ACT TO PREVENT DISCRIMINATION

OPERATING IN THIS STATE.

That it shall be unlawful for railroad companies operating in this State to pool freights or to allow rebates on freights, and all persons whether railroad officials or others, who shall be concerned in the pooling of freights, or who shall directly for indirectly allow or accept rebates on freights, shall be guilty of a misdemeanor, and on conviction shall be fined one thousand (1000) dollars and imprisoned not less than twelve months.

This act shall be in force from and after its ratification.

The provisions of this act are plain and require no elucidation. Whether an indictment under it will lie or not is a question concerning which there are differences of opinion. To-day the convention of railroad managers meets in Releigh to consider the whole question and to decide what is necessary to be done by them in view of the prohibitions laid upon them in this act. They gality of the law or they may shape their course so as to conform with it. It act is not recoverable. It is maintained by these that it is too vague and the they hold, is slang, and next to meaningless. Again, they say that even if the language was such as to sustain an indictment, the act would be worthless because an agreement to pool freights, made in South Carolina, would not be indictable here, for the reason that the overt act was not committed in this

On the contrary it is held that by all rules of construction a court must treat the word "pooling" in its technical sense, or in the case of a suit against a railroad in its common acceptation-as applied to freights. In other words it would be construed, in accordance with well-established custom in rerum na-

The question is purely a legal one and we do not undertake to decide it. We: merely give the arguments pro and con. It will be interesting to know what notion the meeting to be held to-day will take in the premises. At all events, so far as Charlotte is concerned, no good is to result to us from the new law. Pools go to pieces by reason of their own weight; they always have done so and always will, and our people have never asked for their formation to be prohibited by law. To this extent the forbids the giving or taking of rebates | ing office. men of Rock Hill. Spartanburg and vantage over us. It might be well defended if the bill redounded to the benso far as appears this is not the case, There is no provision preventing dis be exc North Carolina towns where there is railroad competition, without any cor-

Ease Attainable by the Cheumatic.

Yes, although they may despair of relief, it is attainable by rheumatic sufferers, for there is a remedy which carries off, by means of increased activity of the kidneys-important channels for blood purification—the acrid element to which pathologists the most eminent attribute the painful symptoms—a theory completely borne out by urin ary analysis. The name of this grand depurent is Hostetters, a preparation likewise celebrated as a remedy for constipation, which causer contamina tion of the blood with the bile—and a certain means of relief in dyspepsia, fever and ague, and nervous ailments. It is, perhaps, the finest tonic extant, and is highly recommended as a medicinal stimulant by distinguished physicians and analysts who pronounce it to be eminently pure and very beneticial. The press also endorses it.
